BACKGROUND OF THE BAYLOR CENTER FOR COMMUNITY RESEARCH AND DEVELOPMENT

Mission

The Center for Community Research and Development (CCRD) was established at Baylor University in 1979 as a multidisciplinary entity with a mission of **engaging Baylor faculty and students in applied social research to improve the local quality of life**. Over time, the CCRD has broadened its focus, sometimes engaging in statewide or national research, and the CCRD has become closely linked with Baylor's Ph.D. program in Applied Sociology, where Ph.D. students serve as center research analysts. Still, our research remains multidisciplinary and many of the CCRD's projects retain a local quality of life focus.

Facilities

The CCRD originally worked out of faculty offices in Sociology and Political Science and moved into its own facilities in 1990, when the operations center was located in the basement of the Sid Richardson Science Building. The CCRD moved to Suite 300 of the Robinson Tower in 1994. These modern facilities allow easier access to the community and include:

- offices for Center directors, six doctoral students, research analysts, and a project coordinator,
- focus group facilities with a separate observation room and recording equipment,
- a conference room for meetings and graduate seminars,
- report production facilities for CCRD documents,
- a local area network with Windows operating systems, and
- a Computer Assisted Telephone Interviewing (CATI) system.

Services

The Center for Community Research and Development is equipped to undertake a wide variety of projects for organizations, businesses, industries, and governmental agencies. Services include:

- Mail Surveys
- Telephone Surveys
- Questionnaire design
- Needs assessments
- Program planning and evaluation
- Impact assessments
- Population trend studies and projections
- Data collection and analysis
- Sampling designs
- Focus groups
- Seminars and workshops on community issues
- Mock Juries and Jury Consulting

Society for Applied Sociology

From 1998 through 2001, the CCRD served as the administrative office for the Society for Applied Sociology, an international organization for professionals involved in applying sociological knowledge in a wide variety of settings. The CCRD retains an active membership in SAS and Dr. Tillman Rodabough is the President. The mission statement for SAS is to:

- Provide a forum for sociologists and others interested in applying sociological knowledge.
- Enhance understanding of the interrelationship between sociological knowledge and sociological practice.
- Increase the usefulness and effectiveness of applied sociological research and training.

Selected Previous Clients

The CCRD has served a varied clientele on a large number of issues. Representative projects include:

- **Telephone surveys** for the City of Waco, Southwestern Bell, the *Waco Tribune-Herald*, Houston Profile Project
- **Site location research** for the Perryman Group, American Airlines
- **Needs assessments** for the Baptist General Convention of Texas, the United Way, HOTCOG
- **Population projections** for the Heart of Texas Council of Governments, Heritage House
- **Focus groups** for Creative Education Institute, Baylor University, EEOC, City of Waco, the United Way
- **Mail-out surveys** for Hillcrest Baptist Medical Center, the City of Woodway, Baptist General Convention of Texas
- **Intercept surveys** for Richland Mall, the Texas Ranger Museum, the Dr. Pepper Museum
- **Mock juries** and **change of venue** research for Amarillo, Dallas and Waco law firms
- **Program assessments** for the McLennan County Youth Collaboration, Waco Police Department
- **Door-to-door surveys** for the Waco Housing Authority, Mission Waco, Drug Prevention Resources
- **Voter exit interviews** for the Dallas Independent School District
- **Institutional evaluation** for San Marcos Baptist Academy, the BGCT Education Commission. Baptists in Scouting, Baylor University, Waco Independent School District
- **Program development** for the Cooper Foundation, the Junior League, MHMR

Fees

The CCRD is a non-profit service center for the community and University. Fees charged for research projects represent actual costs for services and enable the CCRD to be self-supporting.

Staff

- **Dr. Larry Lyon** is Director of the CCRD, Dean of the Graduate School, and Professor of Sociology in the Department of Sociology and Anthropology (Larry_Lyon@Baylor.edu).
- **Dr. Tillman Rodabough** is Research Director for the CCRD and Professor of Social Psychology in the Department of Sociology (Tillman_Rodabough@Baylor.edu).
- **Mrs. Debbie Marable** is the Projects Coordinator for the CCRD, Graduate Program Assistant for Sociology and a graduate of Baylor University (Debbie_Marable@Baylor.edu).
- **Dr. Carson Mencken** is Associate Professor of Sociology and Graduate Program Director for Sociology, with research expertise in statistical analysis and spatial modeling and serves as a research professor for CCRD (Carson_Mencken@Baylor.edu).
- **Dr. Robyn Bateman Driskell** is Associate Professor of Sociology with expertise in demography and serves as a research professor for the CCRD (Robyn_Bateman@Baylor.edu).
- **Dr. Charles Tolbert, II** is Professor and Chair, Department of Sociology and Anthropology and GIS and census data consultant for CCRD (Charlie_Tolbert@Baylor.edu).
- **Lacey C. Wiggins, M.A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Lacey_Chapman@Baylor.edu).
- **Rusty Parker, M. A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Rusty_Parker@Baylor.edu).
- **Jodien Matos** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jodien_Matos@Baylor.edu).
- **Kathy Krey** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Kathy_Krey@Baylor.edu).
- **Jeniece Williams** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jeniece_Williams@Baylor.edu).
- **Elizabeth Terrazas-Carrillo** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Elizabeth_Terrazas-Carrillo @Baylor.edu).
- **Liz Embry** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Elizabeth_Ninneman@Baylor.edu).

Each staff person can also be contacted at the CCRD office (254) 710-3811 or e-mailed at CCRD@Baylor.edu. Our website address is <http://www.Baylor.edu/CCRD>

Background of the Poll

Center for Community Research and Development
Poll 98
(September 2004)

In the fall of 2003, the Center for Community Research and Development (CCRD) conducted a scientific poll to assess religious and lifestyle practices and beliefs in 45 communities in the Greater Houston Area. Questions for the poll were developed by CCRD researchers using national polls on lifestyles and religion as a guideline.

From October 1 through November 15, a total of 2,419 Greater Houston Area residents were interviewed using a Computer Assisted Telephone Interviewing (CATI) system. The CATI technology allows control over the interviewing process and automates data entry. The sample was selected from a computer-generated set of random phone numbers. Random generation includes residents with unlisted numbers. Other steps taken to ensure the quality of the poll include: (1) testing and editing experimental versions of the questionnaire to increase the clarity and reliability of each question; (2) intensive training for each interviewer; (3) continual monitoring of interviews by social science Ph.D.s; (4) daily review of work and interviewing procedures and results by the CCRD staff; (5) calling during times established in previous studies to provide the most representative sample; (6) making up to five call-backs for each phone number to avoid distorting the sample toward the more easily accessible residents; (7) using special “screens” to increase the number of male and minority respondents; (8) purchasing a special bank of phone lines with “Community Research” as the caller identification label rather than the standard label, “Baylor University;” and (9) employing Spanish speaking interviewers for households where Spanish is the primary language.

The demographic characteristics of the sample resemble those of demographics available through external sources. While the sample is largely representative of the population, minority ethnic groups were slightly under-represented among respondents in the poll. To compensate, this analysis uses weighted data to ensure a more representative sample. The final sample is comparable to official data available on the 45 communities in the Greater Houston Area’s 3,097,362 adults. For example, the sample used in the analysis is approximately 58% “Anglo,” 20% Hispanic, and 17% African-American.^[1] The percentages for African Americans and Anglos closely reflect recent Census estimate population numbers for the 45 communities in the Greater Houston Area.^[2] Other population numbers/sample comparisons suggest similarly low levels of bias.

For the overall response distributions of the questionnaire data, the responses will typically vary by less than 3 percentage points in either direction at the 95% confidence level. For cross-tabulation tables that analyze smaller portions of the sample by dividing it into various categories such as race or education, the percentage of variation will be considerably higher.

^[1] Throughout this report, the terms “White” and “Anglo” refer to non-Hispanic whites. “African-American” and “Black” are used interchangeably.

^[2] 2002 Census estimates show a total adult population of 3,097,362 for the 45 communities in the Greater Houston Area. Of the approximately 3,097,362 adults: about 45.0% are Anglo, 17.5% African American, 30.2% Hispanic, 0.4% American Indian, 5.4% Asian/Pacific Islander and 1.4% are Multi-Racial.

Executive Summary

Center for Community Research and Development

Aldine Area (CSA #1)

- The racial/ethnic composition of the Aldine CSA is diverse; having a significantly higher percentage of Hispanics compared to the Greater Houston Area.
- Overall, the Aldine CSA has a younger population than the Greater Houston Area.
- The Aldine CSA has a higher percentage of adults without a high school diploma than the Greater Houston Area (46.4% vs. 22.8%).
- The income levels in the Aldine CSA are significantly lower than in the Greater Houston Area, in each income category.
- There are significantly more households in the Aldine CSA, consisting of six or more persons, than in the Greater Houston Area (11.6% vs. 6.2%).
- The Aldine CSA ranks second from the bottom of all CSAs in the Greater Houston Area on neighborhood satisfaction.
- The Aldine CSA ranks just below the middle of all CSAs in the Greater Houston Area on family satisfaction.
- The Aldine CSA ranks seventh from the top of all CSAs in the Greater Houston Area on success at balancing work and family.
- The Aldine CSA ranks in the bottom third of all CSAs in the Greater Houston Area on overall happiness.
- The Aldine CSA ranks eighth of all CSAs in the Greater Houston Area on weekly church attendance.
- The majority of adults in the Aldine CSA do not attend church on a weekly basis.
- The Aldine CSA ranks just below the middle of all CSAs in the Greater Houston Area, on percent who never attend church.
- In the Aldine CSA, over 8,800 adults never attend church.
- The Aldine CSA ranks tenth of all CSAs in the Greater Houston Area on percent who consider themselves born again.
- The Aldine CSA ranks fifth of all CSAs in the Greater Houston Area on percent who are likely to see a religious counselor when they have problems.
- The Aldine CSA ranks third of all CSAs in the Greater Houston Area on percent who would seek help in a place of worship, when they have problems.
- The Aldine CSA ranks eleventh all CSAs in the Greater Houston Area on percent who pray when they have problems.
- The Aldine CSA ranks eleventh of all CSAs in the Greater Houston Area on percent who have no doubts about the existence of God.

CSA #1**

Demographics

Center for Community Research and Development
Community Poll 98

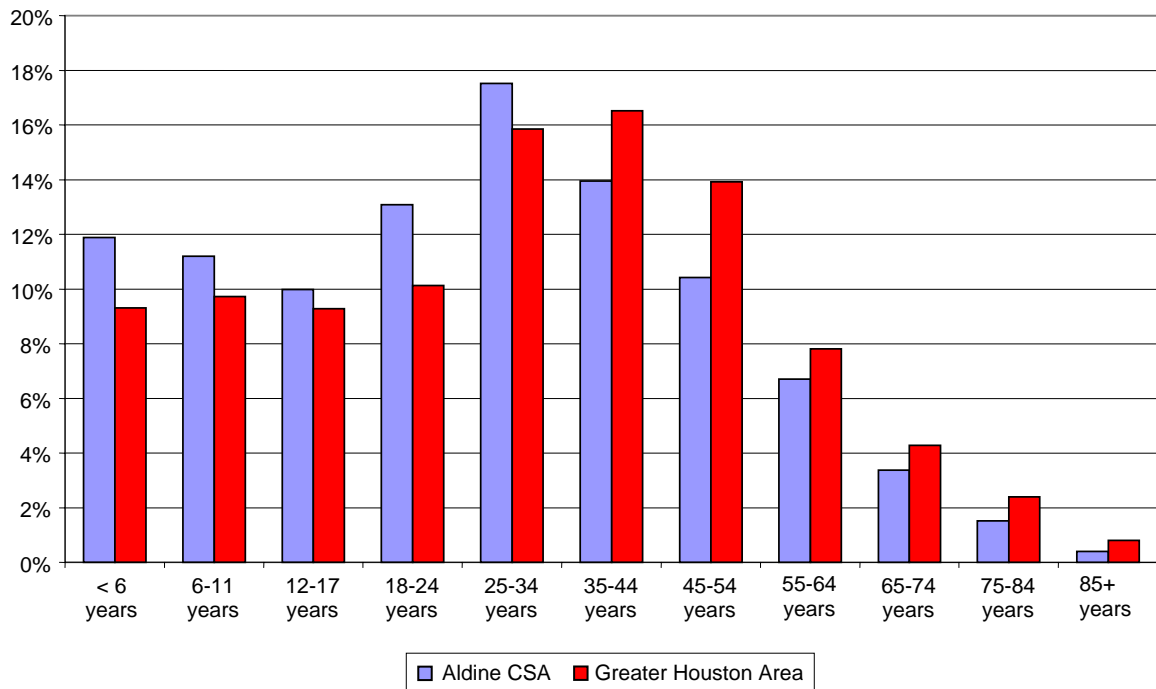

**Population by Race/Ethnicity
Aldine CSA and Greater Houston Area**

- There is a significantly higher percentage of Hispanics in the Aldine CSA, compared to the Greater Houston Area (55.8% vs. 30.2%).
- Likewise, the Anglo population of the Aldine CSA has a lower percentage than that in the Greater Houston Area (18.7% vs. 45.0%).
- However, the Black populations of the Aldine CSA and the Greater Houston Area vary only slightly in percentage (21.3% vs. 17.5%).
- There is a lower percentage of the Asian/Pacific Islander population in the Aldine CSA, compared to that of the Greater Houston Area (1.8% vs. 5.4%).

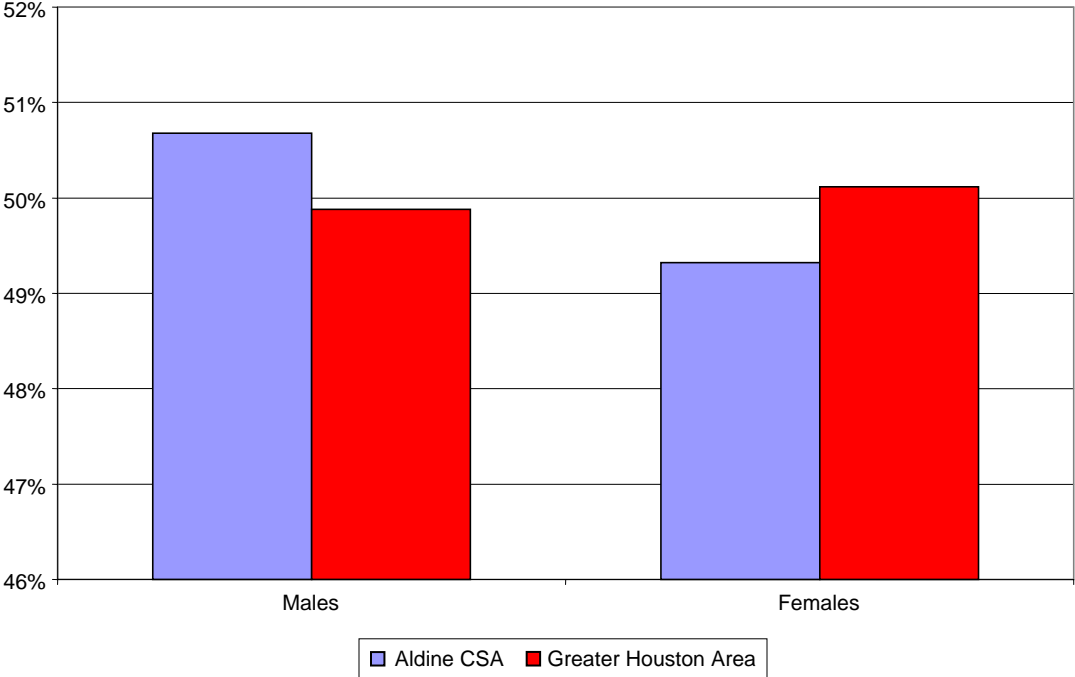

**Population by Age
Aldine CSA and Greater Houston Area**

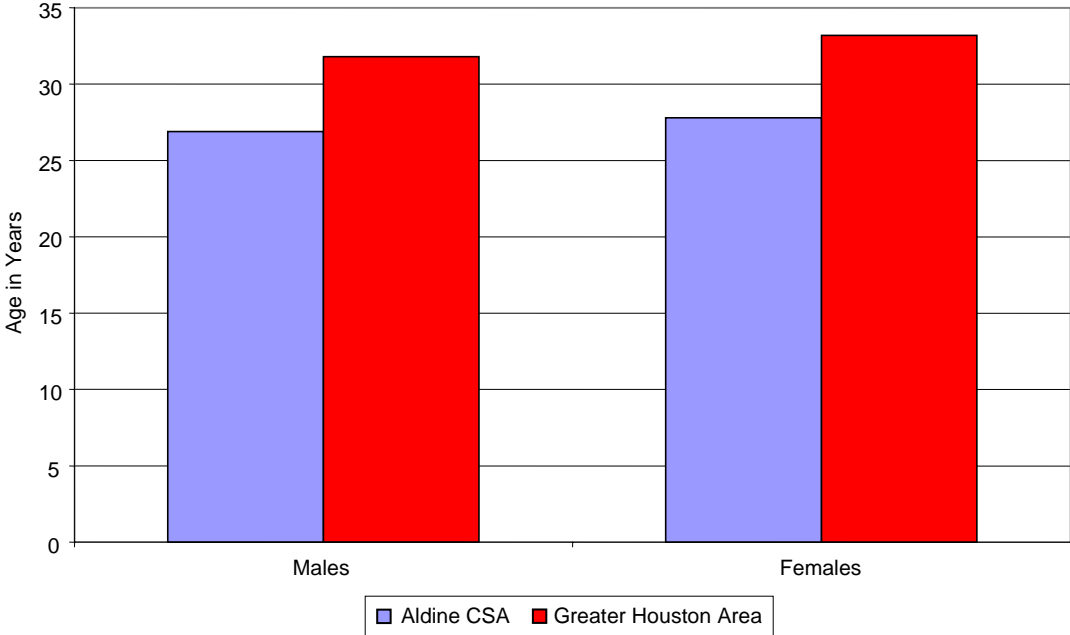

- Overall, the Aldine CSA has a younger population than the Greater Houston Area.
- For all age categories under 35 years, the Aldine CSA has a higher percentage than the Greater Houston Area (63.7% vs. 54.3%).
- The percentage of persons under the age of six years is slightly higher in the Aldine CSA than in the Greater Houston Area (11.9% vs. 9.3%).
- The percentage of persons between the ages of 18 and 24 is slightly higher in the Aldine CSA than in the Greater Houston Area (13.1% vs. 10.1%).
- For all ages 35 years and above, Aldine CSA has a lower percentage than the Greater Houston Area (36.3% vs. 45.7%).

**Population by Gender
Aldine CSA and Greater Houston Area**

**Median Age by Gender
Aldine CSA and Greater Houston Area**

- The Aldine CSA has a slightly higher percentage of males than the Greater Houston Area (50.7% vs. 49.9%).
- The median age for males in the Aldine CSA, is younger than for males in the Greater Houston Area (26.9 years vs. 31.8 years).
- Likewise, the Greater Houston Area has a higher percentage of females than the Aldine CSA (50.1% vs. 49.3%).
- The median age for females in the Aldine CSA is also younger than for females in the Greater Houston Area (27.8 years vs. 33.2 years).

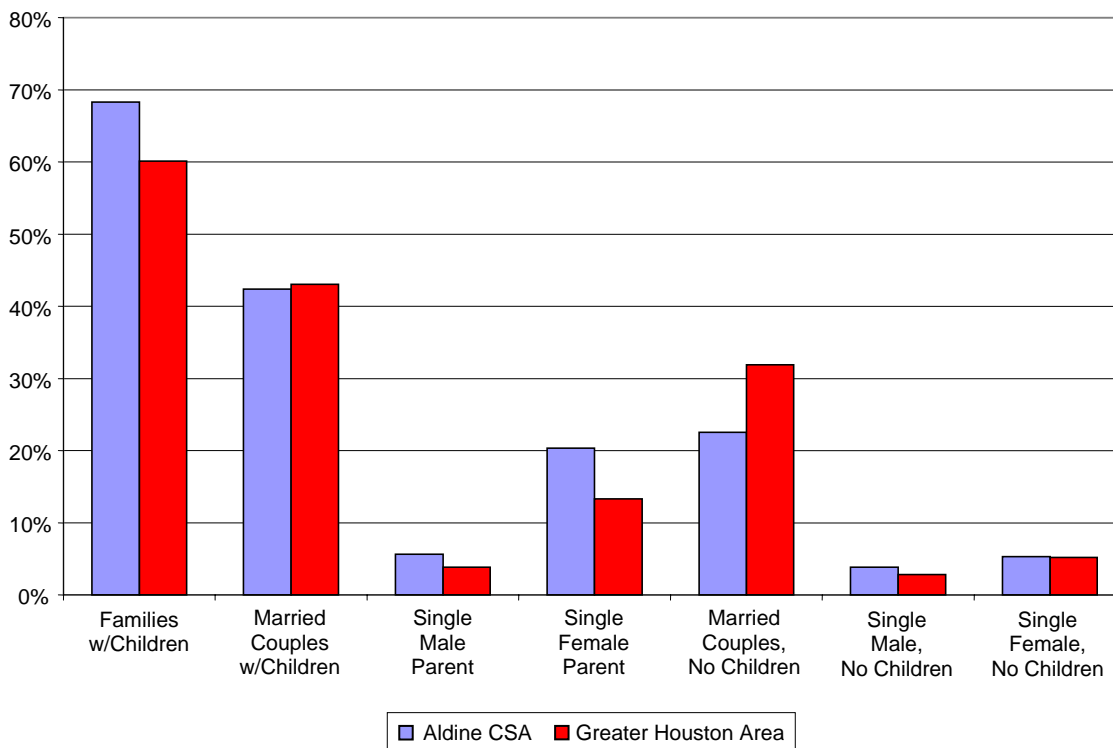

**Educational Attainment for Adults 25+
Aldine CSA and Greater Houston Area**

- The educational attainment of the Aldine CSA varies greatly from that of the Greater Houston Area among adults age 25 and older.
- The percentage of adults without a high school diploma in the Aldine CSA, is over 2 times higher than in the Greater Houston Area (46.4% vs. 22.8%).
- There is a slightly higher percentage of adults with only a high school diploma in the Aldine CSA, than in the Greater Houston Area (28.5% vs. 22.0%).
- In each of the other educational levels, the Aldine CSA has lower percentages than the Greater Houston Area.

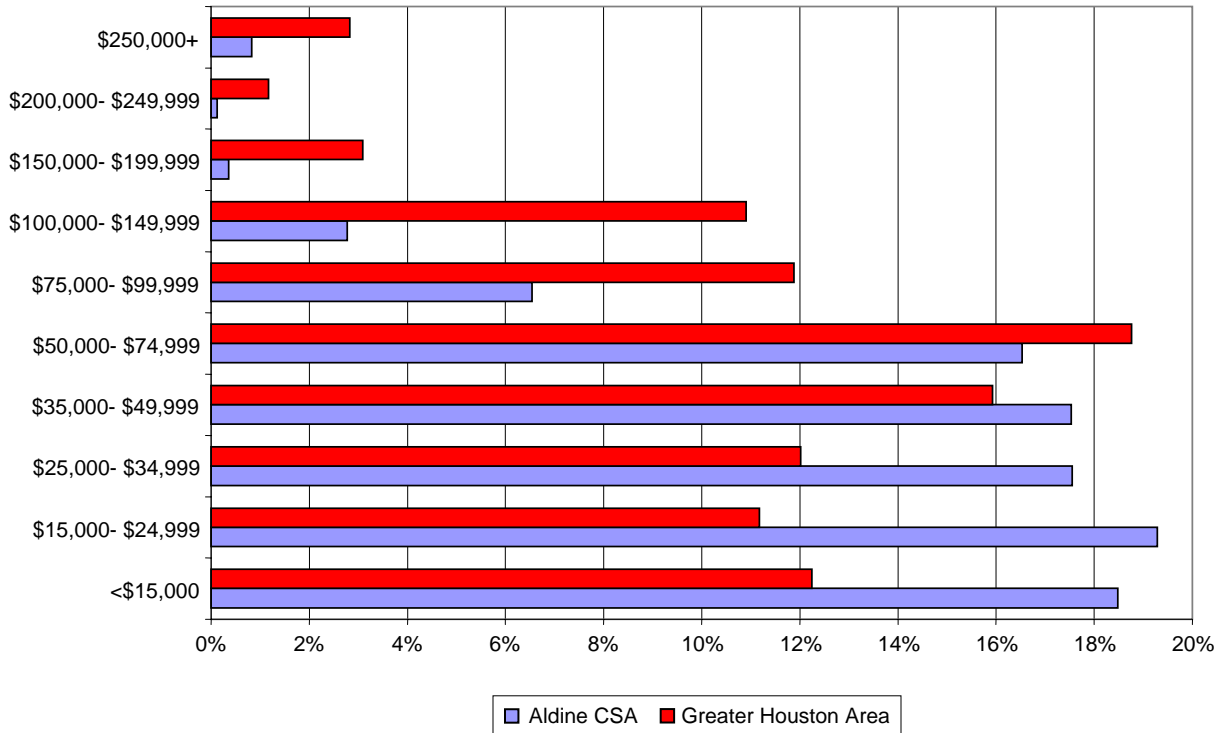

**Family Households by Type
Aldine CSA and Greater Houston Area**

- There is a higher percentage of families with children in the Aldine CSA, compared to the Greater Houston Area (68.3% vs. 60.1%).
- There is a higher percentage of married couples with children in the Greater Houston Area, compared to the Aldine CSA (31.9% vs. 22.5%).
- There is a higher percentage of single female parents in the Aldine CSA than in the Greater Houston Area (20.3% vs. 13.3%).

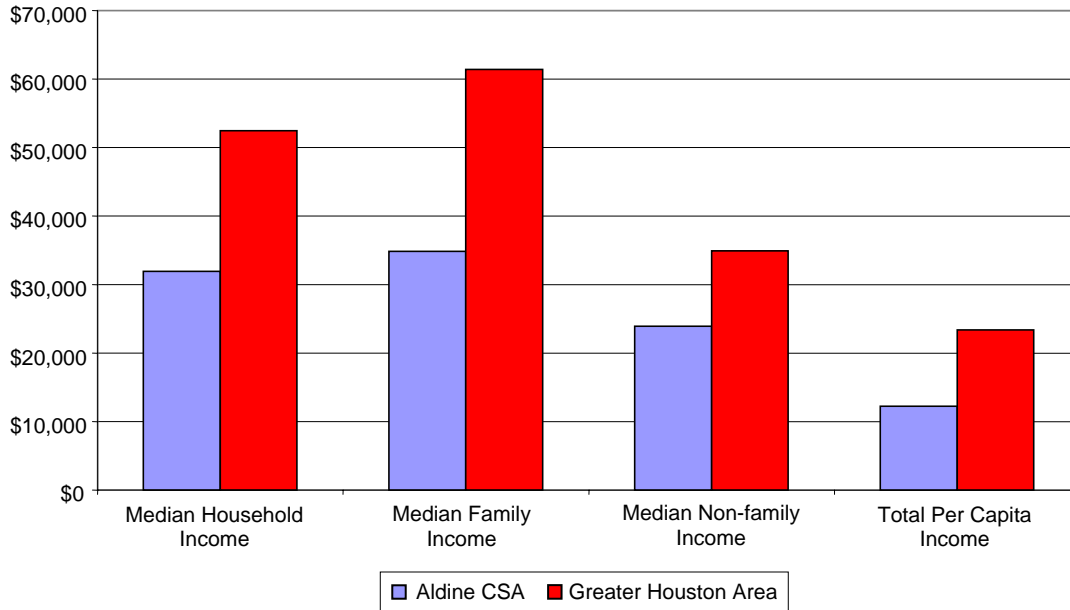

**Households by Income
Aldine CSA and Greater Houston Area**

- Generally, in all categories, the income levels in the Aldine CSA are lower than those in the Greater Houston Area.
- Overall, in the low to mid-income categories (<\$15,000-\$49,999) the Aldine CSA has higher percentages than the Greater Houston Area (72.8% vs. 51.3%).
- In the \$15,000 to \$24,999 income category, the Aldine CSA has a significantly higher percentage than the Greater Houston Area (19.3% vs. 11.2%).
- In the upper mid to high-income categories (\$50,000 to \$250,000+) the Aldine CSA has lower percentages than the Greater Houston Area (27.1% vs. 48.7%).
- In the \$200,000 to \$249,000 income category, the Aldine CSA is 12 times lower compared to the Greater Houston Area (0.1% vs. 1.2%).

Income Dynamics Aldine CSA and Greater Houston Area

- In each income category, incomes levels in the Aldine CSA are significantly lower than in the Greater Houston Area.
- The Median Household income of the Aldine CSA is significantly lower than that of the Greater Houston Area (\$31,947 vs. \$52,462).
- The Median Family income of the Aldine CSA is significantly lower than that of the Greater Houston Area (\$34,858 vs. \$61,391).
- The Median Non-family income of the Aldine CSA is significantly lower than that of the Greater Houston Area (\$23,915 vs. \$34,908).
- The Total Per Capita income of the Aldine CSA is almost half that of the Greater Houston Area (\$12,231 vs. \$23,402).

**Total Housing Units
Aldine CSA and Greater Houston Area**

- The Aldine CSA has a higher percentage of renter-occupied housing units than the Greater Houston Area (47.0% vs. 37.4%).
- Likewise, the Aldine CSA has a lower percentage of owner-occupied housing units than the Greater Houston Area (40.3% vs. 55.6%).
- In the Aldine CSA, more housing units are occupied by renters, than by owners (47.0% vs. 40.3%).
- The Aldine CSA has a much higher percentage of vacant housing units, than in the Greater Houston Area (12.7% vs. 7.1%).

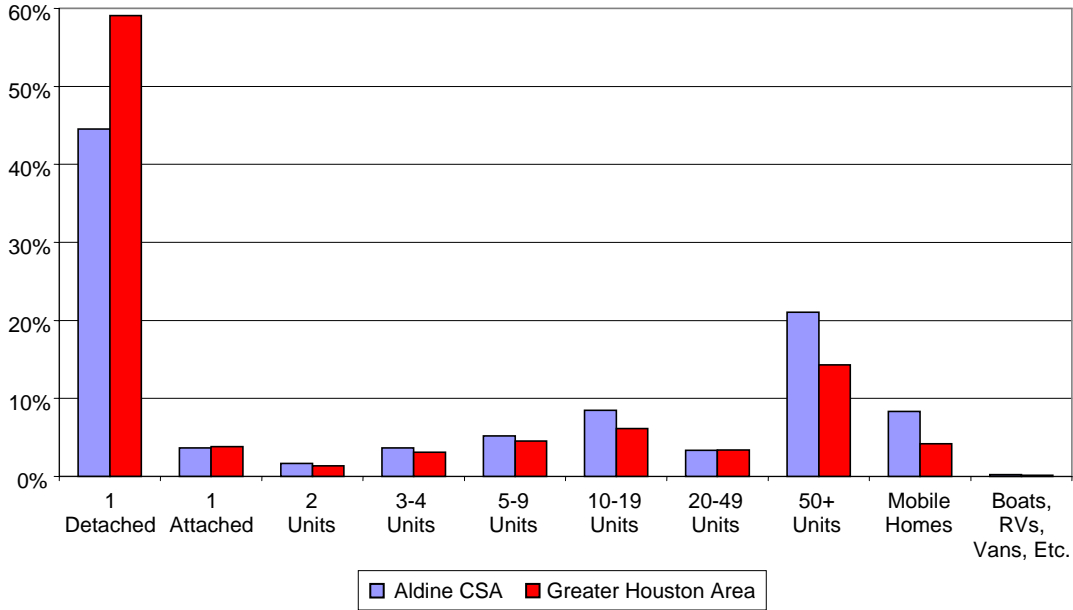

**Housing Units by Year Built
Aldine CSA and Greater Houston Area**

- The Aldine CSA has a significantly higher percentage of housing units built in the 1970s than the Greater Houston Area (43.5% vs. 26.5%).
- During the 1960s, a higher percentage of housing units were built in the Aldine CSA, than in the Greater Houston Area (20.8% vs. 13.7%).
- In all other years, the percentage of housing units built in the Aldine CSA was lower than that of the Greater Houston Area.

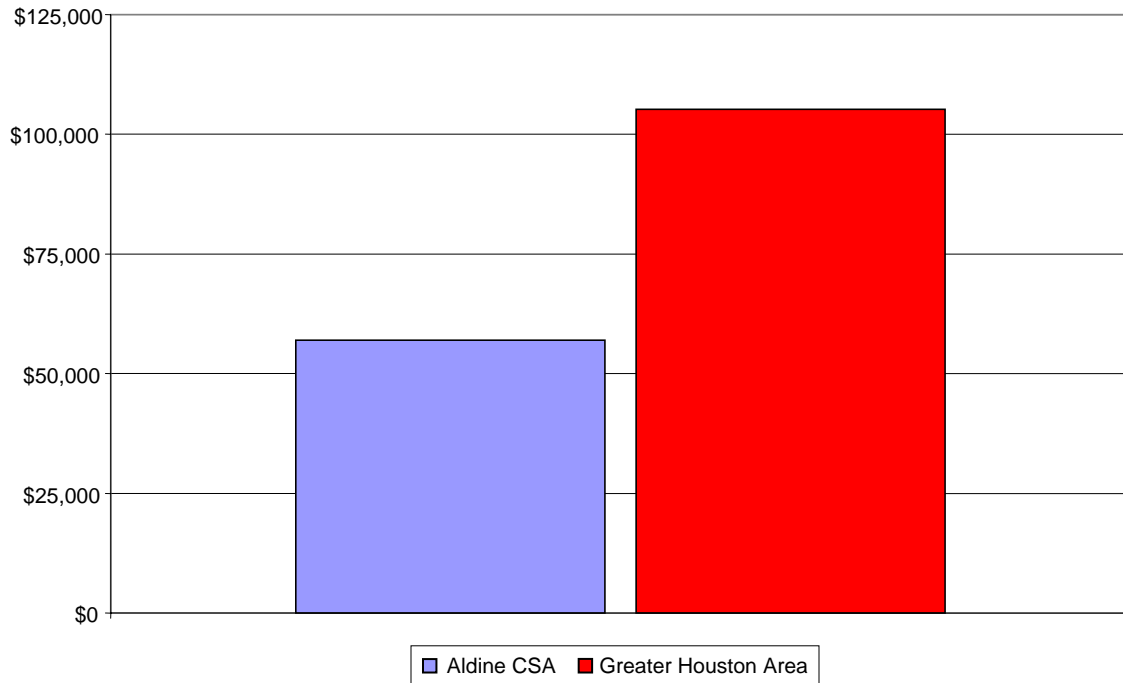

**Housing Units by Type
Aldine CSA and Greater Houston Area**

- The Aldine CSA has a lower percentage of single detached housing units, than the Greater Houston Area (44.5% vs. 59.1%).
- However, the Aldine CSA has a higher percentage of 50+ housing units than the Greater Houston Area (21.0% vs. 14.3%).
- The percentage of mobile homes in the Aldine CSA is nearly twice that of the Greater Houston Area (8.3% vs. 4.2%).
- In all other housing unit categories, there is little variation between the Aldine CSA and the Greater Houston Area.

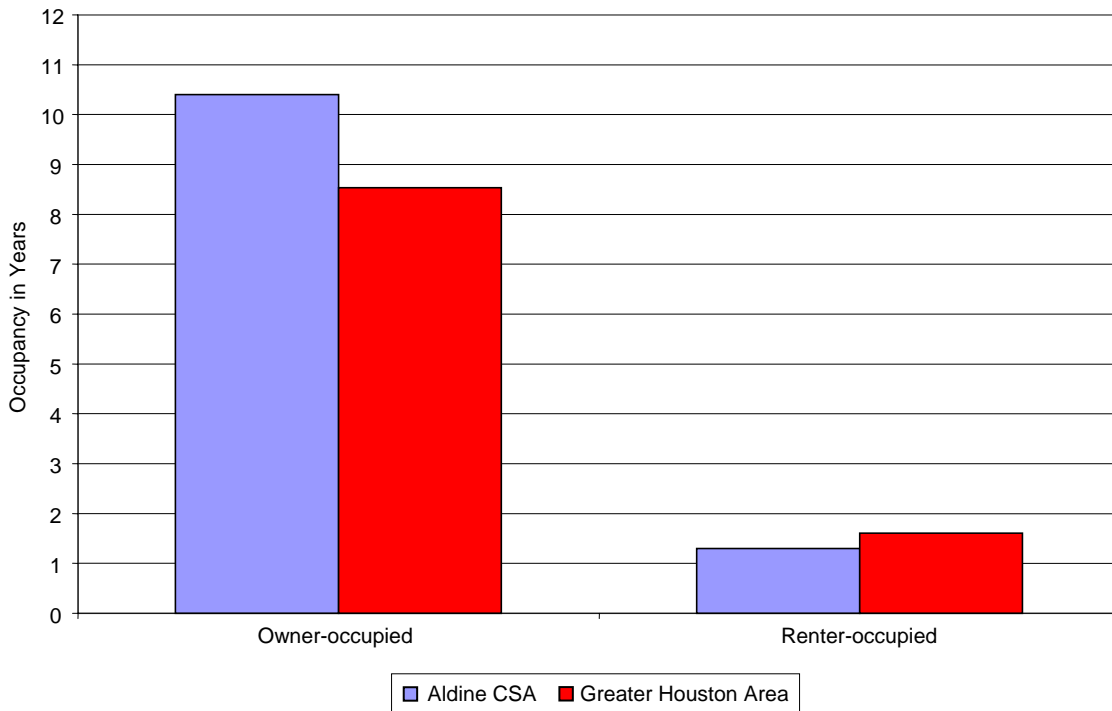

**Median Home Value
Aldine CSA and Greater Houston Area**

- The median home value for the Aldine CSA, is just over half the value for the Greater Houston Area (\$57,016 vs. \$105,209).

**Median Length of Occupancy
Aldine CSA and Greater Houston Area**

- The median length of occupancy is generally longer for dwellings that are occupied by the owner, and shorter for those occupied by a renter.
- In owner-occupied dwellings, the median length of occupancy in the Aldine CSA is longer than that in the Greater Houston Area (10.4 years vs. 8.5 years).
- However, for renter-occupied dwellings, the median length of occupancy in the Aldine CSA is slightly shorter, compared to the Greater Houston Area (1.3 years vs. 1.6 years).
- In the Aldine CSA, the median length of occupancy for owner-occupied dwellings is 8 times longer, than for renter-occupied dwellings (10.4 years vs. 1.3 years).

**Households by Count of Vehicles Available
Aldine CSA and Greater Houston Area**

- In the Aldine CSA there is a higher percentage of households with no vehicles available, than in the Greater Houston Area (13.3% vs. 7.7%).
- The Aldine CSA has less multi-vehicle households compared to the Greater Houston Area.

**Households by Count of Persons
Aldine CSA and Greater Houston Area**

- The Greater Houston Area has a higher percentage of one-person and two-persons households than the Aldine CSA (51.8% vs. 42.6%).
- In all categories containing three or more persons, the Aldine CSA maintains higher percentages than the Greater Houston Area.
- Interestingly, in the 6+ persons category, the percentage of Aldine CSA households is almost twice that of the Greater Houston Area (11.6% vs. 6.2%).

Houston Profile Project Aldine Area CSA #1

CSA Rankings

By
Key Lifestyle and Religion Questions

In this section we rank order the 45 CSAs by key religious and lifestyle questions. We use a form of hierarchical modeling in which individual responses to the lifestyle and religion questions in the HPP Poll are estimated with key socio-demographic measures from each CSA. These measures include age structure, race and ethnic composition, household structure, education, income, and housing values. The analysis produces an estimated average response to each question for each of the 45 CSAs. We subsequently rank the 45 CSAs based on these responses, and provide tables of these rankings in this section of the report. Please note that the measures reported here are those for which the hierarchal analysis proved useful. For some measures, the models did not perform well enough to allow us to report rankings with an acceptable level of confidence.

Percent Who Receive a Great Deal of Satisfaction from Their Neighborhood Aldine CSA

- The Aldine CSA ranks second from the bottom of all CSAs in the Greater Houston Area on neighborhood satisfaction.
- Only 27.67% of adults living in the Aldine CSA receive a great deal of satisfaction from their neighborhood.
- There is much less neighborhood satisfaction in the Aldine CSA than in the Greater Houston Area.
- For the Greater Houston Area, 55% report receiving a great deal of satisfaction from their neighborhood.
- There are an estimated 67,569 adults living in the Aldine CSA.
- In the Aldine CSA almost 18,700 adults receive a great deal of satisfaction from their neighborhood.
- This means however, that almost 48,900 adults in the Aldine CSA are less satisfied with their neighborhood.

CSA by Percent Who Receive a Great Deal of Satisfaction from Their Family

Percent Who Receive a Great Deal of Satisfaction from Their Family Aldine CSA

- The Aldine CSA ranks just below the middle of all CSAs in the Greater Houston Area on family satisfaction.
- 75.93% of adults living in the Aldine CSA receive a great deal of satisfaction from their families.
- Family satisfaction in the Aldine CSA is somewhat lower than the family satisfaction value for the Greater Houston Area.
- For the Greater Houston Area, 79% report receiving a great deal of satisfaction from their families.
- There are an estimated 67,569 adults living in the Aldine CSA.
- In the Aldine CSA, over 51,300 adults receive a great deal of satisfaction from their families.
- However, that means almost 16,300 adults in the Aldine CSA do not receive a great deal of satisfaction from their families.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory family relationships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches may have an opportunity to make connections with those who do not receive a great deal of satisfaction with family life.

Percent Who Receive a Great Deal of Satisfaction from Their Friends Aldine CSA

- The Aldine CSA ranks in the lower third of all CSAs in the Greater Houston Area on satisfaction from friends.
- 43.69% of adults living in the Aldine CSA receive a great deal of satisfaction from their friends.
- This number is much lower than in the Greater Houston Area.
- For the Greater Houston Area, 69% report receiving a great deal of satisfaction from their friends.
- Adults in the Aldine CSA are much more satisfied with their families (75.93%) and friendships (43.69%) than with their neighborhood (27.67%).
- There are an estimated 67,569 adults living in the Aldine CSA.
- In the Aldine CSA over 29,500 adults receive a great deal of satisfaction from their friends.
- This means however, that over 38,000 adults in the Aldine CSA are less satisfied with their friendships.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory friendships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches have an opportunity to make connections with those who do not receive a great deal of satisfaction with friendships.

| 45 | 27.00 North Forest | 21.65% |

Percent Who Report Successfully Balancing Work and Family Aldine CSA

- The Aldine CSA ranks seventh from the top of all CSAs in the Greater Houston Area on success at balancing work and family.
- 33.23% of adults living in the Aldine CSA report being successful at balancing the dual demands of work and family.
- Compared with the Greater Houston Area, the Aldine CSA's percentage is just slightly lower.
- For the Greater Houston Area, 34% being successful at balancing the dual demands of work and family.
- There are an estimated 67,569 adults living in the Aldine CSA.
- In the Aldine CSA, almost 22,500 adults report being successful at balancing work and family lives.
- This means however, that over 45,100 adults, or the majority of adults in the Aldine CSA, are not as successful at balancing work and family lives.
- This is important for church missions because research shows that the strains of balancing work and family life are among the leading causes of family dissolution (Kendall 2004).
- Working in these Aldine CSA's neighborhoods to help families be more successful at managing the dual demands of family and work life is a potential community ministry program.

| 45 | 27.00 | North Forest | 36.58% |

Percent Who are Generally Happy with Their Lives Aldine CSA

- The Aldine CSA ranks in the bottom third of all CSAs in the Greater Houston Area on overall happiness.
- 43.59% of adults living in the Aldine CSA report being generally happy with their lives.
- This number is lower than in the Greater Houston Area.
- For the Greater Houston Area, 48% report being generally happy with their lives.
- There are an estimated 67,569 adults living in the Aldine CSA.
- In the Aldine CSA almost 29,500 adults report being generally happy.
- However, over 38,100 adults in the Aldine CSA, are not very happy.
- As with satisfaction with family and friends, those who are not happy may be more amenable to new relationships. This is important for church outreach missions because research by Stark (2000) shows that people who are not happy are open to ministry.

Aldine Area

CSA #1

Key Leader Interviews

In this section, the results from individual, face-to-face interviews with key leaders in the CSA community are presented. The interviews were conducted by HPP volunteers using a standardized questionnaire developed by CCRD. Various key positions within the community were identified and the individual leaders that filled that particular position were contacted. If the key leader agreed to an interview, the results are included, maintaining confidentiality. The various responses are listed by question and categorized by topic. The key leader positions included elected community leaders, managers of large employers in the area, principals of local schools, civic organization leaders, labor union leaders, local Chamber of Commerce representatives, editors of neighborhood newspapers, directors of minority interest group, law enforcement officers, and leaders of major places of worship.

Center for Community Research and Development
Community Poll 98

Key Leader Interviews CSA #1 – Aldine Area

What are the best things about the Aldine CSA?

Community Involvement

- Active civic groups.
- True sense of community.
- People are warm and open.

Location

- Great mobility to job centers, freeways, and airport.
- Accessibility to Downtown.
- Lots of available land.

What are the major problems facing the area?

Crime

- Gang problems.

Transportation

- Getting Metro Rail from airport to Greenspoint and Downtown.

Services and Infrastructure

- No potable water- homes have wells and septic tanks.
- Image problem.
- Economy.

Do the local places of worship play any roles in the three best things?

- Churches contribute to the sense of community.
- Churches offer civic groups a place to house their meetings.

Are there other contributions that places of worship are making to the area?

- Northwest Assistance Center Ministry provides food, clothing, and toys during the Christmas holidays.
- One church started a “midnight” basketball program to combat gang problems. The program led to GED classes, life skill classes, and a men’s group that holds a pancake breakfast with prayer afterwards.

Can you think of any ways local places of worship help with addressing these problems?

- Helping to support people hurt by the economy.

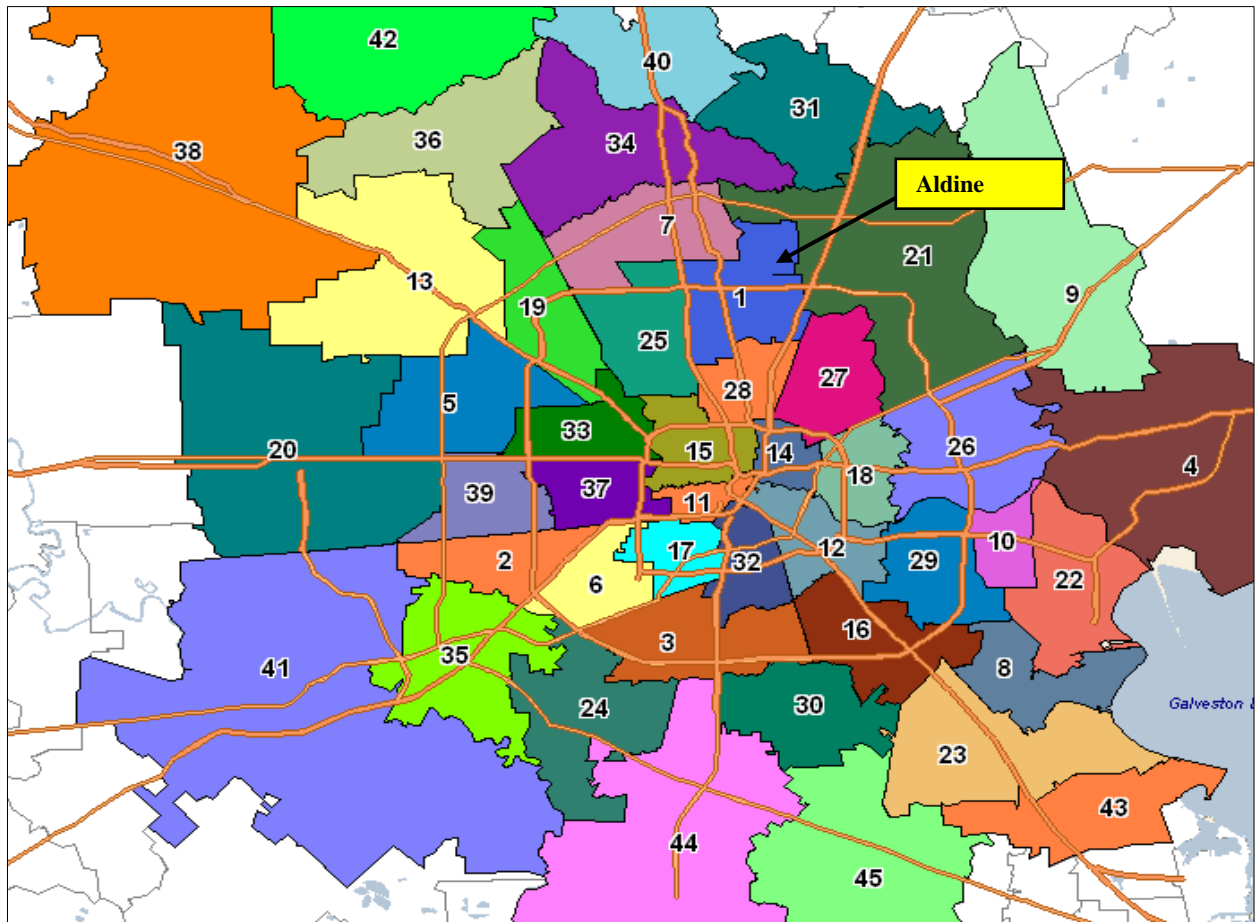

Can you think of other organizations and programs that are helping address these problems?

- YMCA supplied funding for an after school program in one school (3-5pm).
- Northwest Assistance Center Ministry.
- Mission Greenspoint.
- March of Dimes.
- Rotary Clubs.
- American Business Women's Association.
- Girl Scouts.
