# ***BACKGROUND OF THE BAYLOR CENTER FOR COMMUNITY RESEARCH AND DEVELOPMENT***

## ***Mission***

The Center for Community Research and Development (CCRD) was established at Baylor University in 1979 as a multidisciplinary entity with a mission of **engaging Baylor faculty and students in applied social research to improve the local quality of life**. Over time, the CCRD has broadened its focus, sometimes engaging in statewide or national research, and the CCRD has become closely linked with Baylor's Ph.D. program in Applied Sociology, where Ph.D. students serve as center research analysts. Still, our research remains multidisciplinary and many of the CCRD's projects retain a local quality of life focus.

## ***Facilities***

The CCRD originally worked out of faculty offices in Sociology and Political Science and moved into its own facilities in 1990, when the operations center was located in the basement of the Sid Richardson Science Building. The CCRD moved to Suite 300 of the Robinson Tower in 1994. These modern facilities allow easier access to the community and include:

- offices for Center directors, six doctoral students, research analysts, and a project coordinator,
- focus group facilities with a separate observation room and recording equipment,
- a conference room for meetings and graduate seminars,
- report production facilities for CCRD documents,
- a local area network with Windows operating systems, and
- a Computer Assisted Telephone Interviewing (CATI) system.

## ***Services***

The Center for Community Research and Development is equipped to undertake a wide variety of projects for organizations, businesses, industries, and governmental agencies. Services include:

- Mail Surveys
- Telephone Surveys
- Questionnaire design
- Needs assessments
- Program planning and evaluation
- Impact assessments
- Population trend studies and projections
- Data collection and analysis
- Sampling designs
- Focus groups
- Seminars and workshops on community issues
- Mock Juries and Jury Consulting

### *Society for Applied Sociology*

From 1998 through 2001, the CCRD served as the administrative office for the Society for Applied Sociology, an international organization for professionals involved in applying sociological knowledge in a wide variety of settings. The CCRD retains an active membership in SAS and Dr. Tillman Rodabough is the President. The mission statement for SAS is to:

- Provide a forum for sociologists and others interested in applying sociological knowledge.
- Enhance understanding of the interrelationship between sociological knowledge and sociological practice.
- Increase the usefulness and effectiveness of applied sociological research and training.

### *Selected Previous Clients*

The CCRD has served a varied clientele on a large number of issues. Representative projects include:

- **Telephone surveys** for the City of Waco, Southwestern Bell, the *Waco Tribune-Herald*, Houston Profile Project
- **Site location research** for the Perryman Group, American Airlines
- **Needs assessments** for the Baptist General Convention of Texas, the United Way, HOTCOG
- **Population projections** for the Heart of Texas Council of Governments, Heritage House
- **Focus groups** for Creative Education Institute, Baylor University, EEOC, City of Waco, the United Way
- **Mail-out surveys** for Hillcrest Baptist Medical Center, the City of Woodway, Baptist General Convention of Texas
- **Intercept surveys** for Richland Mall, the Texas Ranger Museum, the Dr. Pepper Museum
- **Mock juries** and **change of venue** research for Amarillo, Dallas and Waco law firms
- **Program assessments** for the McLennan County Youth Collaboration, Waco Police Department
- **Door-to-door surveys** for the Waco Housing Authority, Mission Waco, Drug Prevention Resources
- **Voter exit interviews** for the Dallas Independent School District
- **Institutional evaluation** for San Marcos Baptist Academy, the BGCT Education Commission. Baptists in Scouting, Baylor University, Waco Independent School District
- **Program development** for the Cooper Foundation, the Junior League, MHMR

### *Fees*

The CCRD is a non-profit service center for the community and University. Fees charged for research projects represent actual costs for services and enable the CCRD to be self-supporting.

### *Staff*

- **Dr. Larry Lyon** is Director of the CCRD, Dean of the Graduate School, and Professor of Sociology in the Department of Sociology and Anthropology (Larry\_Lyon@Baylor.edu).
- **Dr. Tillman Rodabough** is Research Director for the CCRD and Professor of Social Psychology in the Department of Sociology (Tillman\_Rodabough@Baylor.edu).
- **Mrs. Debbie Marable** is the Projects Coordinator for the CCRD, Graduate Program Assistant for Sociology and a graduate of Baylor University (Debbie\_Marable@Baylor.edu).
- **Dr. Carson Mencken** is Associate Professor of Sociology and Graduate Program Director for Sociology, with research expertise in statistical analysis and spatial modeling and serves as a research professor for CCRD (Carson\_Mencken@Baylor.edu).
- **Dr. Robyn Bateman Driskell** is Associate Professor of Sociology with expertise in demography and serves as a research professor for the CCRD (Robyn\_Bateman@Baylor.edu).
- **Dr. Charles Tolbert, II** is Professor and Chair, Department of Sociology and Anthropology and GIS and census data consultant for CCRD (Charlie\_Tolbert@Baylor.edu).
- **Lacey C. Wiggins, M.A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Lacey\_Chapman@Baylor.edu).
- **Rusty Parker, M. A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Rusty\_Parker@Baylor.edu).
- **Jodien Matos** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jodien\_Matos@Baylor.edu).
- **Kathy Krey** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Kathy\_Krey@Baylor.edu).
- **Jeniece Williams** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jeniece\_Williams@Baylor.edu).
- **Elizabeth Terrazas-Carrillo** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Elizabeth\_Terrazas@Baylor.edu).
- **Liz Embry** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Elizabeth\_Ninneman@Baylor.edu).

*Each staff person can also be contacted at the CCRD office (254) 710-3811 or e-mailed at CCRD@Baylor.edu. Our website address is <http://www.Baylor.edu/CCRD>*

## **Background of the Poll**

*Center for Community Research and Development*  
Poll 98  
(September 2004)

In the fall of 2003, the Center for Community Research and Development (CCRD) conducted a scientific poll to assess religious and lifestyle practices and beliefs in 45 communities in the Greater Houston Area. Questions for the poll were developed by CCRD researchers using national polls on lifestyles and religion as a guideline.

From October 1 through November 15, a total of 2,419 Greater Houston Area residents were interviewed using a Computer Assisted Telephone Interviewing (CATI) system. The CATI technology allows control over the interviewing process and automates data entry. The sample was selected from a computer-generated set of random phone numbers. Random generation includes residents with unlisted numbers. Other steps taken to ensure the quality of the poll include: (1) testing and editing experimental versions of the questionnaire to increase the clarity and reliability of each question; (2) intensive training for each interviewer; (3) continual monitoring of interviews by social science Ph.D.s; (4) daily review of work and interviewing procedures and results by the CCRD staff; (5) calling during times established in previous studies to provide the most representative sample; (6) making up to five call-backs for each phone number to avoid distorting the sample toward the more easily accessible residents; (7) using special “screens” to increase the number of male and minority respondents; (8) purchasing a special bank of phone lines with “Community Research” as the caller identification label rather than the standard label, “Baylor University;” and (9) employing Spanish speaking interviewers for households where Spanish is the primary language.

The demographic characteristics of the sample resemble those of demographics available through external sources. While the sample is largely representative of the population, minority ethnic groups were slightly under-represented among respondents in the poll. To compensate, this analysis uses weighted data to ensure a more representative sample. The final sample is comparable to official data available on the 45 communities in the Greater Houston Area’s 3,097,362 adults. For example, the sample used in the analysis is approximately 58% “Anglo,” 20% Hispanic, and 17% African-American.<sup>[1]</sup> The percentages for African Americans and Anglos closely reflect recent Census estimate population numbers for the 45 communities in the Greater Houston Area.<sup>[2]</sup> Other population numbers/sample comparisons suggest similarly low levels of bias.

For the overall response distributions of the questionnaire data, the responses will typically vary by less than 3 percentage points in either direction at the 95% confidence level. For cross-tabulation tables that analyze smaller portions of the sample by dividing it into various categories such as race or education, the percentage of variation will be considerably higher.

---

<sup>[1]</sup> Throughout this report, the terms “White” and “Anglo” refer to non-Hispanic whites. “African-American” and “Black” are used interchangeably.

<sup>[2]</sup> 2002 Census estimates show a total adult population of 3,097,362 for the 45 communities in the Greater Houston Area. Of the approximately 3,097,362 adults: about 45.0% are Anglo, 17.5% African American, 30.2% Hispanic, 0.4% American Indian, 5.4% Asian/Pacific Islander and 1.4% are Multi-Racial.

## **Executive Summary**

*Center for Community Research and Development*

### **League City/Webster/Friendswood Area (CSA #23)**

- The League City/Webster/Friendswood CSA has a much higher percentage of Anglos, compared to the Greater Houston Area (74.6% vs. 45.0%).
- The percentage of the population aged 35 to 64 is greater in the League City/Webster/Friendswood CSA than in the Greater Houston Area (41.6% vs. 38.2%).
- A higher percentage of the population hold college or graduate/professional degrees in the League City/Webster/Friendswood CSA than in the Greater Houston Area.
- A higher percentage of the League City/Webster/Friendswood CSA's households earn incomes above \$75,000, than in the Greater Houston Area (39.2% vs. 29.9%).
- The League City/Webster/Friendswood CSA ranks fifteenth of all CSAs in the Greater Houston Area on neighborhood satisfaction.
- The League City/Webster/Friendswood CSA ranks thirteenth of all CSAs in the Greater Houston Area on family satisfaction.
- The League City/Webster/Friendswood CSA ranks in the upper third of all CSAs in the Greater Houston Area on satisfaction from friends.
- The League City/Webster/Friendswood CSA ranks in the bottom half of all CSAs in the Greater Houston Area on success at balancing work and family.
- The League City/Webster/Friendswood CSA ranks tenth of all CSAs in the Greater Houston Area on overall happiness.
- The League City/Webster/Friendswood CSA ranks in the bottom third of all CSAs in the Greater Houston Area on weekly church attendance.
- In the League City/Webster/Friendswood CSA, almost 10,900 adults never attend church.
- Almost 20,600 more adults in the League City/Webster/Friendswood CSA report being born again than report attending church each week.
- The League City/Webster/Friendswood CSA ranks eighth from the bottom of all CSAs in the Greater Houston Area on percent who read the Bible or other inspired literature when they have a problem.
- The League City/Webster/Friendswood CSA ranks in the bottom third of all CSAs in the Greater Houston Area on percentage who are likely to see a religious counselor when they have problems.
- More people in the League City/Webster/Friendswood CSA read the Bible or other inspired literature when they have a problem than would seek help in a place of worship.
- The League City/Webster/Friendswood CSA ranks in the bottom third of all CSAs in the Greater Houston Area on percent who pray when they have problems.
- The League City/Webster/Friendswood CSA ranks in the bottom third of all CSAs in the Greater Houston Area on percent who have no doubts about the existence of God.

(CSA #23)**

Demographics

Center for Community Research and Development  
Community Poll 98

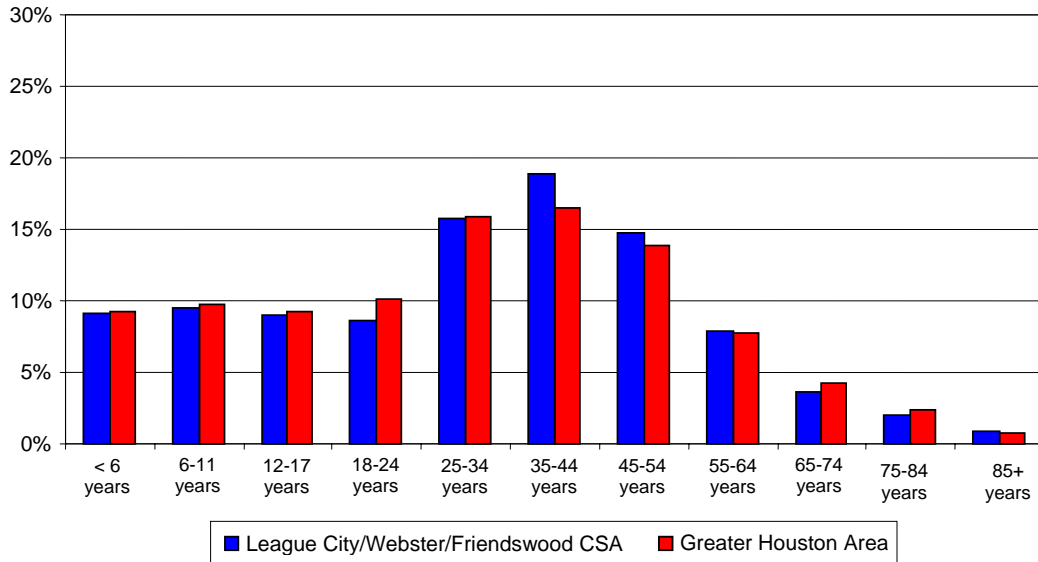

**Population by Race/Ethnicity  
League City/Webster/Friendswood CSA and Greater Houston Area**

- Racial composition differences of between the League City/Webster/Friendswood CSA and the Greater Houston Area.
- Anglos comprise a larger proportion of the population in the League City/Webster/Friendswood CSA, compared to the Greater Houston Area (74.6% vs. 45.0%).
- The percentage of Blacks is 3 times higher in the Greater Houston Area than in the League City/Webster/Friendswood CSA (17.5% vs. 5.7%).
- In the League City/Webster/Friendswood CSA, Hispanics represent 14.2% of the population, whereas in the Greater Houston Area they comprise 30.2%.
- There is a lower percentage of Asian/Pacific Islanders in the League City/Webster/Friendswood CSA than in the Greater Houston Area (4.0% vs. 5.4%).
- Few differences exist between the League City/Webster/Friendswood CSA and the Greater Houston Area in the remaining race/ethnicity categories.

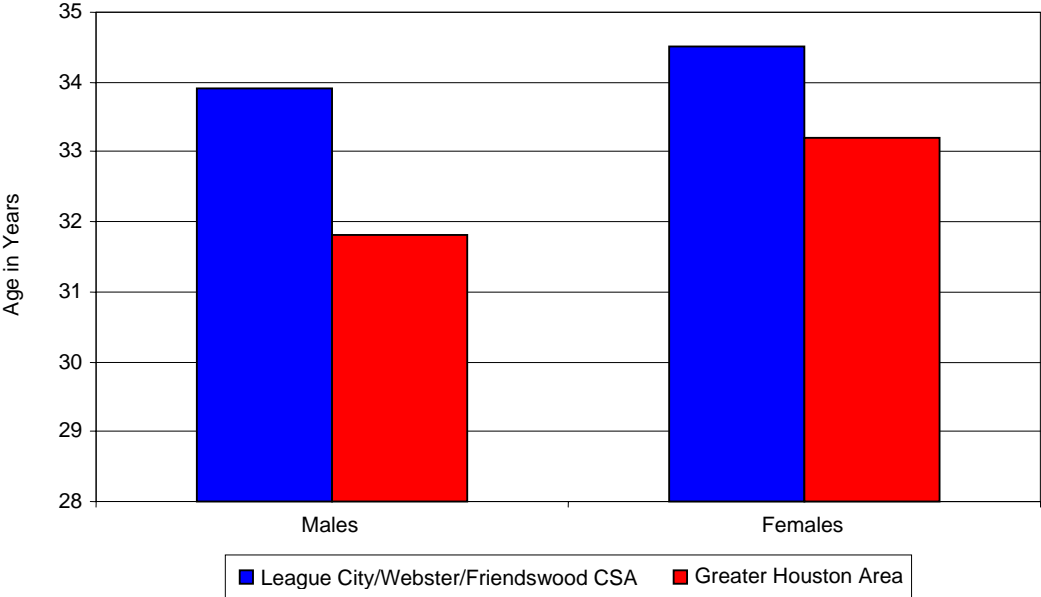

**Population by Age  
League City/Webster/Friendswood CSA and Greater Houston Area**

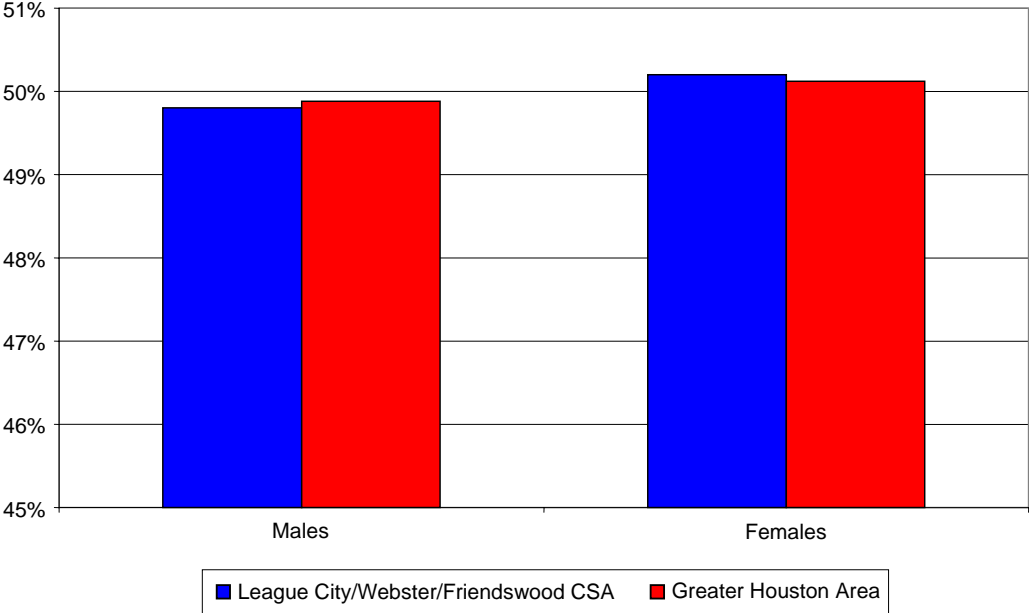

- There are small differences between the age composition of the Greater Houston Area and the League City/Webster/Friendswood CSA.
- People between the ages of 18 to 34 comprise a slightly larger percentage in the Greater Houston Area as compared to the League City/Webster/Friendswood CSA (26.0% vs. 24.3%).
- The percentage of the population aged 35 to 64 is higher in the League City/Webster/Friendswood CSA than in the Greater Houston Area (41.6% vs. 38.2%).
- There is little difference between the Greater Houston Area and the League City/Webster/Friendswood CSA in the category of people age 65 years and older (7.5% vs. 6.5%).

**Median Age Males and Females  
League City/Webster/Friendswood CSA and Greater Houston Area**

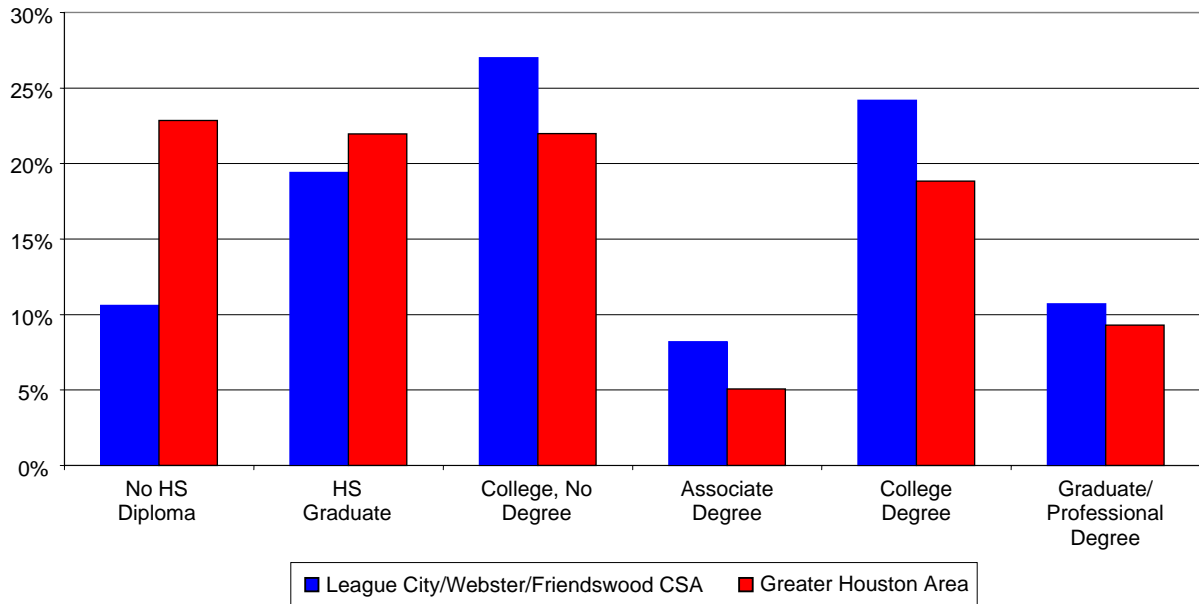

**Population by Gender  
League City/Webster/Friendswood CSA and Greater Houston Area**

- Age and sex composition differs slightly between the Greater Houston Area and the League City/Webster/Friendswood CSA.
- In the Greater Houston Area males comprise 49.9% of the population, whereas in the League City/Webster/Friendswood CSA they comprise 49.8%.
- The percentage of females in the Greater Houston Area is 50.1%, compared to 50.2% in the League City/Webster/Friendswood CSA.
- Median age for males is 31.8 years in the Greater Houston Area, compared to 33.9 years in the League City/Webster/Friendswood CSA.
- Female median age differs slightly between the Greater Houston Area and the League City/Webster/Friendswood CSA (33.2 years vs. 34.5 years).

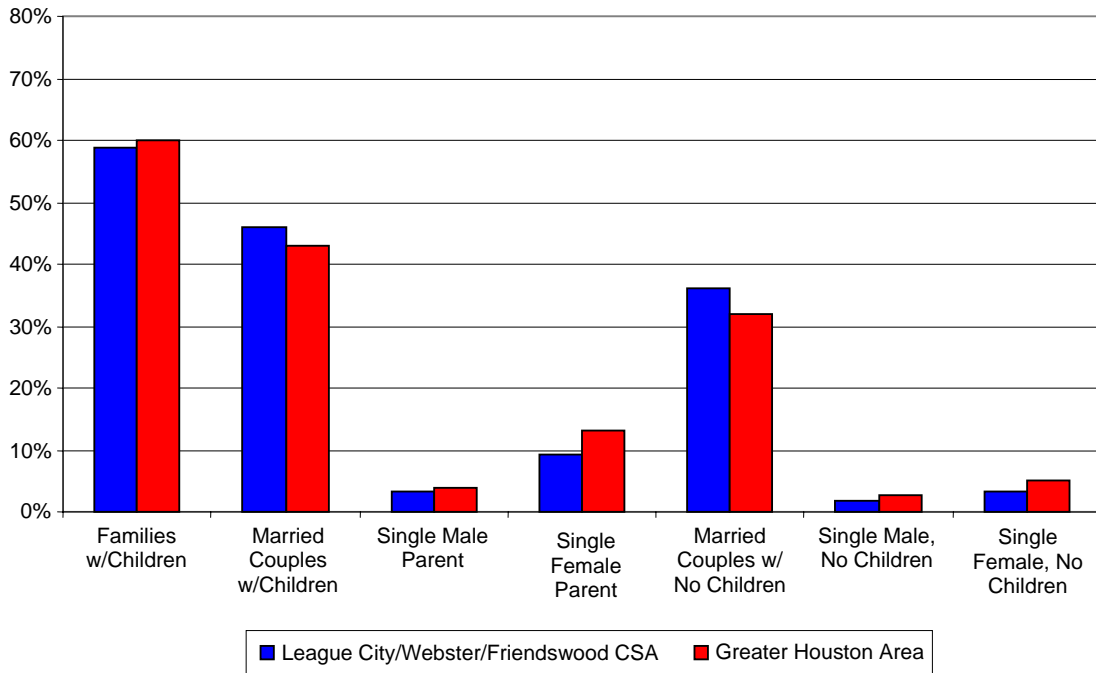

**Educational Levels for Adults 25+  
League City/Webster/Friendswood CSA and Greater Houston Area**

- Educational attainment for adults over 25 years of age differs between the Greater Houston Area and the League City/Webster/Friendswood CSA.
- In the Greater Houston Area, people without a high school diploma comprise twice the percentage, compared to the League City/Webster/Friendswood CSA (22.8% vs. 10.6%).
- High school graduates comprise 19.4% of the population in the League City/Webster/Friendswood CSA, whereas in the Greater Houston Area they comprise 22.0%.
- A higher percentage of the population hold college degrees in the League City/Webster/Friendswood CSA than in the Greater Houston Area (24.2% vs. 18.8%).
- People with graduate/professional degrees comprise 9.3% of the population in the Greater Houston Area, compared to 10.7% in the League City/Webster/Friendswood CSA.

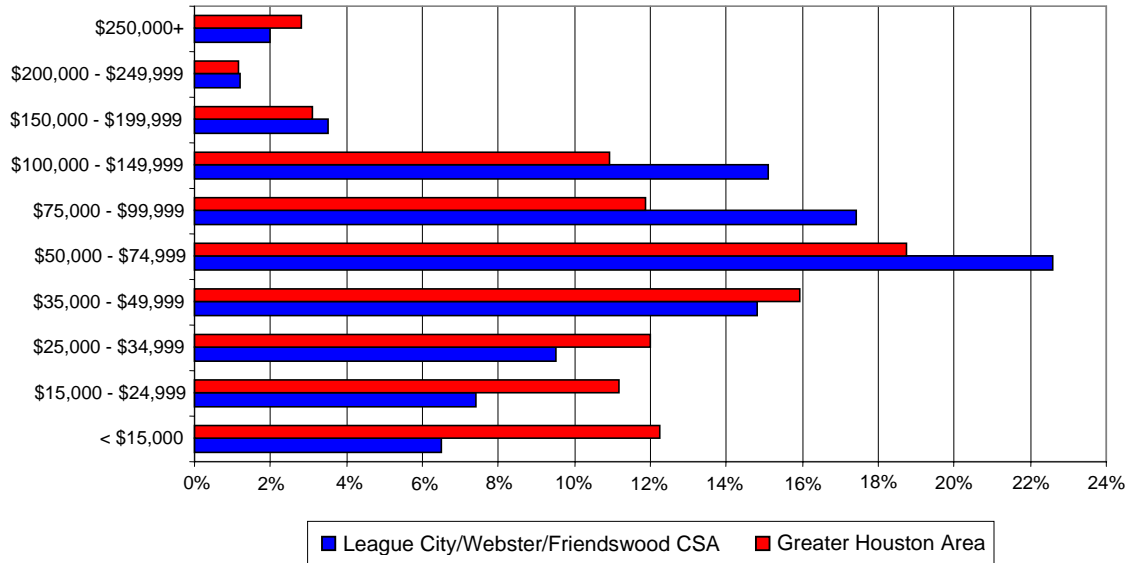

**Family Households**  
**League City/Webster/Friendswood CSA and Greater Houston Area**

- The percentage of families with children does not differ significantly between the League City/Webster/Friendswood CSA and the Greater Houston Area (58.8% vs. 60.1%).
- There is a slightly higher percentage of married couples with children in the League City/Webster/Friendswood CSA than in the Greater Houston Area (46.1% vs. 43.0%).
- In the League City/Webster/Friendswood CSA there is a larger percentage of married couples without children, compared to the Greater Houston Area (36.0% vs. 31.9%).
- Single female and male households, with and without children, represent a higher percentage of the population in the Greater Houston Area, compared to the League City/Webster/Friendswood CSA.

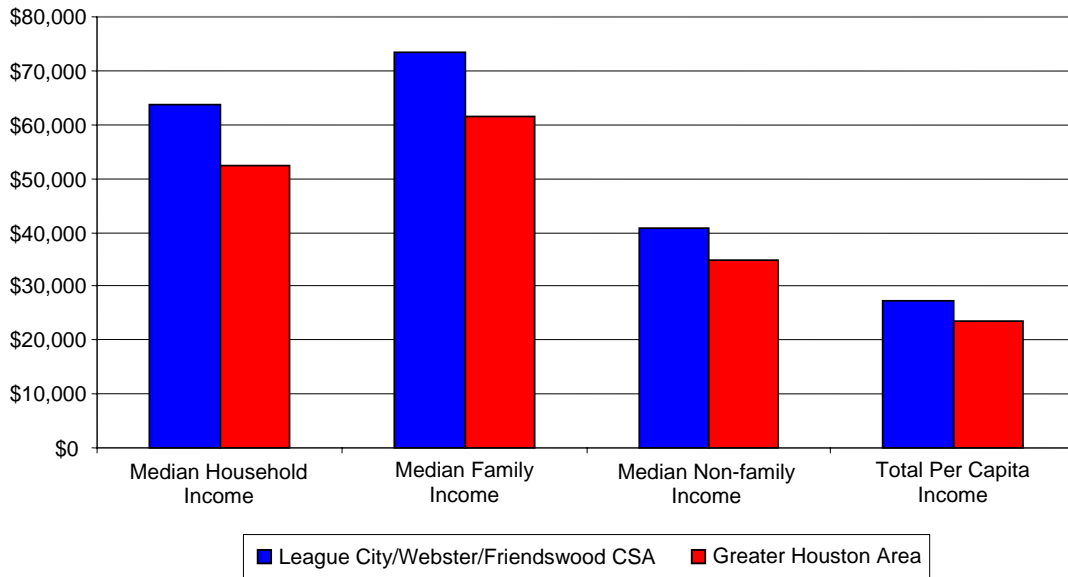

**Households by Income  
League City/Webster/Friendswood CSA and Greater Houston Area**

- The percentage of households earning incomes below \$15,000 is much higher in the Greater Houston Area, than in the League City/Webster/Friendswood CSA (12.2% vs. 6.5%).
- 22.6% of the League City/Webster/Friendswood CSA households earn incomes between \$50,000 and \$75,000 compared to 18.8% in the Greater Houston Area.
- The percentage of households earning incomes between \$75,000 and \$150,000 is higher in the League City/Webster/Friendswood CSA than in the Greater Houston Area (32.5% vs. 22.8%).
- A higher percentage of the League City/Webster/Friendswood CSA’s households earn incomes above \$75,000, than the Greater Houston Area (39.2% vs. 29.9%).

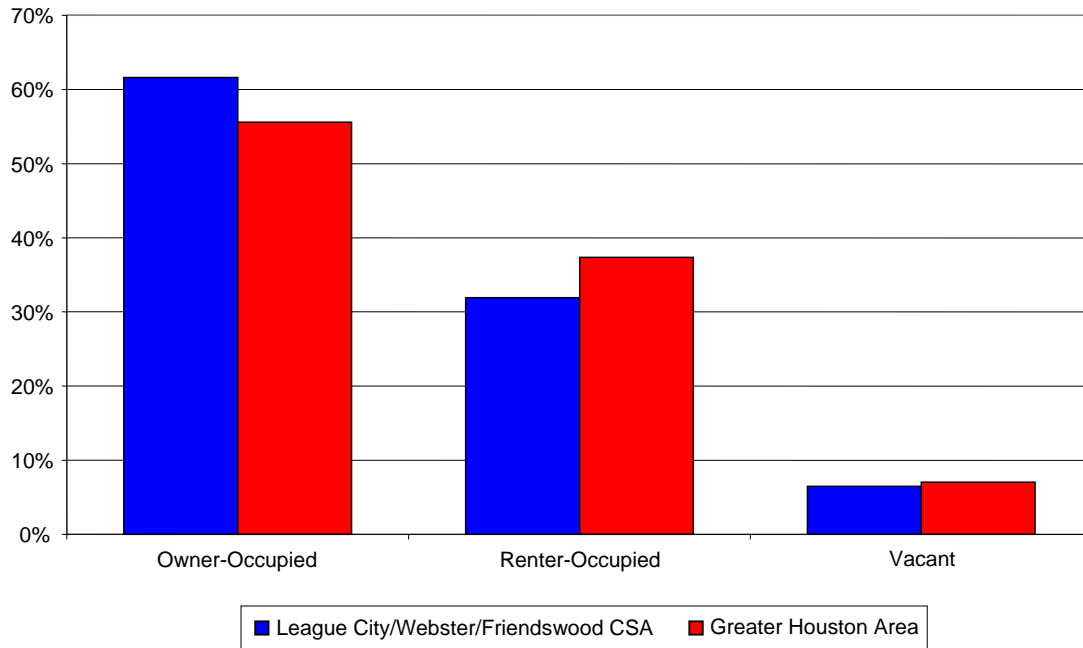

**Income Dynamics**  
**League City/Webster/Friendswood CSA and Greater Houston Area**

- The median household income in the League City/Webster/Friendswood CSA is \$63,561 compared to \$52,462 in the Greater Houston Area.
- Median family income is significantly higher in the League City/Webster/Friendswood CSA than in the Greater Houston Area (\$73,562 vs. \$61,391).
- In the Greater Houston Area, the median non-family income is \$34,908 whereas in the League City/Webster/Friendswood CSA it is \$40,725.
- The total per capita income in the League City/Webster/Friendswood CSA is slightly higher than in the Greater Houston Area (\$27,355 vs. \$23,402).

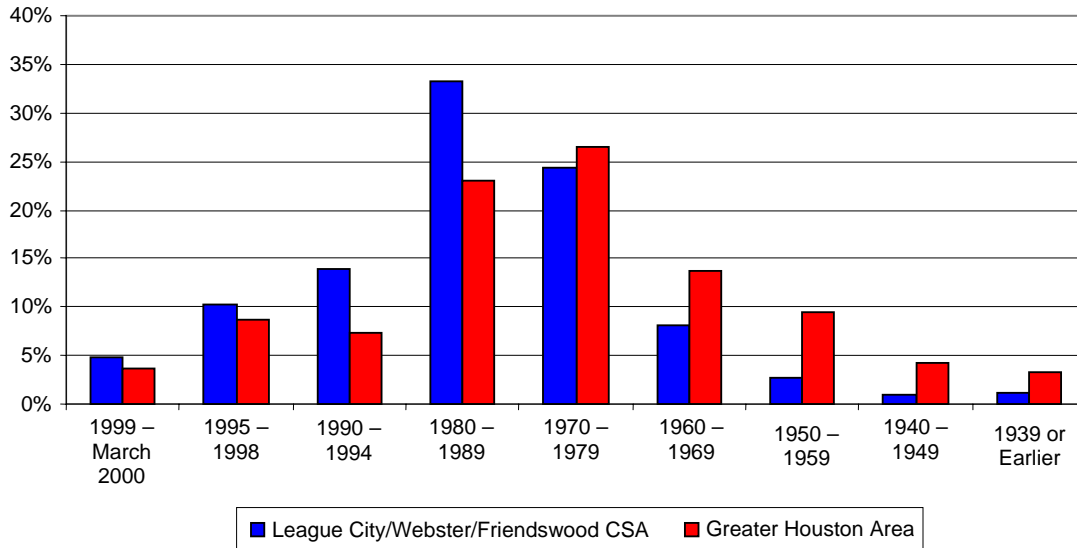

**Total Housing Units**  
**League City/Webster/Friendswood CSA and Greater Houston Area**

- In the League City/Webster/Friendswood CSA, 61.6% of households are owner-occupied, compared to 55.6% in the Greater Houston Area.
- There is a higher percentage of renter-occupied units in the Greater Houston Area than in the League City/Webster/Friendswood CSA (37.4% vs. 31.9%).
- In both the League City/Webster/Friendswood CSA and the Greater Houston Area, a household is more likely to be occupied by the owner than by a renter.

**Units by Year Built**  
**League City/Webster/Friendswood CSA and Greater Houston Area**

- In the League City/Webster/Friendswood CSA, a higher percentage of the housing units were built in the 1980s or later, compared to the Greater Houston Area (62.3% vs. 42.9%).
- In the League City/Webster/Friendswood CSA, 29.1% of the housing units were built since 1990, compared with 19.8% in the Greater Houston Area.
- 33.2% of the housing units in the League City/Webster/Friendswood CSA were built in the 1980s, compared with 23.1% in the Greater Houston Area.
- Housing units built during the 1970s represent 24.4% in the League City/Webster/Friendswood CSA, while they represent only 26.5% in the Greater Houston Area.
- In the League City/Webster/Friendswood CSA, only 13.1% of the housing units were built during the 1960s or earlier, compared to 30.6% in the Greater Houston Area.

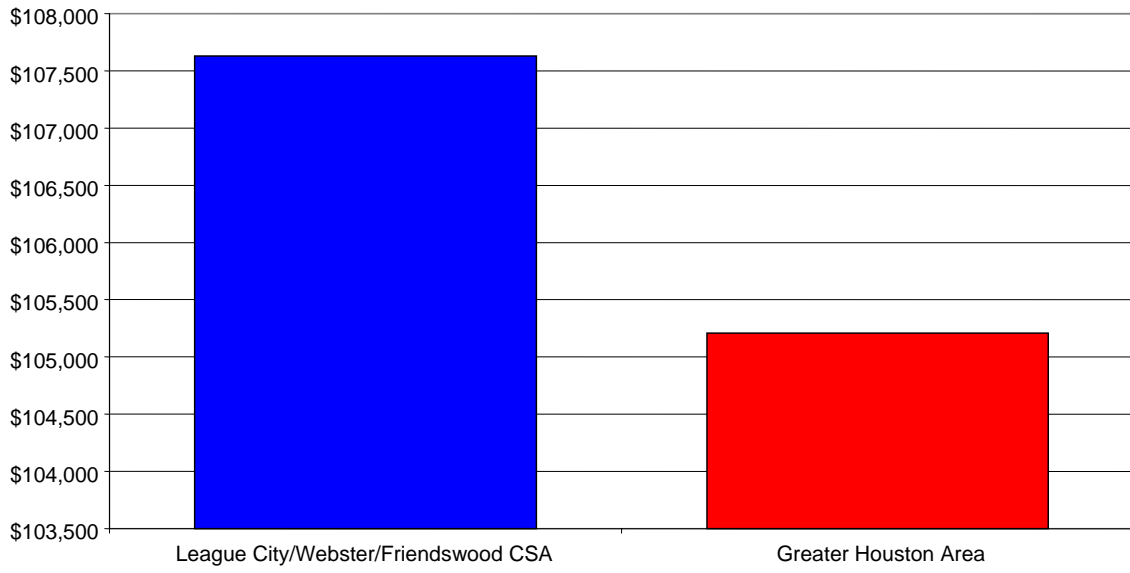

**Housing Units by Type**  
**League City/Webster/Friendswood CSA and Greater Houston Area**

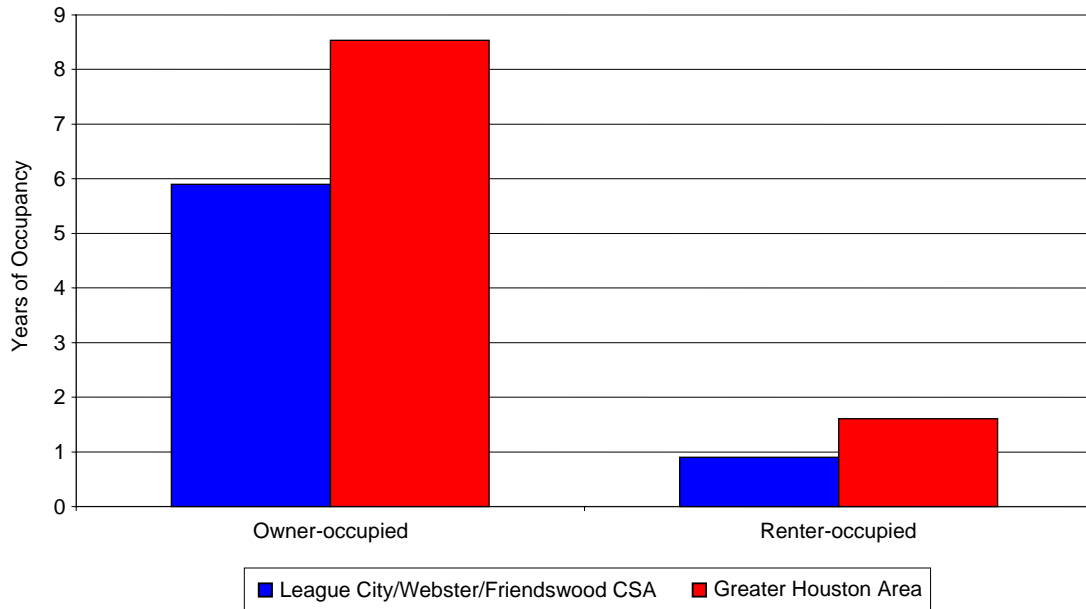

- Detached single housing units comprise a larger percentage in the League City/Webster/Friendswood CSA, compared to the Greater Houston Area (65.4% vs. 59.1%).
- The percentage of 50+ units in the Greater Houston Area is higher than in the League City/Webster/Friendswood CSA (14.3% vs. 9.6%).
- Detached single housing units and dwellings with 50+ units represent 75.0% of the households in the League City/Webster/Friendswood CSA.

**Median Home Value  
League City/Webster/Friendswood CSA and Greater Houston Area**

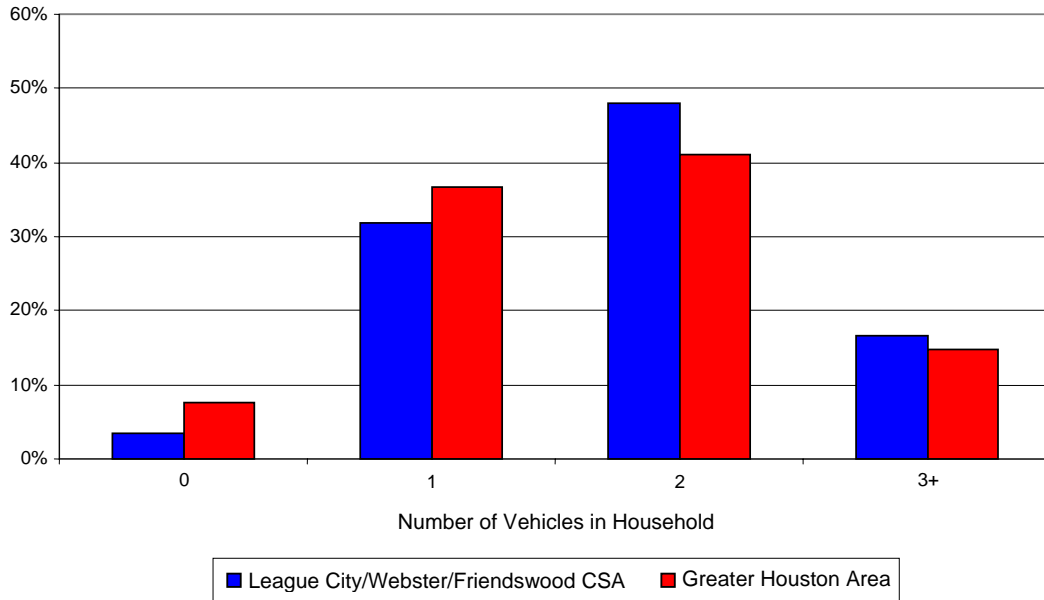

**Median Length of Occupancy  
League City/Webster/Friendswood CSA and Greater Houston Area**

- The median length of occupancy in both the Greater Houston Area and the League City/Webster/Friendswood CSA is longer for owner-occupied units than those occupied by a renter.
- The Greater Houston Area has a longer median length of occupancy in owner-occupied dwellings, than those of the League City/Webster/Friendswood CSA (8.5 years vs. 5.9 years).
- In the League City/Webster/Friendswood CSA, the median length of occupancy for owner-occupied households is over 6 times that of renter-occupied households (5.9 years vs. 0.9 years).

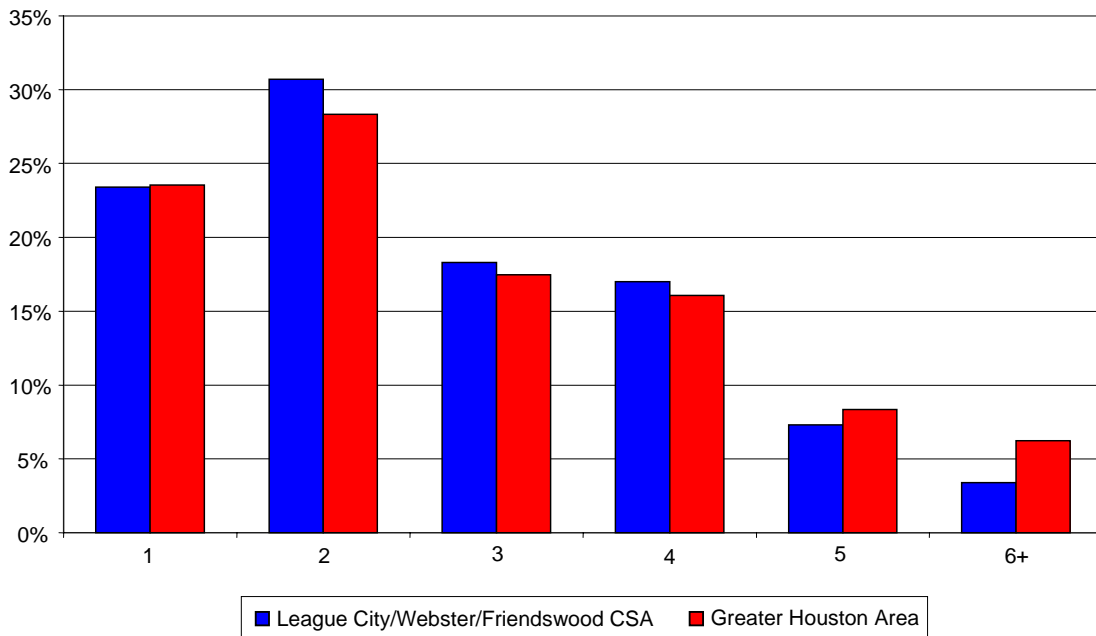

**Households by Count of Vehicles Available  
League City/Webster/Friendswood CSA and Greater Houston Area**

- A larger percentage of the Greater Houston Area’s households have no vehicles, than those in the League City/Webster/Friendswood CSA (7.7% vs. 3.4%).
- Households with one vehicle comprise a higher percentage in the Greater Houston Area than in the League City/Webster/Friendswood CSA (36.6% vs. 31.9%).
- There is a higher percentage of households with two vehicles in the League City/ Webster/Friendswood CSA than in the Greater Houston Area (48.1% vs. 41.0%).
- Households with 3 or more vehicles comprise 16.6% in the League City/ Webster/Friendswood CSA, compared to 14.8% in the Greater Houston Area.

**Households by Count of Persons**  
**League City/Webster/Friendswood CSA and Greater Houston Area**

- The percentage of households consisting of one person, does not differ significantly between the Greater Houston Area and the League City/Webster/Friendswood CSA (23.5% vs. 23.4%).
- A slightly higher percentage of households in the League City/Webster/Friendswood CSA are occupied by two persons, than in the Greater Houston Area (30.7% vs. 28.3%).
- Households consisting of three persons comprise a higher percentage in the League City/Webster/Friendswood CSA compared to the Greater Houston Area (18.3% vs. 17.5%).

# Houston Profile Project League City/Webster/Friendswood Area (CSA #23)

## CSA Rankings

### By Key Lifestyle and Religion Questions

In this section we rank order the 45 CSAs by key religious and lifestyle questions. We use a form of hierarchical modeling in which individual responses to the lifestyle and religion questions in the HPP Poll are estimated with key socio-demographic measures from each CSA. These measures include age structure, race and ethnic composition, household structure, education, income, and housing values. The analysis produces an estimated average response to each question for each of the 45 CSAs. We subsequently rank the 45 CSAs based on these responses, and provide tables of these rankings in this section of the report. Please note that the measures reported here are those for which the hierarchal analysis proved useful. For some measures, the models did not perform well enough to allow us to report rankings with an acceptable level of confidence.

## **Percent Who Receive A Great Deal Of Satisfaction From Their Family League City/Webster/Friendswood CSA**

- The League City/Webster/Friendswood CSA ranks thirteenth of all CSAs in the Greater Houston Area on family satisfaction.
- 80.16% of adults living in the League City/Webster/Friendswood CSA receive a great deal of satisfaction from their families.
- Family satisfaction in the League City/Webster/Friendswood CSA is only slightly higher than the Greater Houston Area.
- For the Greater Houston Area, 79% report receiving a great deal of satisfaction from their families.
- There are an estimated 85,639 adults living in the League City/Webster/Friendswood CSA.
- In the League City/Webster/Friendswood CSA, over 68,600 adults receive a great deal of satisfaction from their families.
- However, that means almost 17,000 adults in the League City/Webster/Friendswood CSA do not receive a great deal of satisfaction from their families.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory family relationships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches may have an opportunity to make connections with those who do not receive a great deal of satisfaction with family life.

## **Percent Who Report Successfully Balancing Work and Family League City/Webster/Friendswood CSA**

- The League City/Webster/Friendswood CSA ranks in the lower half of all CSAs in the Greater Houston Area on success at balancing work and family.
- 27.83% of adults living in the League City/Webster/Friendswood CSA report being successful at balancing the dual demands of work and family.
- Compared with the League City/Webster/Friendswood CSA, the Greater Houston Area's percentage is higher.
- For the Greater Houston Area, 34% reported being successful at balancing the dual demands of work and family.
- There are an estimated 85,639 adults living in the League City/Webster/Friendswood CSA.
- In the League City/Webster/Friendswood CSA an estimated 23,800 adults report being successful at balancing work and family lives.
- This means, however, that over 61,800 adults, or a majority of adults in the League City/Webster/Friendswood CSA, are not as successful at balancing work and family lives.
- This is important for church missions because research shows that the strains of balancing work and family life are among the leading causes of family dissolution (Kendall 2004).
- Working in the League City/Webster/Friendswood CSA neighborhoods to help families be more successful at managing the dual demands of family and work life is a potential community ministry program.

## **Percent Who Are Generally Happy With Their Lives League City/Webster/Friendswood CSA**

- The League City/Webster/Friendswood CSA ranks tenth of all CSAs in the Greater Houston Area on overall happiness.
- 50.48% of adults living in the League City/Webster/Friendswood CSA report being generally happy with their lives.
- This number is slightly higher than that of the Greater Houston Area.
- For the Greater Houston Area, 48% report being happy.
- There are an estimated 85,639 adults living in the League City/Webster/Friendswood CSA.
- In the League City/Webster/Friendswood CSA an estimated 43,200 adults report being happy.
- This means, however, that an estimated 42,400 adults are not very happy.
- As with satisfaction with family and friends, those who are not happy may be more amenable to new relationships. This is important for church outreach missions because research by Stark (2000) shows that people who are not happy are open to ministry.

## Key Leader Interviews

In this section, the results from individual, face-to-face interviews with key leaders in the CSA community are presented. The interviews were conducted by HPP volunteers using a standardized questionnaire developed by CCRD. Various key positions within the community were identified and the individual leaders that filled that particular position were contacted. If the key leader agreed to an interview, the results are included, maintaining confidentiality. The various responses are listed by question and categorized by topic. The key leader positions included elected community leaders, managers of large employers in the area, principals of local schools, civic organization leaders, labor union leaders, local Chamber of Commerce representatives, editors of neighborhood newspapers, directors of minority interest group, law enforcement officers, and leaders of major places of worship.

Center for Community Research and Development  
Community Poll 98

**Key Leader Interviews**  
**CSA #23 – League City/Webster/Friendswood Area**

**What are the best things about the League City/Webster/Friendswood CSA?**

The People

- People – which help create a better quality of life.
- Growth of the area – Different array of people.
- The area residents are closely knit together, involved with schools.
- Friendswood area residents are willing as volunteers.
- A strong sense of community in Friendswood area – collectively rather than individually.
- Sense of caring.
- Diversity- Kids interact with each other – will help kids to be more successful in future.

Religious Community

- Religious community – there are many churches in the area.
- Resurgence of young families – We see an increase in the number of young families going to churches.
- God centered; there are 17 churches in the Friendswood area.
- There is a healthy growth in churches and many expansion programs are going on. There is an increase in the number of people attending churches.
- Growing interdenominational cooperation – combined worship services.
- Several ongoing programs in the churches of the Friendswood Area.
- A sense of unity among different denominations.
- Community Youth Programs.

Education

- Educational facilities – one of the best in 10 state area, colleges, etc.
- The area residents are highly educated.
- There is partnership between the police department and the School District and also between the police community and other Friendswood local communities at all levels.
- Parental Involvement.

Natural Resources

- Natural Amenities – diversified economy, marine, tourism.

## **What are the major problems facing the area?**

### The Youth

- Kids at risk.
- Youth unrest - not interested in Christian values.
- Young people are distracted. There is a lack of respect among youth for the old. They are interested in worldly pursuits.
- Drug and alcohol use is prevalent among youth; teenage sex is on the rise.
- Problems with the youth – drug abuse in High School.
- Teenage Pregnancy, promiscuity, drug abuse among youth.
- Too big – Too many kids want to come here, even those who are not in the district.

### Lack of Parental Involvement

- Parents are not engaging their children as they need to.
- Communication with Parents – Students do not always give them information.
- Both parents working.

### Time Constraints

- Many people are busy with their careers; they are more interested in their own personal agenda.
- Time constraint of the people in the area – not able to make commitments to church or God.

### No Interest in the Needs of Others

- People tend to seek more entertainment than true worship.
- Many people are affluent and they do not recognize the need of others.
- Not reaching out.
- Certain sectors of people feel that they do not belong to the community as a whole.
- Christians have a false sense of security.

### Battered Women

- Battered women.

### Taxes

- Several challenges facing Friendswood residents such as drainage and Taxes.

## **Do the local places of worship play any roles in the three best things?**

### Churches Unite People

- Yes, because of the people. They participate in all of the areas.
- Religious communities come together.
- There are no road blocks by religion or churches.
- All denominations unite together.
- Churches are promoting interdenominational activities – for example community breakfasts.
- During a crisis such as a hurricane the churches in the Friendswood area cooperate with the City.
- Leaders of churches organize and raise funds for the community when needed.
- Churches work together with unity breaking denominational barriers.

### Serving the Youth

- Churches in the Friendswood area are attracting more and more young people.
- One church opens up their parking lot for youth activities, provide alternatives for the youth.
- Youth pastors participate in lunch.
- Youth Alive – Bible study.

### Stabilizing Force

- Churches function as a stabilizing force.
- The police department works with chaplains.
- There is cooperation between the churches and the police department in providing programs.
- Churches pray together for specific needs – for example prayer for military people.
- Interaction with the Police – Appreciation dinner for police officers.

## **Are there other contributions that places of worship are making to the area?**

- Operate food bank.
- Supportive to business communities in the area.
- Churches lend their facilities for various programs.
- Churches promote youth groups – alternative types of recreation.
- Churches endorse the basis of faith, service and education recognized by the Quakers when they established the Friendswood community. The faith basis is an integral part of the heritage of the Friendswood Community.
- Churches promote youth groups – alternative types of recreation.
- A local church provides skate board activities and basketball venue.
- Not aware of any other contributions.
- Kids doing things on Wednesday nights.
- Free counseling for the needy.
- Provide Medical assistance in some cases.
- Reaching out to the needy - blood drive.

**Can you think of any ways local places of worship help with addressing these problems?**

- Food bank.
- One church is helpful.
- Church activities should be geared toward youth.
- Should provide more programs in the Christian atmosphere.
- Churches should reach out to youth – come as you are.
- Churches could help with the problem of drugs and alcohol abuse by teaching and Christian counseling.
- Churches should offer alternate worship styles to attract youth.
- Development of good quality programs to occupy the leisure time of youth and stop distraction.
- Churches could help by offering facilities.
- Church membership demonstrates Christian way of dealing with the problems.
- Modeling – How to disagree in a Christian way?
- Reaching out - addressing the needs of the people.
- Specific programs such as parenting classes.
- Churches should go to different communities and organize programs for youth.
- Communication with the PTA.
- School PTA meetings.
- New Schools.
- Youth Pastors are doing Bible studies at schools.
- Crisis Pregnancy Center in Friendswood.
- Several churches are providing food for the needy.

**Can you think of other organizations and programs that are helping address these problems?**

- Turning Point--- help with battered women.
- Children at risk.
- Communities in Schools- dropouts.
- United Way.
- School and City Government should address the problems.
- Chamber of Commerce is providing programs for youth.
- Superintendent of high school is taking measures to reduce the problem of alcohol and drug abuse.
- Young Life is a non-profit Christian based program aimed at teaching young people.
- Private Christians and Boy Scouts also address the problems.
- City Government is working with churches.
- Home Owners Associations are becoming key to problem resolution.
- School District – Co-sponsorship of programs.
- City Government – providing facilities, webpage.
- County – providing partnership in community programs.
- We have Teen Leadership Classes that have speakers from Bay Area Council, Friendswood Police.
- Career Investigation Day with guest Speakers.
- Police department is very helpful in dealing with drug abuse.

**Can you think of any ways that local places of worship contribute, even unwittingly, to making these problems worse?**

- No, only could think of areas that churches had helped.
- If the Youth Ministries do not address a problem on a regular basis they are not helping; they are contributing to the problem.
- Churches should teach both sides of the Gospel - should not lead to false sense of security.

**Can you think of any suggestions or potential programs, not already in place, that would help solve the problems within the League City/Webster/Friendswood CSA?**

- No. All goes back to the people.
- Church organizations should devise programs to reach the unchurched.
- Churches ought to be more aggressive in reaching out to the community.
- Providing better communication.
- Addressing the problems very early.
- Provide opportunity for engagement.
- Church and local organizations should take care of the needs of the community.
- Programs such as Parenting Classes, Mothers Day out and Youth activities could be organized by churches.
- Church programs should be focused on reaching out to people who feel unwanted.
- A Christian Drug Rehab facility for young children – The available facilities are very expensive and young people cannot afford.

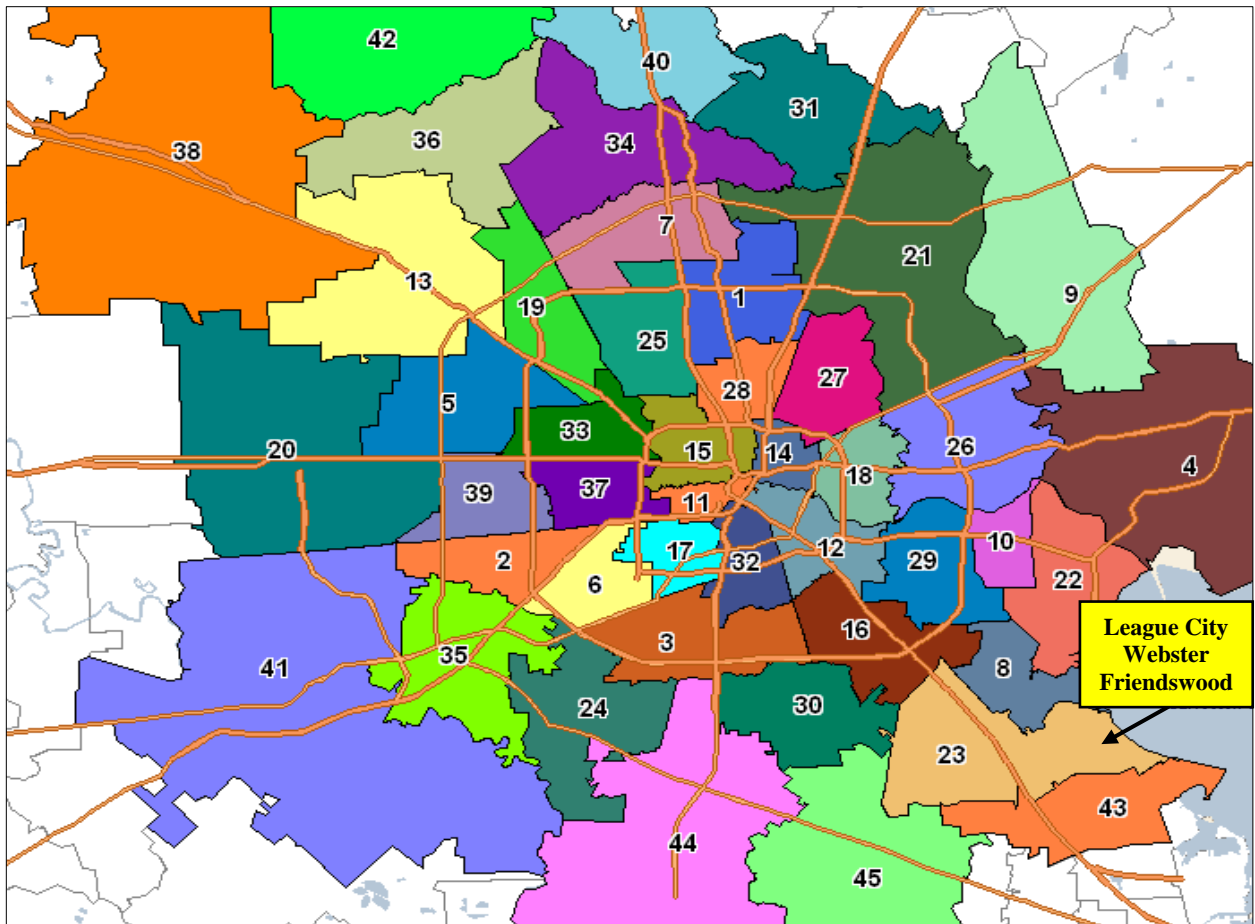

**Finally, is there anything else about the area that you think is especially important, that we really need to know about, that we ought to work on, or that we should include in this report?**

- Churches and other organizations should work together in unity. Unity is very important.
- We should continue to urge interdenominational cooperation in addressing the problems and emphasizing unity. Also, we should de-emphasize our traditional differences.
- Life is full of ups and downs, or peaks and valleys. We should always stay engaged, become members in churches and take ownership of others.
- Both church and unchurched people are always moving into the area. Effective programs should be arranged to reach out to them.
- Growth - Churches and Schools.
- Involvement with youth.
- After school programs needed.
- Friendswood Area has a great City Council and Police Department and good Christian schools.
- We should address troubled teens, drug abuse and promiscuity.
