BACKGROUND OF THE BAYLOR CENTER FOR COMMUNITY RESEARCH AND DEVELOPMENT

Mission

The Center for Community Research and Development (CCRD) was established at Baylor University in 1979 as a multidisciplinary entity with a mission of **engaging Baylor faculty and students in applied social research to improve the local quality of life**. Over time, the CCRD has broadened its focus, sometimes engaging in statewide or national research, and the CCRD has become closely linked with Baylor's Ph.D. program in Applied Sociology, where Ph.D. students serve as center research analysts. Still, our research remains multidisciplinary and many of the CCRD's projects retain a local quality of life focus.

Facilities

The CCRD originally worked out of faculty offices in Sociology and Political Science and moved into its own facilities in 1990, when the operations center was located in the basement of the Sid Richardson Science Building. The CCRD moved to Suite 300 of the Robinson Tower in 1994. These modern facilities allow easier access to the community and include:

- offices for Center directors, six doctoral students, research analysts, and a project coordinator,
- focus group facilities with a separate observation room and recording equipment,
- a conference room for meetings and graduate seminars,
- report production facilities for CCRD documents,
- a local area network with Windows operating systems, and
- a Computer Assisted Telephone Interviewing (CATI) system.

Services

The Center for Community Research and Development is equipped to undertake a wide variety of projects for organizations, businesses, industries, and governmental agencies. Services include:

- Mail Surveys
- Telephone Surveys
- Questionnaire design
- Needs assessments
- Program planning and evaluation
- Impact assessments
- Population trend studies and projections
- Data collection and analysis
- Sampling designs
- Focus groups
- Seminars and workshops on community issues
- Mock Juries and Jury Consulting

Society for Applied Sociology

From 1998 through 2001, the CCRD served as the administrative office for the Society for Applied Sociology, an international organization for professionals involved in applying sociological knowledge in a wide variety of settings. The CCRD retains an active membership in SAS and Dr. Tillman Rodabough is the President. The mission statement for SAS is to:

- Provide a forum for sociologists and others interested in applying sociological knowledge.
- Enhance understanding of the interrelationship between sociological knowledge and sociological practice.
- Increase the usefulness and effectiveness of applied sociological research and training.

Selected Previous Clients

The CCRD has served a varied clientele on a large number of issues. Representative projects include:

- **Telephone surveys** for the City of Waco, Southwestern Bell, the *Waco Tribune-Herald*, Houston Profile Project
- **Site location research** for the Perryman Group, American Airlines
- **Needs assessments** for the Baptist General Convention of Texas, the United Way, HOTCOG
- **Population projections** for the Heart of Texas Council of Governments, Heritage House
- **Focus groups** for Creative Education Institute, Baylor University, EEOC, City of Waco, the United Way
- **Mail-out surveys** for Hillcrest Baptist Medical Center, the City of Woodway, Baptist General Convention of Texas
- **Intercept surveys** for Richland Mall, the Texas Ranger Museum, the Dr. Pepper Museum
- **Mock juries** and **change of venue** research for Amarillo, Dallas and Waco law firms
- **Program assessments** for the McLennan County Youth Collaboration, Waco Police Department
- **Door-to-door surveys** for the Waco Housing Authority, Mission Waco, Drug Prevention Resources
- **Voter exit interviews** for the Dallas Independent School District
- **Institutional evaluation** for San Marcos Baptist Academy, the BGCT Education Commission. Baptists in Scouting, Baylor University, Waco Independent School District
- **Program development** for the Cooper Foundation, the Junior League, MHMR

Fees

The CCRD is a non-profit service center for the community and University. Fees charged for research projects represent actual costs for services and enable the CCRD to be self-supporting.

Staff

- **Dr. Larry Lyon** is Director of the CCRD, Dean of the Graduate School, and Professor of Sociology in the Department of Sociology and Anthropology (Larry_Lyon@Baylor.edu).
- **Dr. Tillman Rodabough** is Research Director for the CCRD and Professor of Social Psychology in the Department of Sociology (Tillman_Rodabough@Baylor.edu).
- **Mrs. Debbie Marable** is the Projects Coordinator for the CCRD, Graduate Program Assistant for Sociology and a graduate of Baylor University (Debbie_Marable@Baylor.edu).
- **Dr. Carson Mencken** is Associate Professor of Sociology and Graduate Program Director for Sociology, with research expertise in statistical analysis and spatial modeling and serves as a research professor for CCRD (Carson_Mencken@Baylor.edu).
- **Dr. Robyn Bateman Driskell** is Associate Professor of Sociology with expertise in demography and serves as a research professor for the CCRD (Robyn_Bateman@Baylor.edu).
- **Dr. Charles Tolbert, II** is Professor and Chair, Department of Sociology and Anthropology and GIS and census data consultant for CCRD (Charlie_Tolbert@Baylor.edu).
- **Lacey C. Wiggins, M.A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Lacey_Chapman@Baylor.edu).
- **Rusty Parker, M. A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Rusty_Parker@Baylor.edu).
- **Jodien Matos** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jodien_Matos@Baylor.edu).
- **Kathy Krey** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Kathy_Krey@Baylor.edu).
- **Jeniece Williams** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jeniece_Williams@Baylor.edu).
- **Elizabeth Terrazas-Carrillo** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Elizabeth_Terrazas-Carrillo @Baylor.edu).
- **Liz Embry** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Elizabeth_Ninneman@Baylor.edu).

Each staff person can also be contacted at the CCRD office (254) 710-3811 or e-mailed at CCRD@Baylor.edu. Our website address is <http://www.Baylor.edu/CCRD>

Background of the Poll

Center for Community Research and Development
Poll 98
(September 2004)

In the fall of 2003, the Center for Community Research and Development (CCRD) conducted a scientific poll to assess religious and lifestyle practices and beliefs in 45 communities in the Greater Houston Area. Questions for the poll were developed by CCRD researchers using national polls on lifestyles and religion as a guideline.

From October 1 through November 15, a total of 2,419 Greater Houston Area residents were interviewed using a Computer Assisted Telephone Interviewing (CATI) system. The CATI technology allows control over the interviewing process and automates data entry. The sample was selected from a computer-generated set of random phone numbers. Random generation includes residents with unlisted numbers. Other steps taken to ensure the quality of the poll include: (1) testing and editing experimental versions of the questionnaire to increase the clarity and reliability of each question; (2) intensive training for each interviewer; (3) continual monitoring of interviews by social science Ph.D.s; (4) daily review of work and interviewing procedures and results by the CCRD staff; (5) calling during times established in previous studies to provide the most representative sample; (6) making up to five call-backs for each phone number to avoid distorting the sample toward the more easily accessible residents; (7) using special “screens” to increase the number of male and minority respondents; (8) purchasing a special bank of phone lines with “Community Research” as the caller identification label rather than the standard label, “Baylor University;” and (9) employing Spanish speaking interviewers for households where Spanish is the primary language.

The demographic characteristics of the sample resemble those of demographics available through external sources. While the sample is largely representative of the population, minority ethnic groups were slightly under-represented among respondents in the poll. To compensate, this analysis uses weighted data to ensure a more representative sample. The final sample is comparable to official data available on the 45 communities in the Greater Houston Area’s 3,097,362 adults. For example, the sample used in the analysis is approximately 58% “Anglo,” 20% Hispanic, and 17% African-American.^[1] The percentages for African Americans and Anglos closely reflect recent Census estimate population numbers for the 45 communities in the Greater Houston Area.^[2] Other population numbers/sample comparisons suggest similarly low levels of bias.

For the overall response distributions of the questionnaire data, the responses will typically vary by less than 3 percentage points in either direction at the 95% confidence level. For cross-tabulation tables that analyze smaller portions of the sample by dividing it into various categories such as race or education, the percentage of variation will be considerably higher.

^[1] Throughout this report, the terms “White” and “Anglo” refer to non-Hispanic whites. “African-American” and “Black” are used interchangeably.

^[2] 2002 Census estimates show a total adult population of 3,097,362 for the 45 communities in the Greater Houston Area. Of the approximately 3,097,362 adults: about 45.0% are Anglo, 17.5% African American, 30.2% Hispanic, 0.4% American Indian, 5.4% Asian/Pacific Islander and 1.4% are Multi-Racial.

Executive Summary
Center for Community Research and Development
Crosby/Huffman Area (CSA #9)

- The Crosby/Huffman CSA has a higher percentage of Whites, and lower percentages of Blacks and Hispanics, than the Greater Houston Area.
- The percentage of the population between ages 25 and 54 is slightly lower in the Crosby/Huffman CSA than in the Greater Houston Area.
- In the Crosby/Huffman CSA, a much higher percentage of the residents have only a high school diploma, compared to the Greater Houston Area.
- A much higher percentage of the households in the Crosby/Huffman CSA, have incomes between \$50,000 and \$74,999 than in the Greater Houston Area.
- There is a higher percentage of households consisting of two persons in the Crosby/Huffman CSA, than in the Greater Houston Area.
- Less than half of the adults in the Crosby/Huffman CSA get a great deal of satisfaction from their neighborhood.
- The Crosby/Huffman CSA ranks in the middle of all CSAs in the Greater Houston Area on family satisfaction.
- The Crosby/Huffman CSA ranks eighth from the bottom of all CSAs in the Greater Houston Area on weekly church attendance.
- The majority of adults in the Crosby/Huffman CSA do not attend church weekly.
- In the Crosby/Huffman CSA, over 2,800 adults never attend church.
- The Crosby/Huffman CSA ranks just above the middle of all CSAs in the Greater Houston Area on percent who consider themselves born again.
- The Crosby/Huffman CSA ranks eighth of all CSAs in the Greater Houston Area on percent who would seek help in a place of worship when they have problems.
- Despite lower levels of church attendance in the Crosby/Huffman CSA, there appears to be a high level of spiritual interest in the area.
- The Crosby/Huffman CSA ranks just below the middle of all CSAs in the Greater Houston Area on percent likely to pray when they have problems.
- The Crosby/Huffman CSA ranks fifth of all CSAs in the Greater Houston Area on percent who have no doubts about the existence of God.

CSA #9**

Demographics

Center for Community Research and Development
Community Poll 98

**Population by Race/Ethnicity
Crosby/Huffman CSA and Greater Houston Area**

- The racial/ethnic composition of the Crosby/Huffman CSA is significantly different from the Greater Houston Area.
- In the Crosby/Huffman CSA, Anglos comprise 78.2% of the population, compared to only 45.0% in the Greater Houston Area.
- The percentage of Blacks is higher in the Greater Houston Area than in the Crosby/Huffman CSA (17.5% vs. 11.3%).
- The percentage of Hispanics in the Crosby/Huffman CSA is significantly lower than in the Greater Houston Area (8.7% vs. 30.2%).
- Asians/Pacific Islanders comprise 5.4% of the population in the Greater Houston Area, a percentage 9 times higher than in the Crosby/Huffman CSA (0.6%).
- There is no significant differences between the Greater Houston Area and the Crosby/Huffman CSA in the remaining race/ethnic categories.

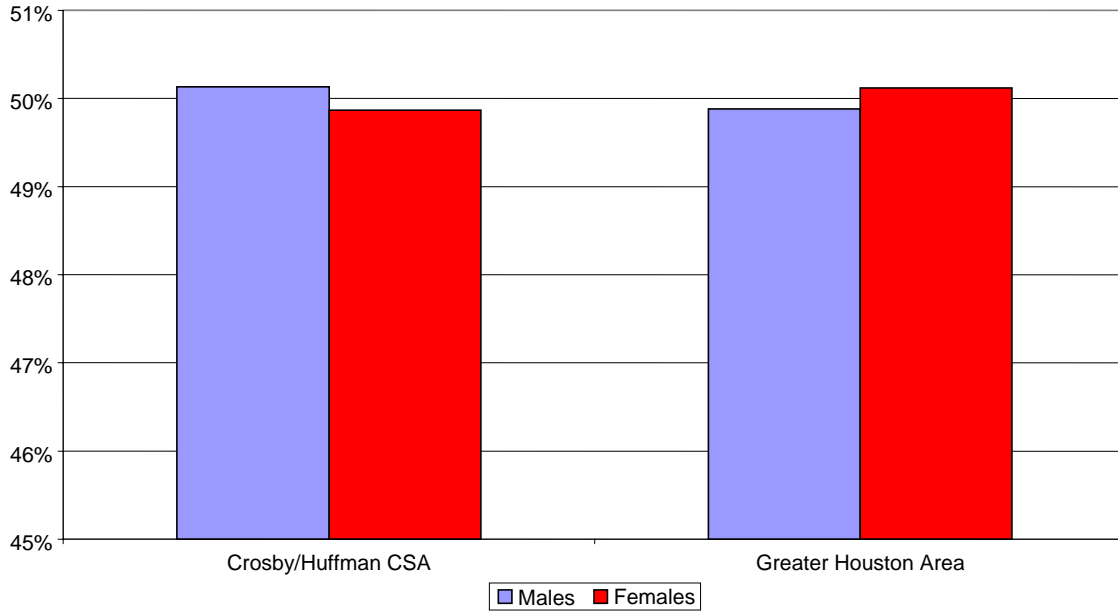

**Population by Age
Crosby/Huffman CSA by Greater Houston Area**

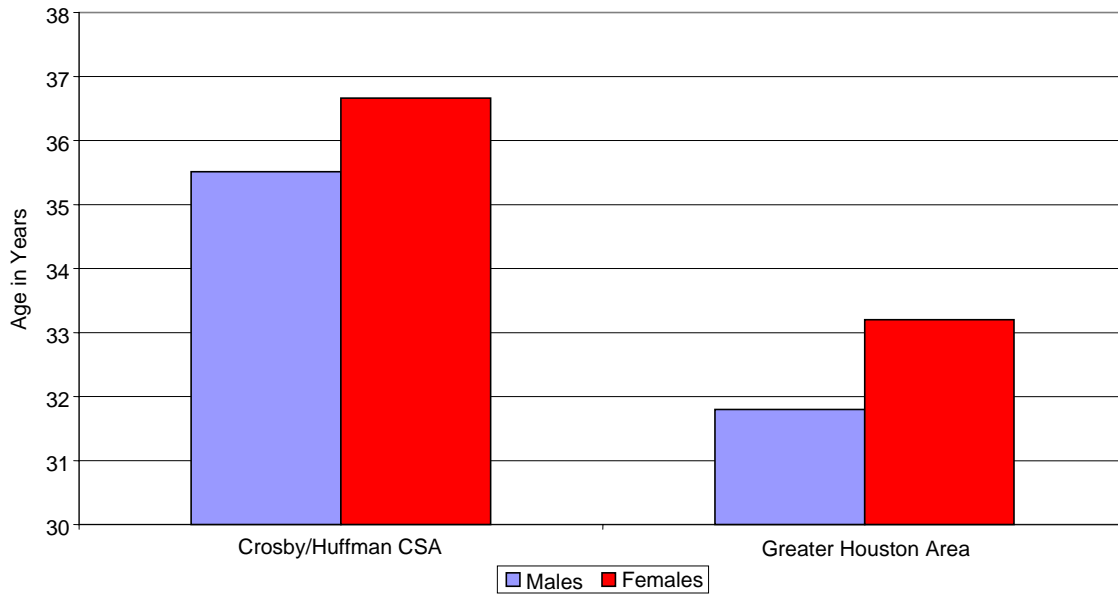

- There are slight differences between the Greater Houston Area and the Crosby/Huffman CSA in terms of age.
- The percentage of the population age 65 or older is slightly higher in the Crosby/Huffman CSA than in the Greater Houston Area (8.7% vs. 7.5%).
- In the Crosby/Huffman CSA, there is a lower percentage of the population between 25 through 34 years of age than in the Greater Houston Area (12.1% vs. 15.9%).
- There is a small difference between the Greater Houston Area and the Crosby/Huffman CSA in the category including people ages 18 to 24 (10.1% vs. 8.5%).
- No significant difference exists between the Crosby/Huffman CSA and the Greater Houston Area in the category of people ages 35 to 44 (17.0% vs. 16.5%).

**Population by Gender
Crosby/Huffman CSA by Greater Houston Area**

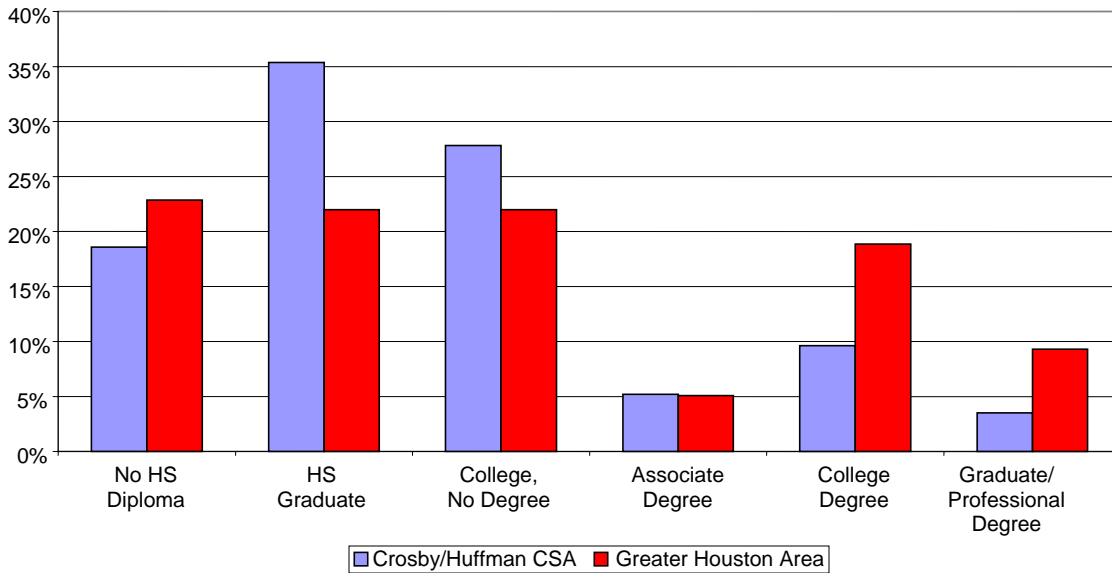

**Median Age & Gender
Crosby/Huffman CSA by Greater Houston Area**

- There are some differences in age and gender composition between the Greater Houston Area and the Crosby/Huffman CSA.
- Males comprise 50.1% of the population in the Crosby/Huffman CSA, compared to 49.9% in the Greater Houston Area.
- In the Crosby/Huffman CSA, females comprise 49.9% of the population, whereas in the Greater Houston Area they comprise 50.1%.
- The median age for males is 35.5 years in the Crosby/Huffman CSA, compared to a much lower 31.8 years in the Greater Houston Area.
- Females in the Crosby/Huffman CSA have a median age of 36.7 years, compared to a much lower 33.2 years in the Greater Houston Area.

**Educational Attainment Adults 25+
Crosby/Huffman CSA by Greater Houston Area**

- There are significant differences in the educational attainment levels between the Crosby/Huffman CSA and the Greater Houston Area.
- Adults without a high school diploma comprise 22.8% in the Greater Houston Area, compared to 18.6% in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, there is a much higher percentage of adults with only a high school diploma, compared to the Greater Houston Area (35.3% vs. 22.0%).
- In the Crosby/Huffman CSA, there is a higher percentage of the population with some college (but no degree) and associate degrees than in the Greater Houston Area (33.0% vs. 27.1%).
- College graduates comprise only 9.6% of the population in the Crosby/Huffman CSA, compared to 18.8% in the Greater Houston Area.
- In the Crosby/Huffman CSA, the percentage of the population with graduate/professional degrees, is just over a third of that in the Greater Houston Area (3.5% vs. 9.3%).

**Family Households by Type
Crosby/Huffman CSA by Greater Houston Area**

- The percentage of families with children in the Greater Houston Area is higher than that of the Crosby/Huffman CSA (60.1% vs. 55.4%).
- The percentage of married couples without children, is higher in the Crosby/Huffman CSA than in the Greater Houston Area (38.6% vs. 31.9%).
- Single father households are slightly more prevalent in the Crosby/Huffman CSA, than in the Greater Houston Area (4.1% vs. 3.8%).
- However, single mother households are more prevalent in the Greater Houston Area, than in the Crosby/Huffman CSA (13.3% vs. 9.2%).

**Households by Income
Crosby/Huffman CSA by Greater Houston Area**

- Most household incomes in the Crosby/Huffman CSA, and in the Greater Houston Area, are in the \$50,000 to \$74,999 category (22.8% and 18.8%).
- A higher percentage of the Crosby/Huffman CSA households, have incomes between \$50,000 and \$99,999 than in the Greater Houston Area (39.6% vs. 30.7%).
- However, in the \$250,000+ income bracket, the Greater Houston Area’s percentage is nearly three times that of the Crosby/Huffman CSA (2.8% vs. 1.0%).

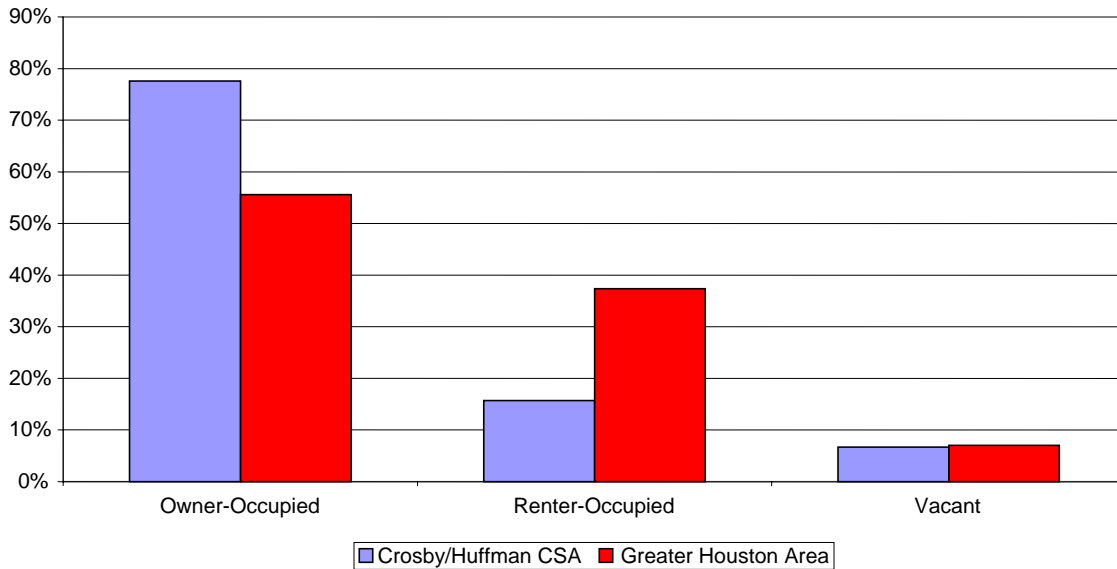

**Income Dynamics
Crosby/Huffman CSA by Greater Houston Area**

- The median household income is slightly higher in the Crosby/Huffman CSA than in the Greater Houston Area (\$54,205 vs. \$52,462).
- The median family income is slightly higher in the Greater Houston Area, than in the Crosby/Huffman CSA (\$61,391 vs. 60,478).
- The median non-family income is higher in the Greater Houston Area than in the Crosby/Huffman CSA (\$34,908 vs. \$30,514).
- The total per capita income is slightly higher in the Greater Houston Area than in the Crosby/Huffman CSA (\$23,402 vs. \$21,522).

**Total Housing Units
Crosby/Huffman CSA by Greater Houston Area**

- A significantly higher percentage of housing units are occupied by the owner in the Crosby/Huffman CSA, than in the Greater Houston Area (77.6% vs. 55.6%).
- A much lower percentage of the housing units in the Crosby/Huffman CSA are renter-occupied, than in the Greater Houston Area (15.7% vs. 37.4%).
- In both the Crosby/Huffman CSA and the Greater Houston Area, a housing unit is more likely to be occupied by the owner than by a renter.

**Housing Units by Year Built
Crosby/Huffman CSA by Greater Houston Area**

- The percentage of housing units built before 1939 in the Greater Houston Area is over twice that of the Crosby/Huffman CSA (3.3% vs. 1.6%).
- Most of the housing units in the Crosby/Huffman CSA were built after 1970 (78.6%).
- In general, housing units in the Crosby/Huffman CSA tend to be newer than those in the Greater Houston Area.

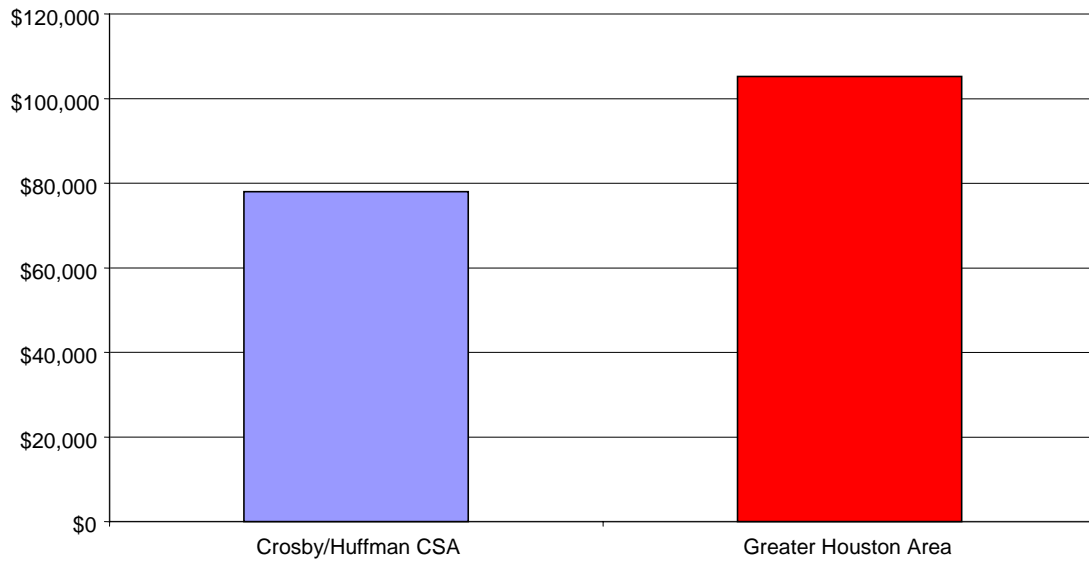

**Housing Units by Type
Crosby/Huffman CSA by Greater Houston Area**

- The percentage of detached single housing units in the Crosby/Huffman CSA is higher than in the Greater Houston Area (75.6% vs. 59.1%).
- There is a significantly higher percentage of dwellings with 50+ units in the Greater Houston Area, than in the Crosby/Huffman CSA (14.3% vs. 1.3%).
- Over three fourths of the housing units in the Crosby/Huffman CSA are detached single housing units (75.6%).
- There are over 4 times the percentage of mobile homes in the Crosby/Huffman CSA, than in the Greater Houston Area (18.2% vs. 4.2%).
- Detached single housing units and mobile homes make up 93.8% of the households in the Crosby/Huffman CSA.

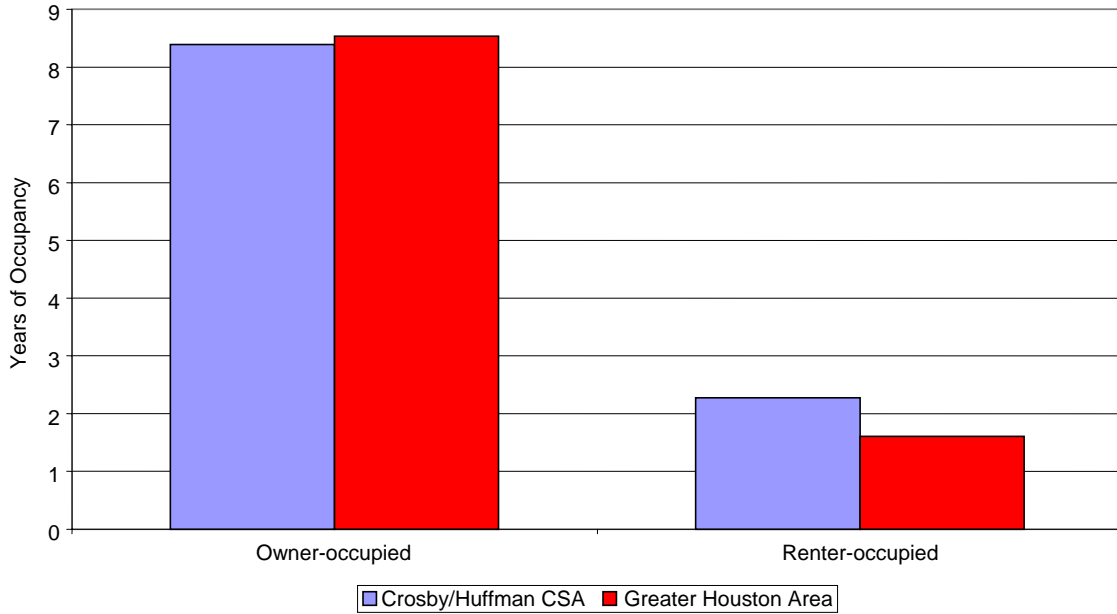

**Median Home Value
Crosby/Huffman CSA by Greater Houston Area**

- The median home value in the Crosby/Huffman CSA is lower than in the Greater Houston Area (\$77,977 vs. \$105,209).

**Median Length of Occupancy
Crosby/Huffman CSA by Greater Houston Area**

- The median length of occupancy is generally longer for dwellings that are occupied by the owner, and shorter for those occupied by a renter.
- There is no significant difference, between the median length of owner-occupied dwellings in the Crosby/Huffman CSA and those in the Greater Houston Area (8.4 years vs. 8.5 years).
- However, in renter-occupied dwellings, the Crosby/Huffman CSA has a longer median length of occupancy than the Greater Houston Area (2.3 years vs. 1.6 years).
- In the Crosby/Huffman CSA, the median length of occupancy for owner-occupied dwellings is almost 4 times that of renter-occupied dwellings (8.4 years vs. 2.3 years).

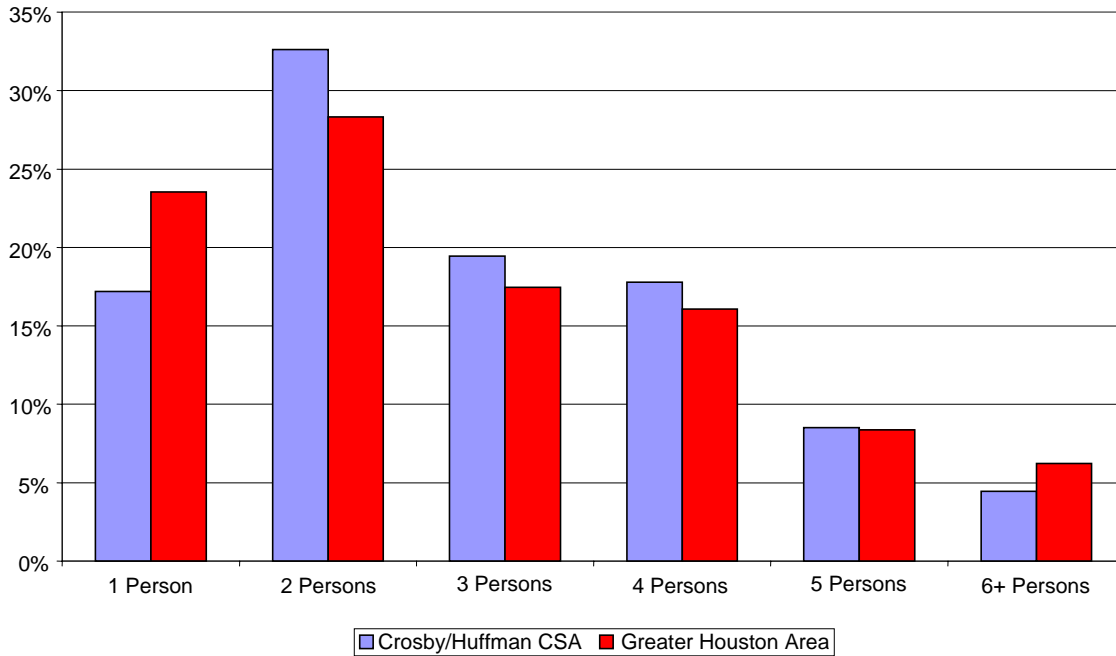

**Households by Count of Vehicles Available
Crosby/Huffman CSA by Greater Houston Area**

- The number of households with no vehicles is higher in the Greater Houston Area than in the Crosby/Huffman CSA (7.7% vs. 4.4%).
- The number of households with only one vehicle available is higher in the Greater Houston Area than in the Crosby/Huffman CSA (36.6% vs. 28.0%).
- The number of households with 2 or more vehicles available is significantly higher in the Crosby/Huffman CSA than in the Greater Houston Area (67.6% vs. 55.8%).
- Over half of the households (67.6%) in the Crosby/Huffman CSA have at least two vehicles.

**Households by Count of Persons
Crosby/Huffman CSA by Greater Houston Area**

- There is a higher percentage of households consisting of one person in the Greater Houston Area than in the Crosby/Huffman CSA (23.5% vs. 17.2%).
- There is a higher percentage of households consisting of two people in the Crosby/Huffman CSA than in the Greater Houston Area (32.6% vs. 28.3%).
- In general, households in both the Crosby/Huffman CSA and the Greater Houston Area tend to consist of one or two people.

Houston Profile Project Crosby/Huffman Area CSA #9

CSA Rankings

By
Key Lifestyle and Religion Questions

In this section we rank order the 45 CSAs by key religious and lifestyle questions. We use a form of hierarchical modeling in which individual responses to the lifestyle and religion questions in the HPP Poll are estimated with key socio-demographic measures from each CSA. These measures include age structure, race and ethnic composition, household structure, education, income, and housing values. The analysis produces an estimated average response to each question for each of the 45 CSAs. We subsequently rank the 45 CSAs based on these responses, and provide tables of these rankings in this section of the report. Please note that the measures reported here are those for which the hierarchal analysis proved useful. For some measures, the models did not perform well enough to allow us to report rankings with an acceptable level of confidence.

45	14.00	Fifth Ward/Denver Harbor	20.49%

Percent Who Receive a Great Deal of Satisfaction from Their Neighborhood Crosby/Huffman CSA

- The Crosby/Huffman CSA ranks in the middle of all CSAs in the Greater Houston Area on neighborhood satisfaction.
- 45.40% of adults living in the Crosby/Huffman CSA receive a great deal of satisfaction from their neighborhood.
- However, there is much less neighborhood satisfaction in the Crosby/Huffman CSA than in the Greater Houston Area.
- For the Greater Houston Area, 55% report receiving a great deal of satisfaction from their neighborhood.
- There are an estimated 21,036 adults living in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, almost 9,600 adults receive a great deal of satisfaction from their neighborhood.
- This means however, that in the Crosby/Huffman CSA, almost 11,500 adults are less satisfied with their neighborhood.

Percent Who Receive a Great Deal of Satisfaction from Their Family Crosby/Huffman CSA

- The Crosby/Huffman CSA ranks in the middle of all CSAs in the Greater Houston Area on family satisfaction.
- 76.65% of adults living in the Crosby/Huffman CSA receive a great deal of satisfaction from their families.
- Family satisfaction in the Crosby/Huffman CSA is slightly lower than the family satisfaction value for the Greater Houston Area.
- For the Greater Houston Area, 79% report receiving a great deal of satisfaction from their families.
- There are an estimated 21,036 adults living in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, over 16,100 adults receive a great deal of satisfaction from their families.
- However, that means over 4,900 adults in the Crosby/Huffman CSA do not receive a great deal of satisfaction from their families.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory family relationships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches may have an opportunity to make connections with those who do not receive a great deal of satisfaction with family life.

Percent Who Receive a Great Deal of Satisfaction from Their Friends Crosby/Huffman CSA

- The Crosby/Huffman CSA ranks in the bottom third of all CSAs in the Greater Houston Area on satisfaction from friends.
- 47.76% of adults living in the Crosby/Huffman CSA receive a great deal of satisfaction from their friends.
- This number is significantly lower than in the Greater Houston Area.
- For the Greater Houston Area, 69% report receiving a great deal of satisfaction from their friends.
- Adults in the Crosby/Huffman CSA are much more satisfied with their families (76.65%), than with their friendships (47.76%) or neighborhood (45.40%).
- There are an estimated 21,036 adults living in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, over 10,000 adults receive a great deal of satisfaction from their friends.
- This means however, that almost 11,000 adults in the Crosby/Huffman CSA are less satisfied with their friendships.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory friendships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches have an opportunity to make connections with those who do not receive a great deal of satisfaction with friendships.

Percent Who Report Successfully Balancing Work and Family Crosby/Huffman CSA

- The Crosby/Huffman CSA ranks just below the middle of all CSAs in the Greater Houston Area on success at balancing work and family.
- 28.29% of adults living in the Crosby/Huffman CSA report being successful at balancing the dual demands of work and family.
- For the Greater Houston Area, 34% report being successful at balancing the dual demands of work and family.
- There are an estimated 21,036 adults living in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, almost 6,000 adults report being successful at balancing work and family lives.
- This means however, that almost 15,100 adults, or the majority of adults in the Crosby/Huffman CSA, are not as successful at balancing work and family lives.
- This is important for church missions because research shows that the strains of balancing work and family life are among the leading causes of family dissolution (Kendall 2004).
- Working in these Crosby/Huffman CSA' neighborhoods to help families be more successful at managing the dual demands of family and work life is a potential community ministry program.

CSA by Percent Generally Happy with Their Lives

Percent Who Are Generally Happy with Their Lives Crosby/Huffman CSA

- The Crosby/Huffman CSA ranks below the middle of all CSAs in the Greater Houston Area on overall happiness.
- 45.27% of adults living in the Crosby/Huffman CSA report being generally happy with their lives.
- For the Greater Houston Area, 48% report being generally happy.
- There are an estimated 21,036 adults living in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, over 9,500 adults report being generally happy with their lives.
- This means however, that over 11,500 adults, are not as happy with their lives.
- As with satisfaction with family and friends, those who are not happy may be more amenable to new relationships. This is important for church outreach missions because research by Stark (2000) shows that people who are not happy are open to ministry.

**Percent Who Read the Bible or Other Inspired Literature
When They Have Problems
Crosby/Huffman CSA**

- The Crosby/Huffman CSA ranks in the bottom half of all CSAs in the Greater Houston Area on percent who read the Bible or other inspired literature when they have a problem.
- Even so, 72.14% report reading the Bible or other inspired literature when they have a problem.
- The average for the Greater Houston Area is virtually the same at 72%.
- There are an estimated 21,036 adults living in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, almost 15,200 adults report reading the Bible or other inspired literature when they have a problem.
- Despite lower levels of regular church attendance and higher levels of non-attendance, there appears to still be a high level of spiritual interest in the Crosby/Huffman CSA.

Percent Who Have No Doubts About the Existence of God Crosby/Huffman CSA

- The Crosby/Huffman CSA ranks fifth of all CSAs in the Greater Houston Area on percent who have no doubts about the existence of God.
- 85.38% of adults in the Crosby/Huffman CSA report having no doubts about the existence of God.
- This figure is higher than the 78% for the Greater Houston Area.
- There are an estimated 21,036 adults living in the Crosby/Huffman CSA.
- In the Crosby/Huffman CSA, almost 18,000 adults report having no doubts about the existence of God.
- However, almost 3,100 adults in the Crosby/Huffman CSA do report that they have some doubts about the existence of God.

Houston Profile Project Crosby/Huffman Area CSA #9

Key Leader Interviews

In this section, the results from individual, face-to-face interviews with key leaders in the CSA community are presented. The interviews were conducted by HPP volunteers using a standardized questionnaire developed by CCRD. Various key positions within the community were identified and the individual leaders that filled that particular position were contacted. If the key leader agreed to an interview, the results are included, maintaining confidentiality. The various responses are listed by question and categorized by topic. The key leader positions included elected community leaders, managers of large employers in the area, principals of local schools, civic organization leaders, labor union leaders, local Chamber of Commerce representatives, editors of neighborhood newspapers, directors of minority interest group, law enforcement officers, and leaders of major places of worship.

Center for Community Research and Development
Community Poll 98

Key Leader Interviews
CSA #9 – Crosby/Huffman CSA

What are the best things about the Crosby/Huffman CSA?

Community Involvement

- Family oriented.
- Lot of activities available.

Neighborhood Initiatives

- Good schools, well-done curriculum.
- Great education programs.
- Good churches.
- Many churches in area.
- Great sports programs available.

Growth

- Population growth—one of the fastest growing areas in the Greater Houston Area.
- Economic growth.

What are the major problems facing the area?

Youth

- Too many latch-key kids.

Family

- Many single parent homes.
- High divorce rate.

Services and Infrastructure

- Struggling with rapid growth.
- Traffic problems.

Do the local places of worship play any roles in the three best things?

- Family orientation.
- Several churches in the area have sports programs.

Are there other contributions that places of worship are making to the area?

- Churches United in Caring-Food bank/resale shop that utilizes volunteers from the many churches in the area.
- One church raises money for at least one hundred children during the Christmas Holiday.
- One church hosts Czech Fest to raise a considerable amount of money for needy.

Can you think of any ways local places of worship help with addressing the problems?

- Youth programs.
- Competitive sports programs.

Can you think of other organizations and programs that are helping address these problems?

- Sports associations.
- School counselors.

Can you think of any ways that local places of worship contribute, even unwittingly, to making these problems worse?

- Segregated churches.
- Christians not reaching out.

Can you think of any suggestions or potential programs, not already in place, that would help to solve the problems within the Crosby/Huffman area?

Children

- More after school activities especially for those too old to be at daycare, but too young to be home alone.

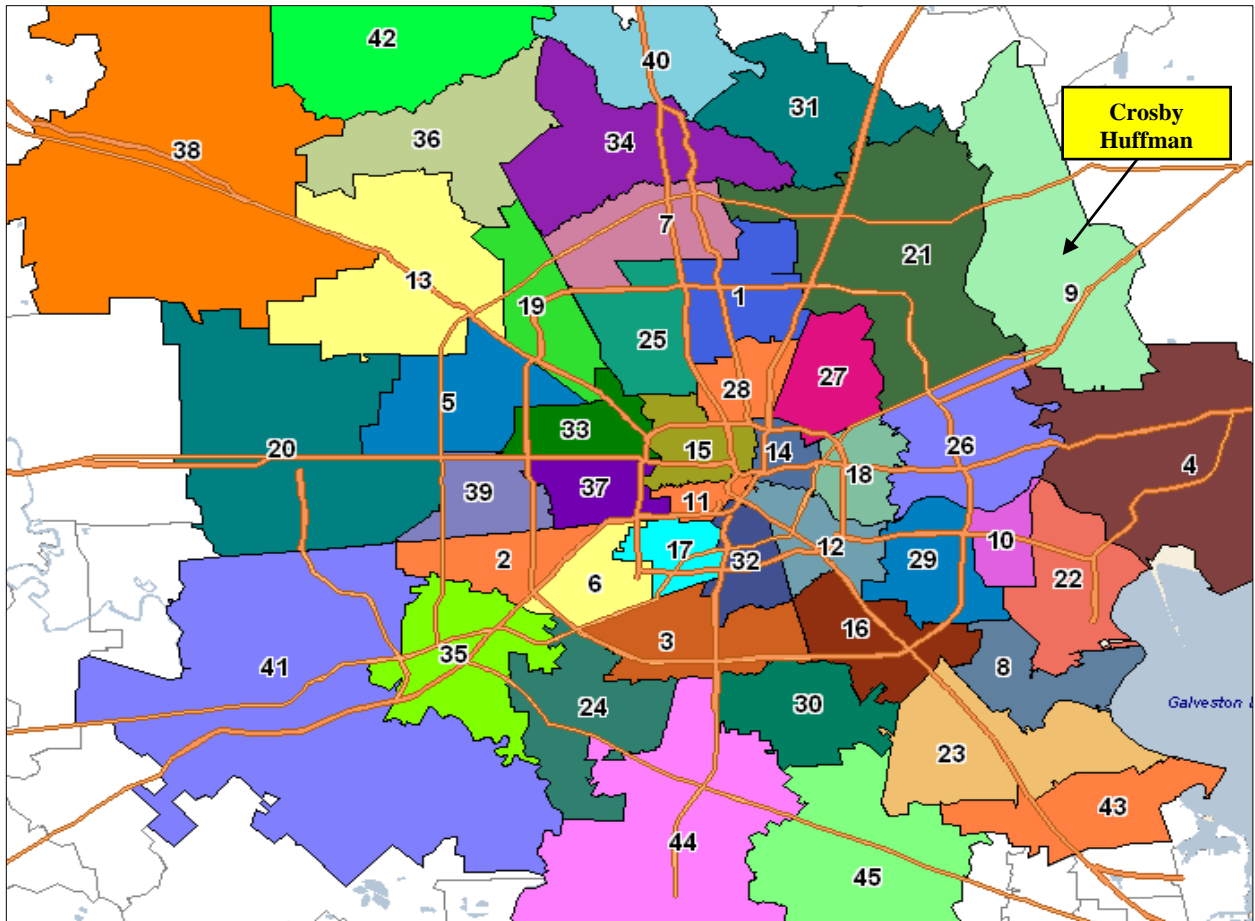

Finally, is there anything else about the Crosby/Huffman CSA, that you think is especially important, that we really need to know about, that we ought to work on, or that we should include in this report?

- Churches should pull closer together.
