# ***BACKGROUND OF THE BAYLOR CENTER FOR COMMUNITY RESEARCH AND DEVELOPMENT***

## ***Mission***

The Center for Community Research and Development (CCRD) was established at Baylor University in 1979 as a multidisciplinary entity with a mission of **engaging Baylor faculty and students in applied social research to improve the local quality of life**. Over time, the CCRD has broadened its focus, sometimes engaging in statewide or national research, and the CCRD has become closely linked with Baylor's Ph.D. program in Applied Sociology, where Ph.D. students serve as center research analysts. Still, our research remains multidisciplinary and many of the CCRD's projects retain a local quality of life focus.

## ***Facilities***

The CCRD originally worked out of faculty offices in Sociology and Political Science and moved into its own facilities in 1990, when the operations center was located in the basement of the Sid Richardson Science Building. The CCRD moved to Suite 300 of the Robinson Tower in 1994. These modern facilities allow easier access to the community and include:

- offices for Center directors, six doctoral students, research analysts, and a project coordinator,
- focus group facilities with a separate observation room and recording equipment,
- a conference room for meetings and graduate seminars,
- report production facilities for CCRD documents,
- a local area network with Windows operating systems, and
- a Computer Assisted Telephone Interviewing (CATI) system.

## ***Services***

The Center for Community Research and Development is equipped to undertake a wide variety of projects for organizations, businesses, industries, and governmental agencies. Services include:

- Mail Surveys
- Telephone Surveys
- Questionnaire design
- Needs assessments
- Program planning and evaluation
- Impact assessments
- Population trend studies and projections
- Data collection and analysis
- Sampling designs
- Focus groups
- Seminars and workshops on community issues
- Mock Juries and Jury Consulting

### *Society for Applied Sociology*

From 1998 through 2001, the CCRD served as the administrative office for the Society for Applied Sociology, an international organization for professionals involved in applying sociological knowledge in a wide variety of settings. The CCRD retains an active membership in SAS and Dr. Tillman Rodabough is the President. The mission statement for SAS is to:

- Provide a forum for sociologists and others interested in applying sociological knowledge.
- Enhance understanding of the interrelationship between sociological knowledge and sociological practice.
- Increase the usefulness and effectiveness of applied sociological research and training.

### *Selected Previous Clients*

The CCRD has served a varied clientele on a large number of issues. Representative projects include:

- **Telephone surveys** for the City of Waco, Southwestern Bell, the *Waco Tribune-Herald*, Houston Profile Project
- **Site location research** for the Perryman Group, American Airlines
- **Needs assessments** for the Baptist General Convention of Texas, the United Way, HOTCOG
- **Population projections** for the Heart of Texas Council of Governments, Heritage House
- **Focus groups** for Creative Education Institute, Baylor University, EEOC, City of Waco, the United Way
- **Mail-out surveys** for Hillcrest Baptist Medical Center, the City of Woodway, Baptist General Convention of Texas
- **Intercept surveys** for Richland Mall, the Texas Ranger Museum, the Dr. Pepper Museum
- **Mock juries** and **change of venue** research for Amarillo, Dallas and Waco law firms
- **Program assessments** for the McLennan County Youth Collaboration, Waco Police Department
- **Door-to-door surveys** for the Waco Housing Authority, Mission Waco, Drug Prevention Resources
- **Voter exit interviews** for the Dallas Independent School District
- **Institutional evaluation** for San Marcos Baptist Academy, the BGCT Education Commission. Baptists in Scouting, Baylor University, Waco Independent School District
- **Program development** for the Cooper Foundation, the Junior League, MHMR

### *Fees*

The CCRD is a non-profit service center for the community and University. Fees charged for research projects represent actual costs for services and enable the CCRD to be self-supporting.

### *Staff*

- **Dr. Larry Lyon** is Director of the CCRD, Dean of the Graduate School, and Professor of Sociology in the Department of Sociology and Anthropology (Larry\_Lyon@Baylor.edu).
- **Dr. Tillman Rodabough** is Research Director for the CCRD and Professor of Social Psychology in the Department of Sociology (Tillman\_Rodabough@Baylor.edu).
- **Mrs. Debbie Marable** is the Projects Coordinator for the CCRD, Graduate Program Assistant for Sociology and a graduate of Baylor University (Debbie\_Marable@Baylor.edu).
- **Dr. Carson Mencken** is Associate Professor of Sociology and Graduate Program Director for Sociology, with research expertise in statistical analysis and spatial modeling and serves as a research professor for CCRD (Carson\_Mencken@Baylor.edu).
- **Dr. Robyn Bateman Driskell** is Associate Professor of Sociology with expertise in demography and serves as a research professor for the CCRD (Robyn\_Bateman@Baylor.edu).
- **Dr. Charles Tolbert, II** is Professor and Chair, Department of Sociology and Anthropology and GIS and census data consultant for CCRD (Charlie\_Tolbert@Baylor.edu).
- **Lacey C. Wiggins, M.A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Lacey\_Chapman@Baylor.edu).
- **Rusty Parker, M. A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Rusty\_Parker@Baylor.edu).
- **Jodien Matos** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jodien\_Matos@Baylor.edu).
- **Kathy Krey** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Kathy\_Krey@Baylor.edu).
- **Jeniece Williams** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jeniece\_Williams@Baylor.edu).
- **Elizabeth Terrazas-Carrillo** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program ([Elizabeth\\_Terrazas@Baylor.edu](mailto:Elizabeth_Terrazas@Baylor.edu)).
- **Liz Embry** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program ([Elizabeth\\_Ninneman@Baylor.edu](mailto:Elizabeth_Ninneman@Baylor.edu)).

*Each staff person can also be contacted at the CCRD office (254) 710-3811 or e-mailed at CCRD@Baylor.edu. Our website address is <http://www.Baylor.edu/CCRD>*

## **Background of the Poll**

*Center for Community Research and Development*  
Poll 98  
(September 2004)

In the fall of 2003, the Center for Community Research and Development (CCRD) conducted a scientific poll to assess religious and lifestyle practices and beliefs in 45 communities in the Greater Houston Area. Questions for the poll were developed by CCRD researchers using national polls on lifestyles and religion as a guideline.

From October 1 through November 15, a total of 2,419 Greater Houston Area residents were interviewed using a Computer Assisted Telephone Interviewing (CATI) system. The CATI technology allows control over the interviewing process and automates data entry. The sample was selected from a computer-generated set of random phone numbers. Random generation includes residents with unlisted numbers. Other steps taken to ensure the quality of the poll include: (1) testing and editing experimental versions of the questionnaire to increase the clarity and reliability of each question; (2) intensive training for each interviewer; (3) continual monitoring of interviews by social science Ph.D.s; (4) daily review of work and interviewing procedures and results by the CCRD staff; (5) calling during times established in previous studies to provide the most representative sample; (6) making up to five call-backs for each phone number to avoid distorting the sample toward the more easily accessible residents; (7) using special “screens” to increase the number of male and minority respondents; (8) purchasing a special bank of phone lines with “Community Research” as the caller identification label rather than the standard label, “Baylor University;” and (9) employing Spanish speaking interviewers for households where Spanish is the primary language.

The demographic characteristics of the sample resemble those of demographics available through external sources. While the sample is largely representative of the population, minority ethnic groups were slightly under-represented among respondents in the poll. To compensate, this analysis uses weighted data to ensure a more representative sample. The final sample is comparable to official data available on the 45 communities in the Greater Houston Area’s 3,097,362 adults. For example, the sample used in the analysis is approximately 58% “Anglo,” 20% Hispanic, and 17% African-American.<sup>[1]</sup> The percentages for African Americans and Anglos closely reflect recent Census estimate population numbers for the 45 communities in the Greater Houston Area.<sup>[2]</sup> Other population numbers/sample comparisons suggest similarly low levels of bias.

For the overall response distributions of the questionnaire data, the responses will typically vary by less than 3 percentage points in either direction at the 95% confidence level. For cross-tabulation tables that analyze smaller portions of the sample by dividing it into various categories such as race or education, the percentage of variation will be considerably higher.

---

<sup>[1]</sup> Throughout this report, the terms “White” and “Anglo” refer to non-Hispanic whites. “African-American” and “Black” are used interchangeably.

<sup>[2]</sup> 2002 Census estimates show a total adult population of 3,097,362 for the 45 communities in the Greater Houston Area. Of the approximately 3,097,362 adults: about 45.0% are Anglo, 17.5% African American, 30.2% Hispanic, 0.4% American Indian, 5.4% Asian/Pacific Islander and 1.4% are Multi-Racial.

## **Executive Summary**

*Center for Community Research and Development*  
**Galena Park/Jacinto City Area (CSA #18)**

- The racial/ethnic composition of the Galena Park/Jacinto City CSA is diverse, with a much higher percentage of Hispanics compared to the Greater Houston Area.
- In the Galena Park/Jacinto City CSA, the percentage of the population under 25 and over 65 is higher than in the Greater Houston Area.
- 46.4% of the Galena Park/Jacinto City CSA residents do not have a high school diploma, compared to only 22.8% in the Greater Houston Area.
- A significantly higher percentage of the Galena Park/Jacinto City CSA households earn incomes below \$15,000 compared to the Greater Houston Area.
- The total per capita income in the Greater Houston Area is almost 2 times higher than in the Galena Park/Jacinto City CSA (\$23,402 vs. \$12,394).
- Over one half (54.8%) of the households in the Galena Park/Jacinto City CSA consist of 3 or more people.
- The Galena Park/Jacinto City CSA ranks eighth from the bottom of all CSAs in the Greater Houston Area on neighborhood satisfaction.
- The Galena Park/Jacinto City CSA ranks eighth from the bottom of all CSAs in the Greater Houston Area on family satisfaction.
- Adults in the Galena Park/Jacinto City CSA are more satisfied with their families and friendships than with their neighborhood.
- Over 72% of adults in the Galena Park/Jacinto City CSA report not being successful at balancing the demands of work and family.
- The Galena Park/Jacinto City CSA ranks fifth from the bottom of all CSAs in the Greater Houston Area on overall happiness.
- An estimated 12,800 Galena Park/Jacinto City CSA adults attend church every week.
- In the Galena Park/Jacinto City CSA, over 4,700 adults never attend church.
- Over 20,100 adults report being born again in the Galena Park/Jacinto City CSA.
- A high level of spiritual interest in the Galena Park/Jacinto City CSA parallels the higher levels of weekly church attendance.
- The Galena Park/Jacinto City CSA ranks near the middle of all CSAs in the Greater Houston Area on percent likely to see a religious counselor when they have problems.
- More people in the Galena Park/Jacinto City CSA attend church on a weekly basis than would seek help in a place of worship.
- The Galena Park/Jacinto City CSA ranks ninth from the top of all CSAs in the Greater Houston Area on percent who pray when they have problems.
- The Galena Park/Jacinto City CSA ranks in the top third of all CSAs in the Greater Houston Area on percent who have no doubts about the existence of God.

Galena Park/Jacinto City Area (CSA #18)**

Demographics

Center for Community Research and Development  
Community Poll 98

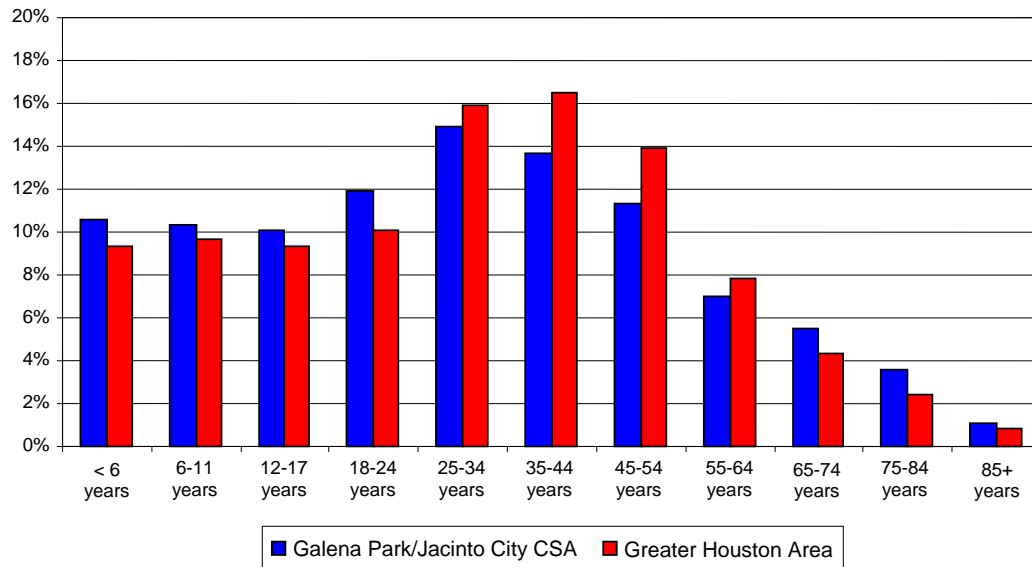

**Population by Race/Ethnicity  
Galena Park/Jacinto City and Greater Houston Area**

- There are significant differences of racial composition between the Galena Park/Jacinto City CSA and the Greater Houston Area.
- In the Greater Houston Area the percentage of Anglos is over 3 times higher than in the Galena Park/Jacinto City (45.0% vs. 13.3%).
- The percentage of Blacks is higher in the Galena Park/Jacinto City CSA than the Greater Houston Area (23.7% vs. 17.5%).
- In the Galena Park/Jacinto City CSA the percentage of Hispanics is almost 2 times higher than in the Greater Houston Area (60.0% vs. 30.2%).
- Asian/Pacific Islanders comprise only 0.6% of the population in the Galena Park/Jacinto City CSA compared to 5.4% in the Greater Houston Area.
- Very few differences exist between the Greater Houston Area and the Galena Park/Jacinto City CSA in the other race/ethnic categories.

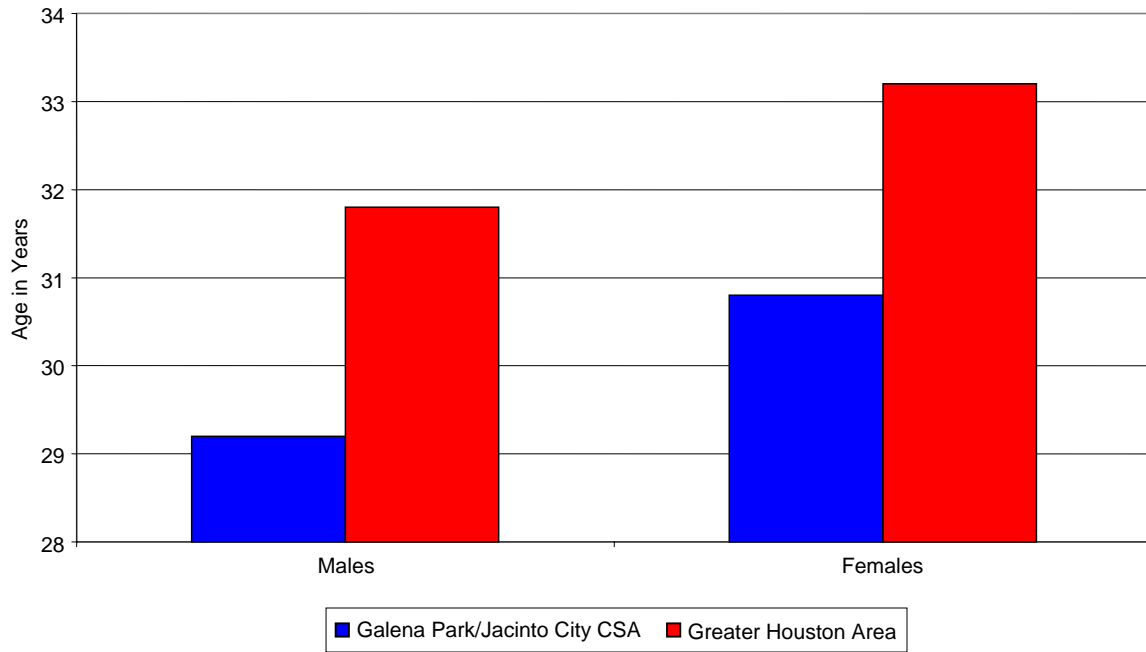

**Population by Age  
Galena Park/Jacinto City CSA and Greater Houston Area**

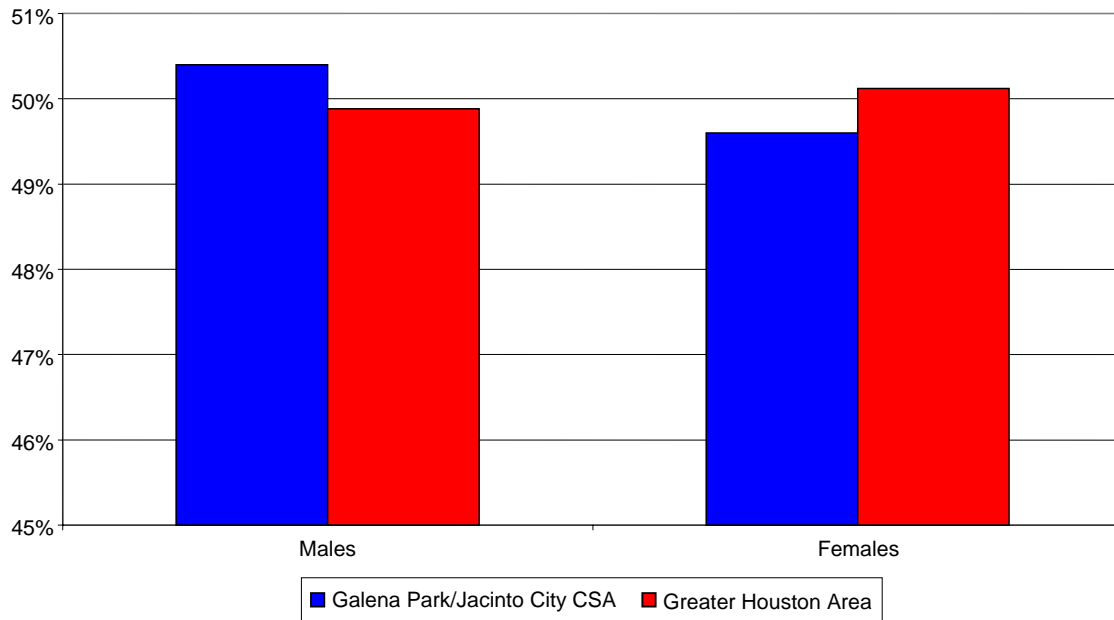

- There are differences in the age composition of the Galena Park/Jacinto City CSA and the Greater Houston Area.
- In the Galena Park/Jacinto City CSA, the percentage of the population under 25 is slightly higher than in the Greater Houston Area (42.9% vs. 38.4%).
- The percentage of the population between ages 25 to 64, is higher in the Greater Houston Area than in the Galena Park/Jacinto City CSA (54.1% vs. 46.9%).
- People between the ages of 35 and 44 comprise 13.7% in the Galena Park/Jacinto City CSA compared to 16.5% in the Greater Houston Area.
- There is a higher percentage of the people in the age group 65 to 84 in the Galena Park/Jacinto City CSA than in the Greater Houston Area (9.1% vs. 6.7%).
- There is no significant difference between the Greater Houston Area and the Galena Park/Jacinto City CSA in the age group including people over 85 years.

**Median Age & Gender**  
Galena Park/Jacinto City CSA and Greater Houston Area

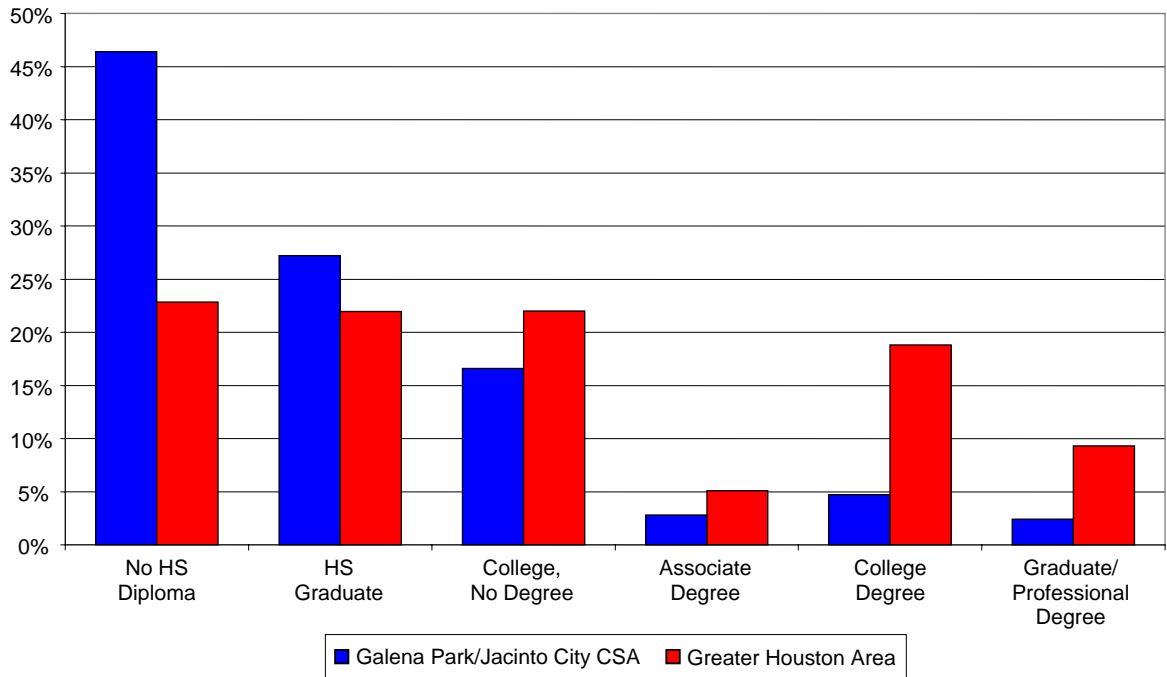

**Population by Age & Gender**  
Galena Park/Jacinto City CSA and Greater Houston Area

- There are small differences in age and sex composition between the Greater Houston Area and the Galena Park/Jacinto City CSA.
- In the Greater Houston Area males comprise 49.9%, whereas in the Galena Park/Jacinto City CSA they represent 50.4%.
- The percentage of females in the Greater Houston Area is 50.1%, compared to 49.6% in the Galena Park/Jacinto City CSA.
- Median age for males is 31.8 years in the Greater Houston Area, compared to 29.2 years in the Galena Park/Jacinto City CSA.
- Median age for females is 33.2 years in the Greater Houston Area, compared to 30.8 years in the Galena Park/Jacinto City CSA.

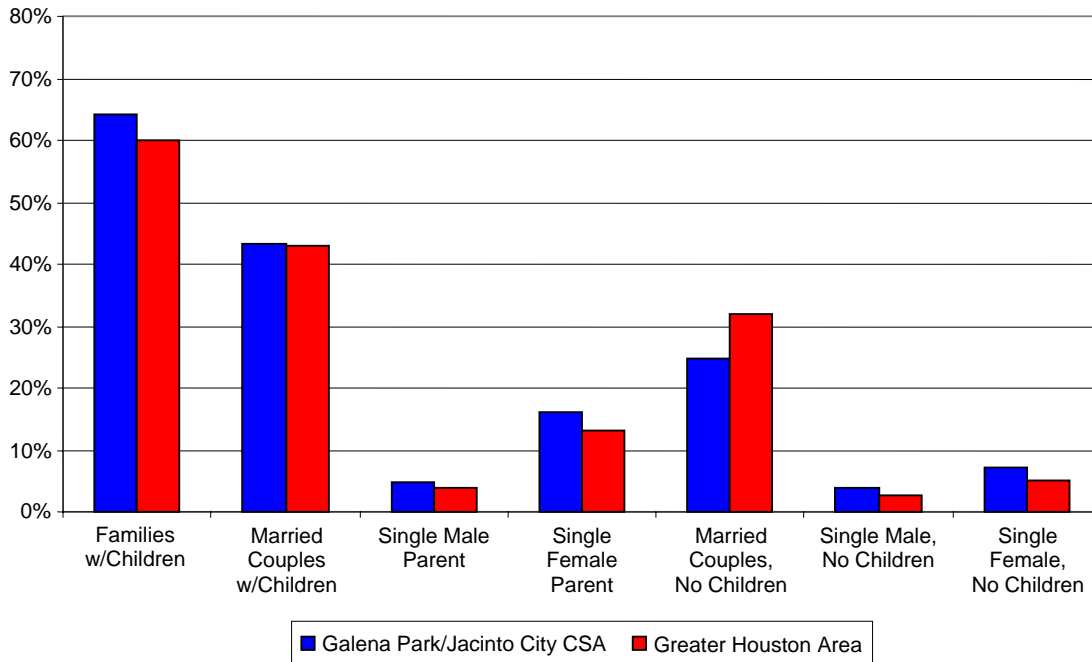

**Educational Attainment for Adults Age 25+  
Galena Park/Jacinto City CSA and Greater Houston Area**

- There are significant differences between the Greater Houston Area and the Galena Park/Jacinto City CSA in terms of educational attainment.
- In the Galena Park/Jacinto City CSA, the percentage of people without a high school diploma is over 2 times higher than in the Greater Houston Area (46.4% vs. 22.8%).
- The percentage of high school graduates is higher in the Galena Park/Jacinto City CSA than in the Greater Houston Area (27.2% vs. 22.0%).
- In the Greater Houston Area there is a higher percentage of people with some college education, associate and college degrees than in the Galena Park/Jacinto City CSA.
- People with graduate/professional degrees comprise 9.3% of the population of the Greater Houston Area, compared to only 2.4% of the Galena Park/Jacinto City CSA.

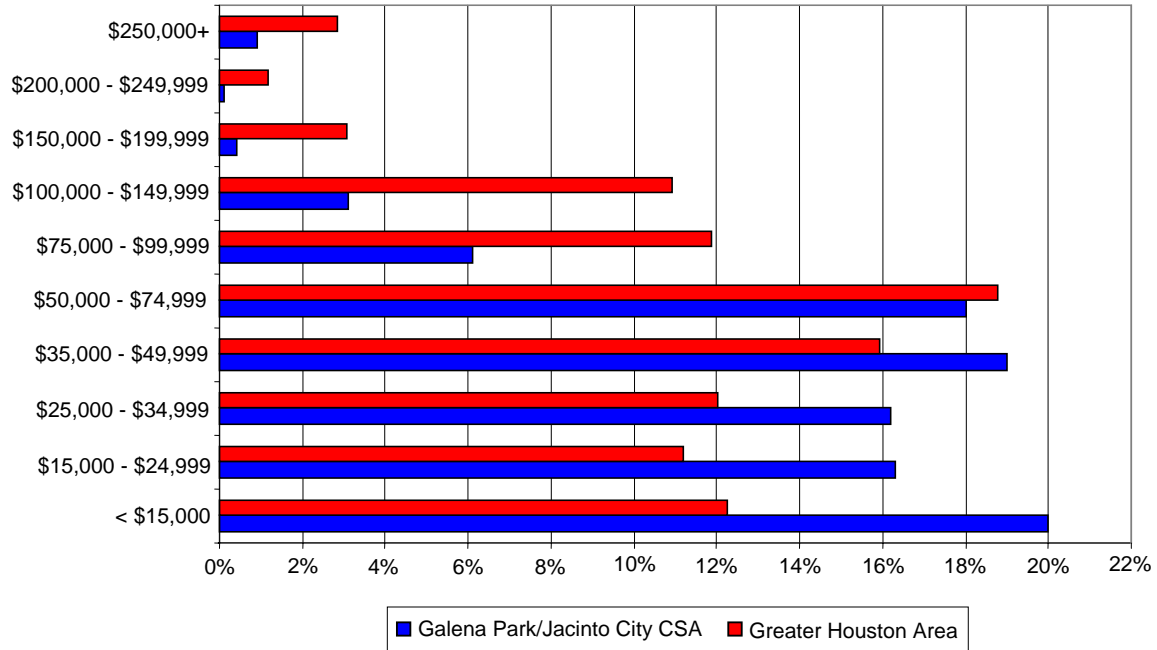

**Family Households  
Galena Park/Jacinto City CSA and Greater Houston Area**

- The percentage of families with children is slightly higher in the Galena Park/Jacinto City CSA than in the Greater Houston Area (64.1% vs. 60.1%).
- There is a larger percentage of married couples without children in the Greater Houston Area than in the Galena Park/Jacinto City CSA (31.9% vs. 24.7%).
- There is no significant difference between the Greater Houston Area and the Galena Park/Jacinto City CSA in the category of married couples with children (43.2% v. 43.0%).
- Single female and male households represent a larger percentage of the population in the Galena Park/Jacinto City CSA than in the Greater Houston Area (32.1% vs. 25.1%).

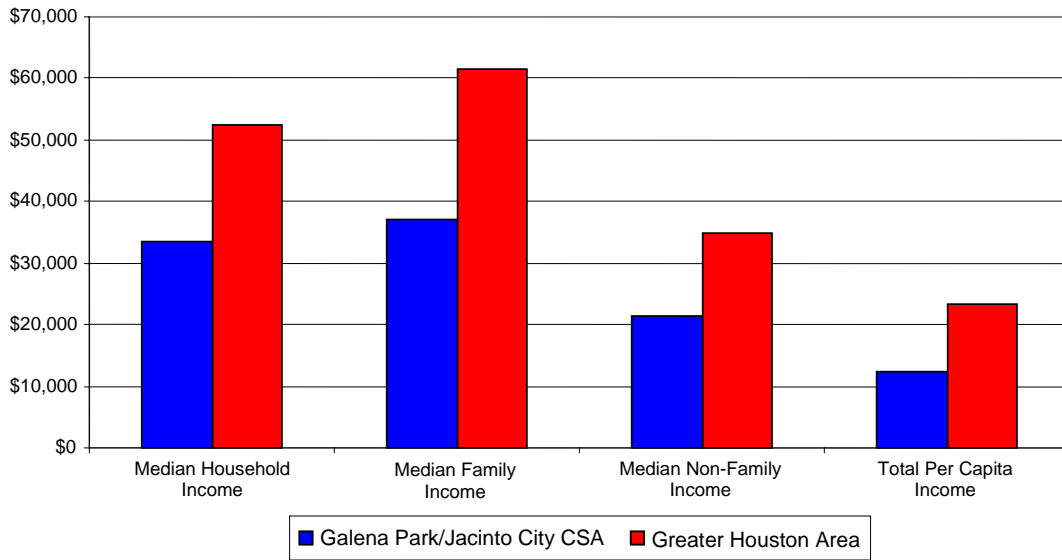

**Households by Income  
Galena Park/Jacinto City CSA and Greater Houston Area**

- A significantly higher percentage of households in the Galena Park/Jacinto City CSA earn incomes below \$15,000 than in the Greater Houston Area (20.0% vs. 12.2%).
- In the Galena/Jacinto City CSA there is a much higher percentage of households earning less than \$50,000 dollars compared to the Greater Houston Area (71.5% vs. 51.3%).
- A significantly larger percentage of the people in the Greater Houston Area earn incomes above \$50,000 than in the Galena Park/Jacinto City CSA (48.7% vs. 28.5%).

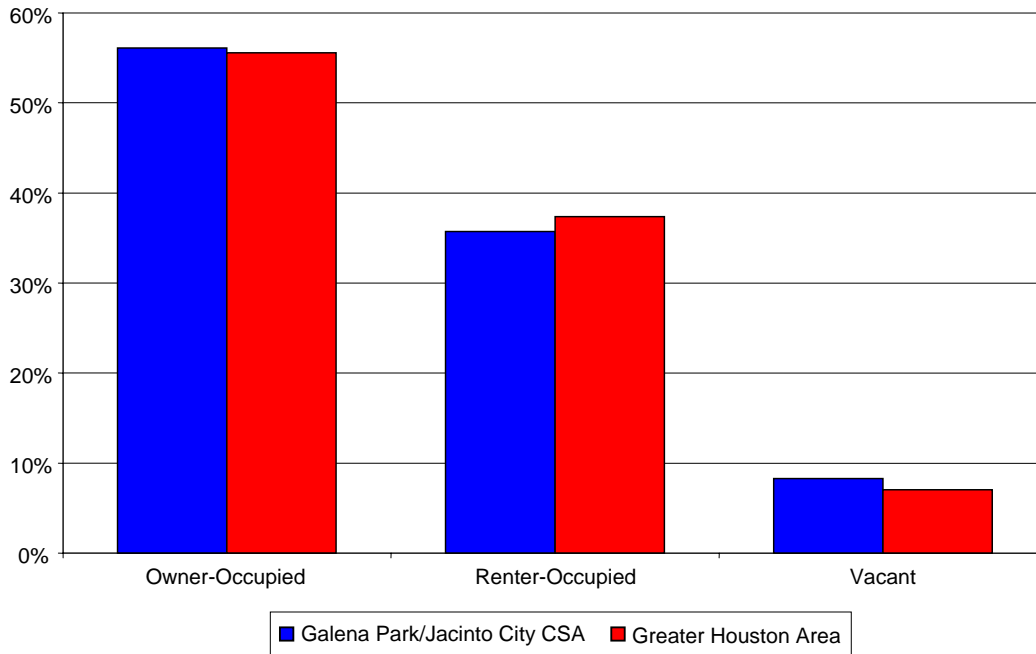

**Income Dynamics**  
**Galena Park/Jacinto City CSA and Greater Houston Area**

- Higher incomes are observed in the Greater Houston Area than in the Galena Park/Jacinto City CSA.
- The median household income in the Galena Park/Jacinto City CSA is \$33,386 compared to \$52,462 in the Greater Houston Area.
- Median family income is significantly higher in the Greater Houston Area than in the Galena Park/Jacinto City CSA (\$61,391 vs. \$37,013).
- In the Greater Houston Area, the median non-family income is \$34,908, whereas in the Galena Park/Jacinto City CSA it is \$21,537.
- The total per capita income in the Greater Houston Area is almost 2 times higher than in the Galena Park/Jacinto City CSA (\$23,402 vs. \$12,394).

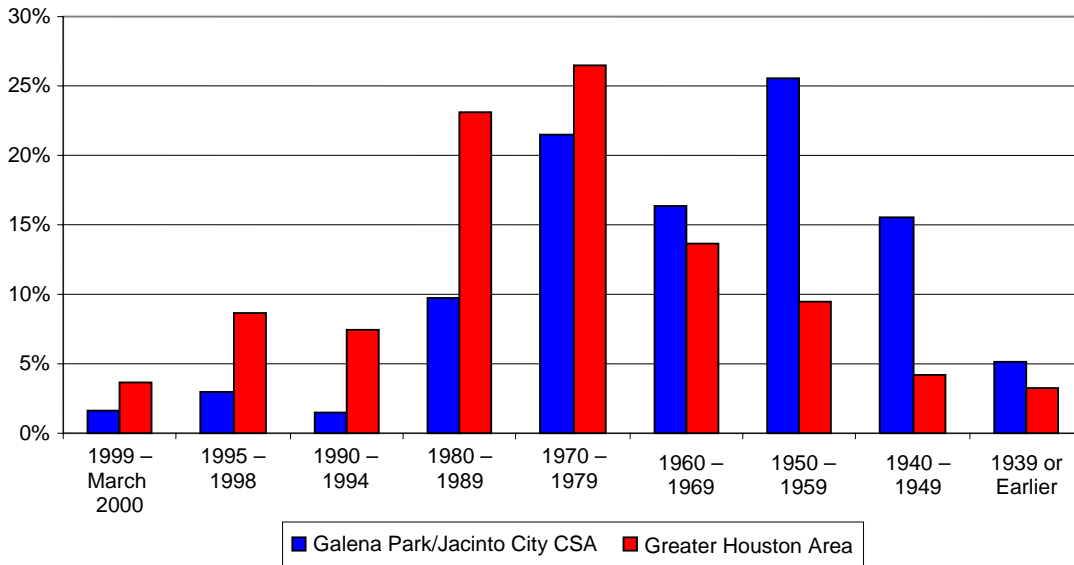

**Total Housing Units  
Galena Park/Jacinto City CSA and Greater Houston Area**

- In the Galena Park/Jacinto City CSA, 56.1% of the housing units are owner-occupied, compared to 55.6% in the Greater Houston Area.
- There is a slightly larger percentage of renter-occupied units in the Greater Houston Area than in the Galena Park/Jacinto City CSA (37.4% vs. 35.7%).
- In both the Galena Park/Jacinto City CSA and the Greater Houston Area, a housing unit is more likely to be occupied by the owner than by a renter.

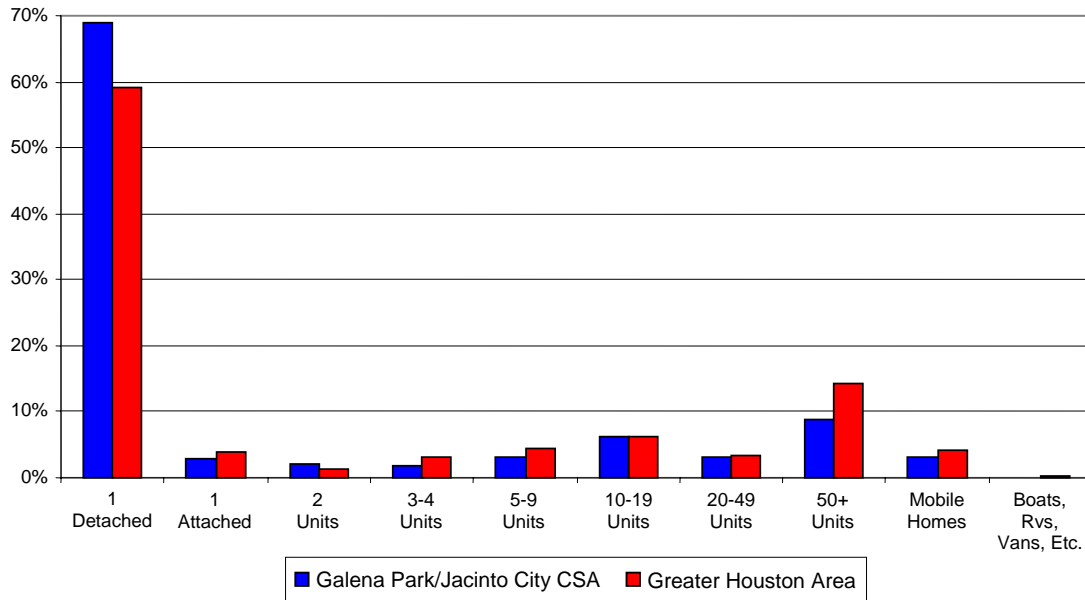

**Units by Year Built  
Galena Park/Jacinto City CSA and Greater Houston Area**

- In the Galena Park/Jacinto City CSA, over twice the percentage of housing units were built in the 1960s or earlier, compared to the Greater Houston Area (62.7% vs. 30.6%).
- The percentage of housing units built between the years of 1950 and 1959 is nearly 3 times higher in the Galena Park/Jacinto City CSA, than in the Greater Houston Area (25.5% vs. 9.4%).
- Units built during the 1940s comprise a percentage nearly 4 times higher in the Galena Park/Jacinto City CSA than in the Greater Houston Area (15.6% vs. 4.2%).
- In the Greater Houston Area there is a higher percentage of housing units built between the years of 1970 and 2000, compared to the Galena Park/Jacinto City CSA (69.4% vs. 37.3%).
- In general, housing units in the Galena Park/Jacinto City CSA are much older than those in the Greater Houston Area.

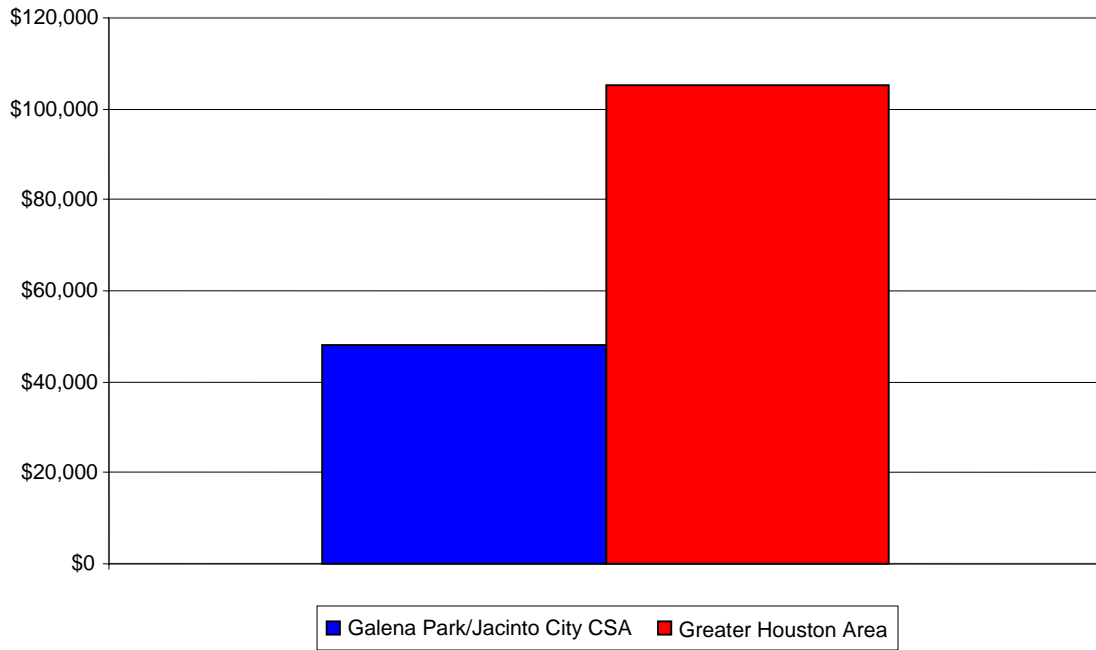

**Housing Units by Type**  
**Galena Park/Jacinto City CSA and Greater Houston Area**

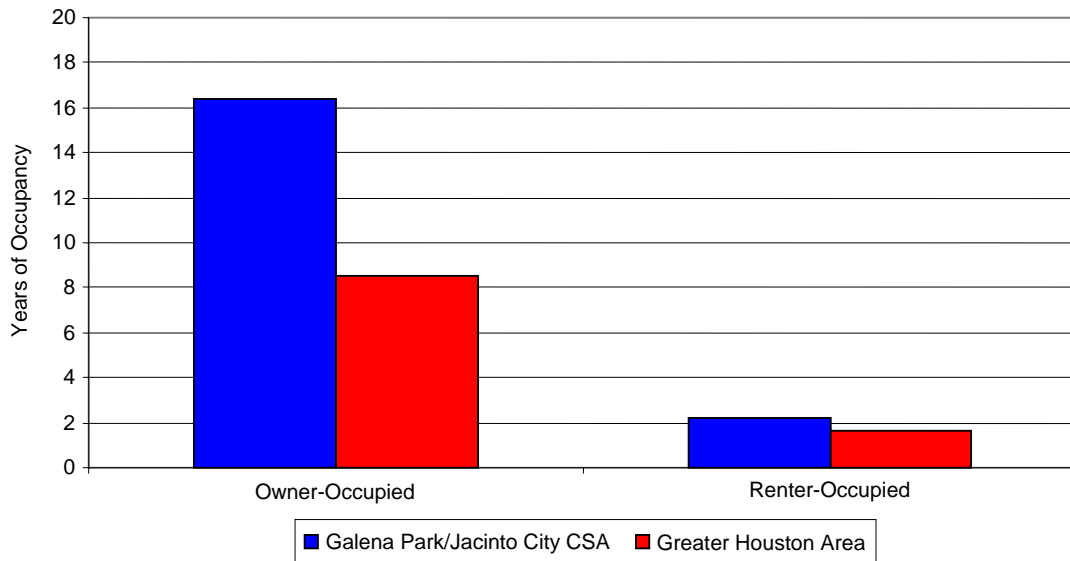

- Detached single housing units comprise a larger percentage in the Galena Park/Jacinto City CSA compared to the Greater Houston Area (68.9% vs. 59.1%).
- Significantly more 50+ units exist in the Greater Houston Area than in the Galena Park/Jacinto City CSA (14.3% vs. 8.8%).
- Detached single housing units and dwellings with 50+ units represent 77.7% of the households in the Galena Park/Jacinto City CSA.

**Median Home Value  
Galena Park/Jacinto City CSA and Greater Houston Area**

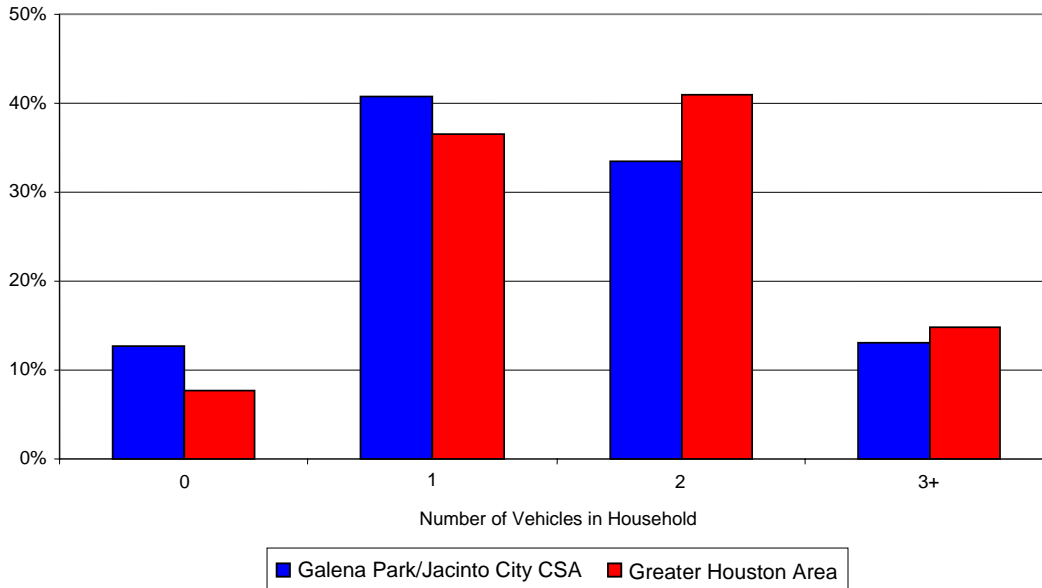

**Median Length of Occupancy  
Galena Park/Jacinto City CSA and Greater Houston Area**

- The median length of occupancy in both the Greater Houston Area and the Galena Park/Jacinto City CSA is longer for owner-occupied units than those occupied by a renter.
- In both owner and renter occupied dwellings, the Galena Park/Jacinto City CSA has a longer median length of occupancy.
- In the Galena Park/Jacinto City CSA, the median length of occupancy for owner-occupied households is over 7 times that of renter occupied households (16.4 years vs. 2.2 years).

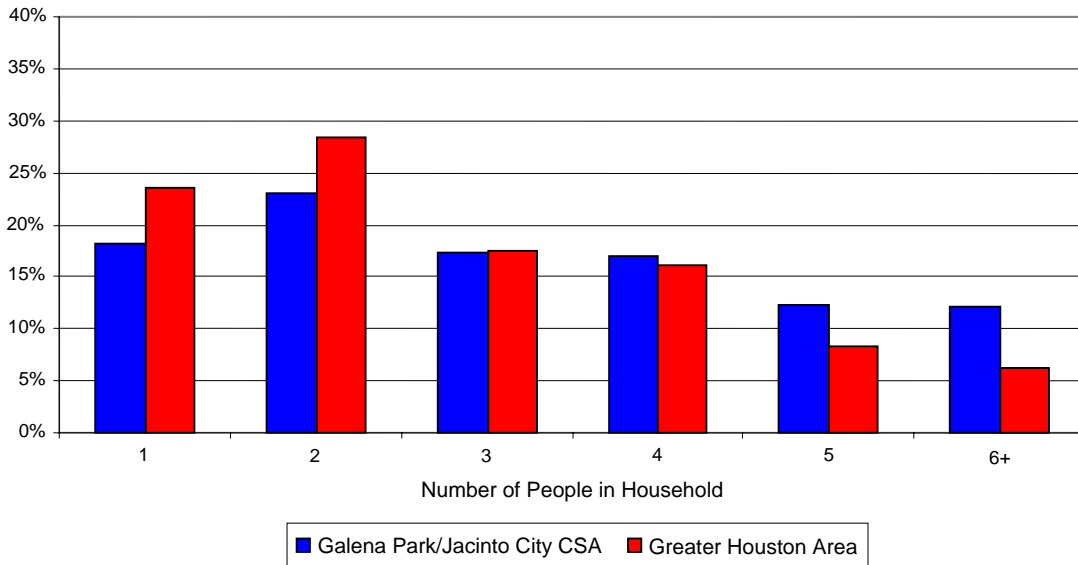

**Households by Count of Vehicles Available  
Galena Park/Jacinto City CSA and Greater Houston Area**

- There is a larger percentage of households with no vehicles in the Galena Park/Jacinto City CSA than in the Greater Houston Area (12.7% vs. 7.7%).
- Households with one vehicle comprise a higher percentage in the Galena Park/Jacinto City CSA than in the Greater Houston Area (40.8% vs. 36.6%).
- There is a higher percentage of households with two vehicles in the Greater Houston Area than in the Galena Park/Jacinto City CSA (41.0% vs. 33.5%).
- Households with 3 or more vehicles comprise 13.1% of the Galena Park/Jacinto City CSA, compared to 14.8% in the Greater Houston Area.

**Households by Count of Persons  
Galena Park/Jacinto City CSA and Greater Houston Area**

- In the Greater Houston Area, there is a significantly higher percentage of households consisting of one person, than in the Galena Park/Jacinto City CSA (23.5% vs. 18.2%).
- Households with 2 persons comprise a larger percentage in the Greater Houston Area, compared to Galena Park/Jacinto City CSA (28.3% vs. 23.0%).
- There is no statistical difference between the Greater Houston Area and the Galena Park/Jacinto City CSA in the number of households with 3 or more persons (17.4% vs. 17.5%).
- Over one half (54.8%) of the households in the Galena Park/Jacinto CSA consist of 3 or more people.
- Households with 3 or more persons comprise a larger percentage of the Galena Park/Jacinto City CSA, compared to the Greater Houston Area (58.8% vs. 48.2%).

# **Houston Profile Project Galena Park/Jacinto City Area (CSA #18)**

## **CSA Rankings**

### **By Key Lifestyle and Religion Questions**

In this section we rank order the 45 CSAs by key religious and lifestyle questions. We use a form of hierarchical modeling in which individual responses to the lifestyle and religion questions in the HPP Poll are estimated with key socio-demographic measures from each CSA. These measures include age structure, race and ethnic composition, household structure, education, income, and housing values. The analysis produces an estimated average response to each question for each of the 45 CSAs. We subsequently rank the 45 CSAs based on these responses, and provide tables of these rankings in this section of the report. Please note that the measures reported here are those for which the hierarchal analysis proved useful. For some measures, the models did not perform well enough to allow us to report rankings with an acceptable level of confidence.

## **Percent Who Get A Great Deal of Satisfaction From Their Neighborhood Galena Park/Jacinto City CSA**

- The Galena Park/Jacinto City CSA ranks eighth from the bottom of all CSAs in the Greater Houston Area on neighborhood satisfaction.
- 33.48% of adults living in the Galena Park/Jacinto City CSA receive a great deal of satisfaction from their neighborhood.
- There is less neighborhood satisfaction in the Galena Park/Jacinto City CSA than in the Greater Houston Area.
- For the Greater Houston Area, 55% report receiving a great deal of satisfaction from their neighborhood.
- There are an estimated 32,453 adults living in the Galena Park/Jacinto City CSA.
- In the Galena Park/Jacinto City CSA an estimated 10,900 adults receive a great deal of satisfaction from their neighborhood.

## **Percent Who Receive A Great Deal of Satisfaction From Their Family Galena Park/Jacinto City CSA**

- The Galena Park/Jacinto City CSA ranks eighth from the bottom of all CSAs in the Greater Houston Area on family satisfaction.
- Despite its low relative ranking, 72.63% of adults living in the Galena Park/Jacinto City CSA receive a great deal of satisfaction from their families.
- Family satisfaction in the Galena Park/Jacinto City CSA is lower than the family satisfaction value for the Greater Houston Area.
- For the Greater Houston Area, 79% report receiving a great deal of satisfaction from their families.
- There are an estimated 32,453 adults living in the Galena Park/Jacinto City CSA.
- In the Galena Park/Jacinto City CSA almost 23,600 adults receive a great deal of satisfaction from their families.
- However, that means almost 8,900 adults in the Galena Park/Jacinto City CSA do not receive a great deal of satisfaction from their families.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory family relationships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches may have an opportunity to make connections with those who do not receive a great deal of satisfaction with family life.

## **Percent Who Receive A Great Deal of Satisfaction From Their Friends Galena Park/Jacinto City CSA**

- The Galena Park/Jacinto City CSA ranks sixth from the bottom of all CSAs in the Greater Houston Area on satisfaction from friends.
- 39.43% of adults living in the Galena Park/Jacinto City CSA receive a great deal of satisfaction from their friends.
- This number is considerably lower than in the Greater Houston Area.
- For the Greater Houston Area, 69% report receiving a great deal of satisfaction from their friends.
- Adults in the Galena Park/Jacinto City CSA are more satisfied with their families (72.63%) and friendships (39.43%) than with their neighborhood (33.48%).
- There are an estimated 32,453 adults living in the Galena Park/Jacinto City CSA.
- In the Galena Park/Jacinto City CSA an estimated 12,800 adults receive a great deal of satisfaction from their friends.
- This means however, that almost 19,700 adults in the Galena Park/Jacinto City CSA are less satisfied with their friendships.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory friendships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches have an opportunity to make connections with those who do not receive a great deal of satisfaction with friendships.

## **Percent Who Report Successfully Balancing Work and Family Galena Park/Jacinto City CSA**

- The Galena Park/Jacinto City CSA ranks in the bottom third of all CSAs in the Greater Houston Area on successfully balancing work and family.
- 27.62% of adults living in the Galena Park/Jacinto City CSA report being successful at balancing the dual demands of work and family.
- Compared with the Galena Park/Jacinto City CSA, the Greater Houston Area's percentage is higher.
- For the Greater Houston Area, 34% being successful at balancing the dual demands of work and family.
- There are an estimated 32,453 adults living in the Galena Park/Jacinto City CSA.
- In the Galena Park/Jacinto City CSA almost 9,000 adults report being successful at balancing work and family lives.
- This means however, that 72.38%, or almost 23,500 adults in the Galena Park/Jacinto City CSA, are not as successful at balancing work and family lives.
- This is important for church missions because research shows that the strains of balancing work and family life are among the leading causes of family dissolution (Kendall 2004).
- Working in the Galena Park/Jacinto City neighborhoods to help families be more successful at managing the dual demands of family and work life is a potential community ministry program.

## **Percent Who Are Generally Happy With Their Lives Galena Park/Jacinto City CSA**

- The Galena Park/Jacinto City CSA ranks fifth from the bottom of all CSAs in the Greater Houston Area on overall happiness.
- 42.05% of adults living in the Galena Park/Jacinto City CSA report being generally happy.
- This number is slightly lower than in the Greater Houston Area.
- For the Greater Houston Area, 48% report being happy.
- There are an estimated 32,453 adults living in the Galena Park/Jacinto City CSA.
- In the Galena Park/Jacinto City CSA an estimated 13,600 adults report being happy.
- This means, however, that over 18,800 adults are not very happy.
- As with satisfaction with family and friends, those who are not happy may be more amenable to new relationships. This is important for church outreach missions because research by Stark (2000) shows that people who are not happy are open to ministry.

## **Percent Who Consider Themselves Born Again Galena Park/Jacinto City CSA**

- The Galena Park/Jacinto City CSA ranks ninth of all CSAs in the Greater Houston Area on percent who consider themselves born again.
- 61.94% of adults living in the Galena Park/Jacinto City CSA consider themselves born again.
- The average for the Greater Houston Area is 52%.
- There are an estimated 32,453 adults living in the Galena Park/Jacinto City CSA.
- In the Galena Park/Jacinto City CSA, over 20,100 adults consider themselves born again.
- Being born again, however, does not necessarily translate into weekly church attendance in the Galena Park/Jacinto City CSA.
- Over 7,300 more adults in the Galena Park/Jacinto City CSA report being born again than report attending church each week.

## **Key Leader Interviews**

In this section, the results from individual, face-to-face interviews with key leaders in the CSA community are presented. The interviews were conducted by HPP volunteers using a standardized questionnaire developed by CCRD. Various key positions within the community were identified and the individual leaders that filled that particular position were contacted. If the key leader agreed to an interview, the results are included, maintaining confidentiality. The various responses are listed by question and categorized by topic. The key leader positions included elected community leaders, managers of large employers in the area, principals of local schools, civic organization leaders, labor union leaders, local Chamber of Commerce representatives, editors of neighborhood newspapers, directors of minority interest group, law enforcement officers, and leaders of major places of worship.

Center for Community Research and Development  
Community Poll 98

**Key Leader Interviews**  
**CSA #18 – Galena Park/Jacinto City Area**

**What are the best things about the Galena Park/Jacinto City Area?**

Community Atmosphere

- Family orientation.
- Growth potential.
- “Bank and church on every corner.”
- Three good school districts, including TEA Exemplary Galena Park ISD.
- Relaxed atmosphere in this community.
- If going west, north, or south, you tense up. It's more relaxed here, slower here.
- Compared to Houston, we're more laid back.
- Assimilation of leadership people into the community with a good volunteer base.

Diversity

- Diversity.
- A real asset to get past barriers, but it can also be a problem.
- Folks without challenges don't get to overcome them.

**What are the major problems facing the area?**

Traffic

- Traffic.

Diversity

- It's a unique challenge getting along with each other.
- For example, in 1969, there was one black student in a school class, the son of the math teacher.
- Statistics don't tell the story of the community, only of the district.
- This is a melting pot, 50-25-25 with a sprinkling of others. In Galena Park, it's more like 60% Hispanic, 25% Black, and 15% White.
- Varied socioeconomic groups.
- For example, Cloverleaf kids can look across the street to see what they don't have.

Disjointed Community

- When you don't want government, it's nice, but when you want it, it's not here.

### **Do the local places of worship play any roles in the three best things?**

- Churches provide community “reach out” services.
- Churches are for the most part, welcoming.
- Churches are not isolated but rather active in community.
- North Channel Assistance Ministry contributes, and those funds get passed on to the people in need in the community.
- One church sponsors Project Cloverleaf.
- Some churches donate to the Houston Food Bank and participate in the once-a-month food drive.
- One church has the vision of drawing a five-mile circle around their church with the goal of not leaving people out.
- All churches are involved.
- The Ministerial Alliance meets regularly, and holds meetings that have involved the local Constable, the North Shore 9-10 Principal, along with the ministers, in which community issues were discussed.
- Churches in the community are lifting up the right message to young people.
- While agnostics' rights may be more protected, Christian educators are able to do a lot in the schools.
- Galena Park was still praying before football games while Santa Fe was in court and was going to pray before football games as long as they could.
- Successful people are helped by faith-based educators.
- It's not what you can't do in the schools as a Christian educator, but it's what you can do.

### **Are there other contributions that places of worship are making to the area?**

- Creation of Christian Schools.
- The Hospice Care Team, a care group for patients who are dying and their families, and the Hospital Seniors Volunteer group are mostly made up of volunteers from area churches, with churches and communities helping each other.

**Can you think of any ways local places of worship help with addressing these problems?**

- I see no way that churches can help with traffic.
- Sitting together on Sunday helps get past diversity to where people of all ethnicities feel a comfort.
- Nationally, churches feed the unchurched; locally, they feed each other in the community.
- For the short-term, churches are feeding the hungry; for the long-term, they give hope.

**Can you think of other organizations and programs that are helping address these problems?**

- Police could direct traffic more.
- Local service clubs like Pilots and Rotary.
- Pilots give money to the women's shelter.
- The Rotary Club is involved in many ways.
- The Rotary Scholarship is based on scholastic ability, community involvement, and need. It's an opportunity for recipients to be first-time college graduates.
- For example, this year's recipient from Channelview is the son of immigrant parents. This two-year scholarship to the local college (San Jacinto College North) keeps students here at home and, hopefully, helps them dig roots deeper in the community. Also, they'll probably be working for someone locally. This will raise the level in our community.
- Rotary's involvement in Special Olympics, Boys and Girls Scouts of America, Little League, where about 35% are from needy families, and the North Channel Assistance Ministry.
- Rotary's budget for these programs is \$250,000 per year.

**Can you think of any ways that local places of worship contribute, even unwittingly, to making these problems worse?**

- No.
- No, not specifically.
- Closing their hearts to people in need can make these problems worse, but that's more of an individual church member's action.

**Can you think of any suggestions or potential programs, not already in place, that would help to solve the problems within the Galena Park/Jacinto City Area?**

- The more we talk to each other, the more subgroups are involved, will head things off at the pass. For example, there is a multiracial committee that meets with the school board.
- A faith summit on an annual basis in which community members could all sit down and have open discussion was recommended.
- Alzheimer's centers.
- Teen parenting instruction.

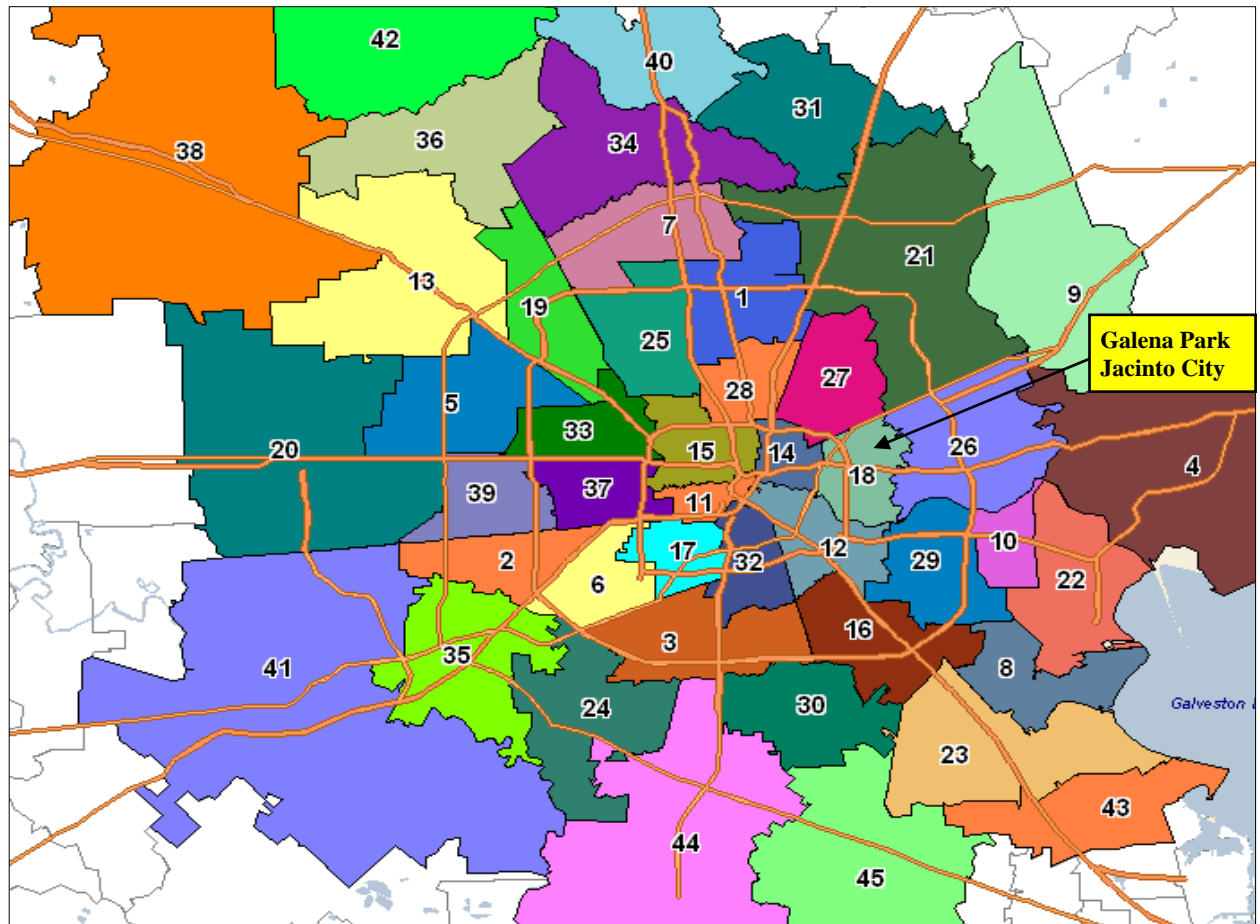

**Finally, is there anything else about the area that you think is especially important, that we really need to know about, that we ought to work on, or that we should include in this report?**

- Youth ministers in the area seem to be doing a good job.
- "We're all cute and fun to be with!"
- Community has infrastructure needs because they only have a county government.
- This area is a great place to live, work, and raise a family.
