# ***BACKGROUND OF THE BAYLOR CENTER FOR COMMUNITY RESEARCH AND DEVELOPMENT***

## ***Mission***

The Center for Community Research and Development (CCRD) was established at Baylor University in 1979 as a multidisciplinary entity with a mission of **engaging Baylor faculty and students in applied social research to improve the local quality of life**. Over time, the CCRD has broadened its focus, sometimes engaging in statewide or national research, and the CCRD has become closely linked with Baylor's Ph.D. program in Applied Sociology, where Ph.D. students serve as center research analysts. Still, our research remains multidisciplinary and many of the CCRD's projects retain a local quality of life focus.

## ***Facilities***

The CCRD originally worked out of faculty offices in Sociology and Political Science and moved into its own facilities in 1990, when the operations center was located in the basement of the Sid Richardson Science Building. The CCRD moved to Suite 300 of the Robinson Tower in 1994. These modern facilities allow easier access to the community and include:

- offices for Center directors, six doctoral students, research analysts, and a project coordinator,
- focus group facilities with a separate observation room and recording equipment,
- a conference room for meetings and graduate seminars,
- report production facilities for CCRD documents,
- a local area network with Windows operating systems, and
- a Computer Assisted Telephone Interviewing (CATI) system.

## ***Services***

The Center for Community Research and Development is equipped to undertake a wide variety of projects for organizations, businesses, industries, and governmental agencies. Services include:

- Mail Surveys
- Telephone Surveys
- Questionnaire design
- Needs assessments
- Program planning and evaluation
- Impact assessments
- Population trend studies and projections
- Data collection and analysis
- Sampling designs
- Focus groups
- Seminars and workshops on community issues
- Mock Juries and Jury Consulting

### *Society for Applied Sociology*

From 1998 through 2001, the CCRD served as the administrative office for the Society for Applied Sociology, an international organization for professionals involved in applying sociological knowledge in a wide variety of settings. The CCRD retains an active membership in SAS and Dr. Tillman Rodabough is the President. The mission statement for SAS is to:

- Provide a forum for sociologists and others interested in applying sociological knowledge.
- Enhance understanding of the interrelationship between sociological knowledge and sociological practice.
- Increase the usefulness and effectiveness of applied sociological research and training.

### *Selected Previous Clients*

The CCRD has served a varied clientele on a large number of issues. Representative projects include:

- **Telephone surveys** for the City of Waco, Southwestern Bell, the *Waco Tribune-Herald*, Houston Profile Project
- **Site location research** for the Perryman Group, American Airlines
- **Needs assessments** for the Baptist General Convention of Texas, the United Way, HOTCOG
- **Population projections** for the Heart of Texas Council of Governments, Heritage House
- **Focus groups** for Creative Education Institute, Baylor University, EEOC, City of Waco, the United Way
- **Mail-out surveys** for Hillcrest Baptist Medical Center, the City of Woodway, Baptist General Convention of Texas
- **Intercept surveys** for Richland Mall, the Texas Ranger Museum, the Dr. Pepper Museum
- **Mock juries** and **change of venue** research for Amarillo, Dallas and Waco law firms
- **Program assessments** for the McLennan County Youth Collaboration, Waco Police Department
- **Door-to-door surveys** for the Waco Housing Authority, Mission Waco, Drug Prevention Resources
- **Voter exit interviews** for the Dallas Independent School District
- **Institutional evaluation** for San Marcos Baptist Academy, the BGCT Education Commission. Baptists in Scouting, Baylor University, Waco Independent School District
- **Program development** for the Cooper Foundation, the Junior League, MHMR

### *Fees*

The CCRD is a non-profit service center for the community and University. Fees charged for research projects represent actual costs for services and enable the CCRD to be self-supporting.

## *Staff*

- **Dr. Larry Lyon** is Director of the CCRD, Dean of the Graduate School, and Professor of Sociology in the Department of Sociology and Anthropology (Larry\_Lyon@Baylor.edu).
- **Dr. Tillman Rodabough** is Research Director for the CCRD and Professor of Social Psychology in the Department of Sociology (Tillman\_Rodabough@Baylor.edu).
- **Mrs. Debbie Marable** is the Projects Coordinator for the CCRD, Graduate Program Assistant for Sociology and a graduate of Baylor University (Debbie\_Marable@Baylor.edu).
- **Dr. Carson Mencken** is Associate Professor of Sociology and Graduate Program Director for Sociology, with research expertise in statistical analysis and spatial modeling and serves as a research professor for CCRD (Carson\_Mencken@Baylor.edu).
- **Dr. Robyn Bateman Driskell** is Associate Professor of Sociology with expertise in demography and serves as a research professor for the CCRD (Robyn\_Bateman@Baylor.edu).
- **Dr. Charles Tolbert, II** is Professor and Chair, Department of Sociology and Anthropology and GIS and census data consultant for CCRD (Charlie\_Tolbert@Baylor.edu).
- **Lacey C. Wiggins, M.A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Lacey\_Chapman@Baylor.edu).
- **Rusty Parker, M. A.** is a Senior CCRD Research Analyst and a doctoral student in the Baylor Applied Sociology Program (Rusty\_Parker@Baylor.edu).
- **Jodien Matos** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jodien\_Matos@Baylor.edu).
- **Kathy Krey** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Kathy\_Krey@Baylor.edu).
- **Jeniece Williams** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program (Jeniece\_Williams@Baylor.edu).
- **Elizabeth Terrazas-Carrillo** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program ([Elizabeth\\_Terrazas-Carrillo @Baylor.edu](mailto:Elizabeth_Terrazas-Carrillo@Baylor.edu)).
- **Liz Embry** is a CCRD Research Analyst and a master's student in the Baylor Applied Sociology Program ([Elizabeth\\_Ninneman@Baylor.edu](mailto:Elizabeth_Ninneman@Baylor.edu)).

*Each staff person can also be contacted at the CCRD office (254) 710-3811 or e-mailed at CCRD@Baylor.edu. Our website address is <http://www.Baylor.edu/CCRD>*

## **Background of the Poll**

*Center for Community Research and Development*  
Poll 98  
(September 2004)

In the fall of 2003, the Center for Community Research and Development (CCRD) conducted a scientific poll to assess religious and lifestyle practices and beliefs in 45 communities in the Greater Houston Area. Questions for the poll were developed by CCRD researchers using national polls on lifestyles and religion as a guideline.

From October 1 through November 15, a total of 2,419 Greater Houston Area residents were interviewed using a Computer Assisted Telephone Interviewing (CATI) system. The CATI technology allows control over the interviewing process and automates data entry. The sample was selected from a computer-generated set of random phone numbers. Random generation includes residents with unlisted numbers. Other steps taken to ensure the quality of the poll include: (1) testing and editing experimental versions of the questionnaire to increase the clarity and reliability of each question; (2) intensive training for each interviewer; (3) continual monitoring of interviews by social science Ph.D.s; (4) daily review of work and interviewing procedures and results by the CCRD staff; (5) calling during times established in previous studies to provide the most representative sample; (6) making up to five call-backs for each phone number to avoid distorting the sample toward the more easily accessible residents; (7) using special “screens” to increase the number of male and minority respondents; (8) purchasing a special bank of phone lines with “Community Research” as the caller identification label rather than the standard label, “Baylor University;” and (9) employing Spanish speaking interviewers for households where Spanish is the primary language.

The demographic characteristics of the sample resemble those of demographics available through external sources. While the sample is largely representative of the population, minority ethnic groups were slightly under-represented among respondents in the poll. To compensate, this analysis uses weighted data to ensure a more representative sample. The final sample is comparable to official data available on the 45 communities in the Greater Houston Area’s 3,097,362 adults. For example, the sample used in the analysis is approximately 58% “Anglo,” 20% Hispanic, and 17% African-American.<sup>[1]</sup> The percentages for African Americans and Anglos closely reflect recent Census estimate population numbers for the 45 communities in the Greater Houston Area.<sup>[2]</sup> Other population numbers/sample comparisons suggest similarly low levels of bias.

For the overall response distributions of the questionnaire data, the responses will typically vary by less than 3 percentage points in either direction at the 95% confidence level. For cross-tabulation tables that analyze smaller portions of the sample by dividing it into various categories such as race or education, the percentage of variation will be considerably higher.

<sup>[1]</sup> Throughout this report, the terms “White” and “Anglo” refer to non-Hispanic whites. “African-American” and “Black” are used interchangeably.

<sup>[2]</sup> 2002 Census estimates show a total adult population of 3,097,362 for the 45 communities in the Greater Houston Area. Of the approximately 3,097,362 adults: about 45.0% are Anglo, 17.5% African American, 30.2% Hispanic, 0.4% American Indian, 5.4% Asian/Pacific Islander and 1.4% are Multi-Racial.

## **Executive Summary**

*Center for Community Research and Development*  
**Waller/Hockley Area (CSA #38)**

- The racial/ethnic composition of the Waller/Hockley CSA is predominantly Anglo and somewhat different from that of the Greater Houston Area.
- There is a higher percentage of people over the age of 25 with only a high school diploma or less, in the Waller/Hockley CSA, than in the Greater Houston Area (54.8% vs. 44.8%).
- In the Waller/Hockley CSA, there is a higher percentage of households without children, than in the Greater Houston Area (45.2% vs. 39.9%).
- In all categories, income levels in the Waller/Hockley CSA are lower than in the Greater Houston Area.
- 47.95% of adults living in the Waller/Hockley CSA receive a great deal of satisfaction from their neighborhood.
- The Waller/Hockley CSA ranks seventh from the bottom of all CSAs on percent who receive a great deal of satisfaction from their families.
- The Waller/Hockley CSA ranks just below the middle of all CSAs on receiving a great deal of satisfaction from their friends.
- The Waller/Hockley CSA ranks fifth from the bottom of all CSAs on percent who report being able to successfully balance work and family.
- The Waller/Hockley CSA ranks in the bottom third of all CSAs on overall happiness.
- The Waller/Hockley CSA, ranks fifth from the bottom of all CSAs on percent who attend church at least once a week (23.63%).
- 19.04% of adults living in the Waller/Hockley CSA never attend church.
- The Waller/Hockley CSA ranks seventh from the bottom of all CSAs in the Greater Houston Area on percent who consider themselves born again.
- 65.73% of adults in the Waller/Hockley CSA report they are likely to read the Bible when they have problems.
- More people in Waller/Hockley CSA report that they would pray when they have problems (80.71%) than would read the Bible (65.73%) or seek help from a religious counselor (43.04%) or place of worship (29.34%).

Waller/Hockley Area  
CSA #38**

Demographics

Center for Community Research and Development  
Community Poll 98

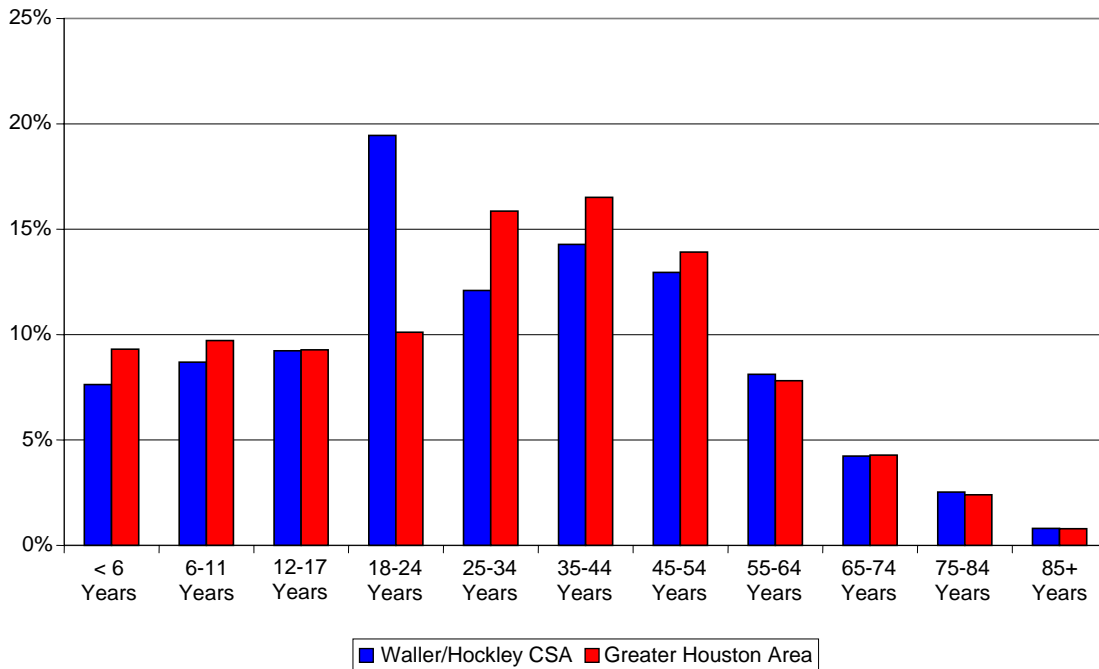

**Race/Ethnicity**  
**Waller/Hockley CSA and Greater Houston Area**

- The racial/ethnic composition of the Waller/Hockley CSA is somewhat different from the Greater Houston Area.
- The proportion of Anglos in the Waller/Hockley CSA is higher than that of the Greater Houston Area (58.6% vs. 45.0%).
- Hispanics account for only 15.1% of the population of the Waller/Hockley CSA, compared to 30.2% in the Greater Houston Area.
- In the Waller/Hockley CSA, Blacks comprise 24.5% of the population, compared to 17.5% in the Greater Houston Area.
- Asians/Pacific Islanders make up 5.4% of the population in the Greater Houston Area, but only 0.5% in the Waller/Hockley CSA.
- Anglos and Blacks comprise 83.1% of the population of the Waller/Hockley CSA.

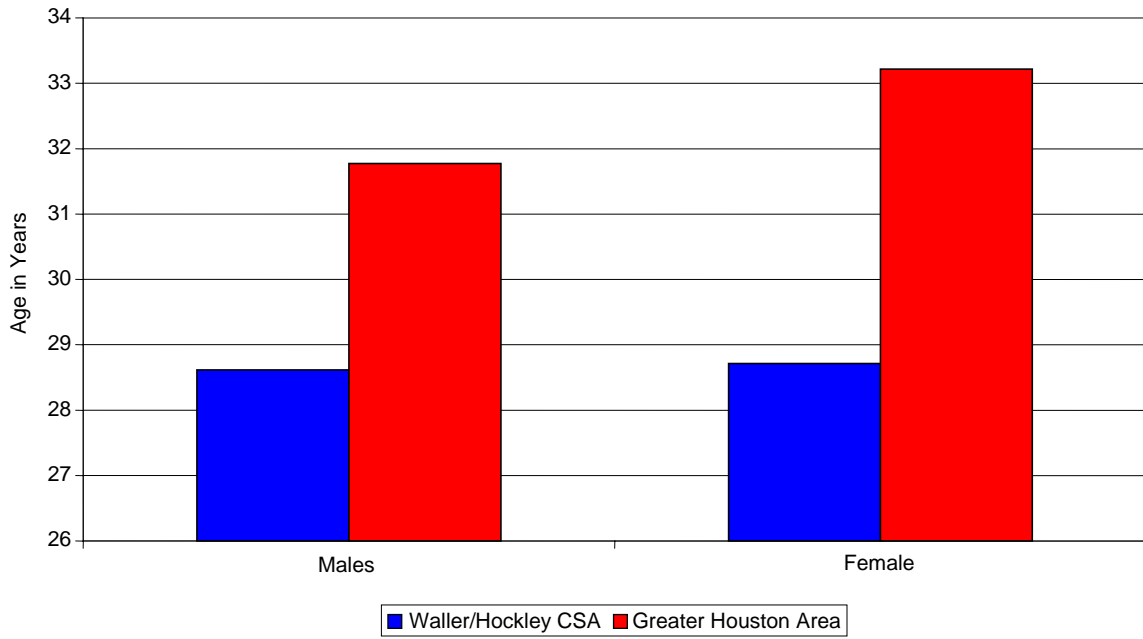

**Population by Age  
Waller/Hockley CSA and Greater Houston Area**

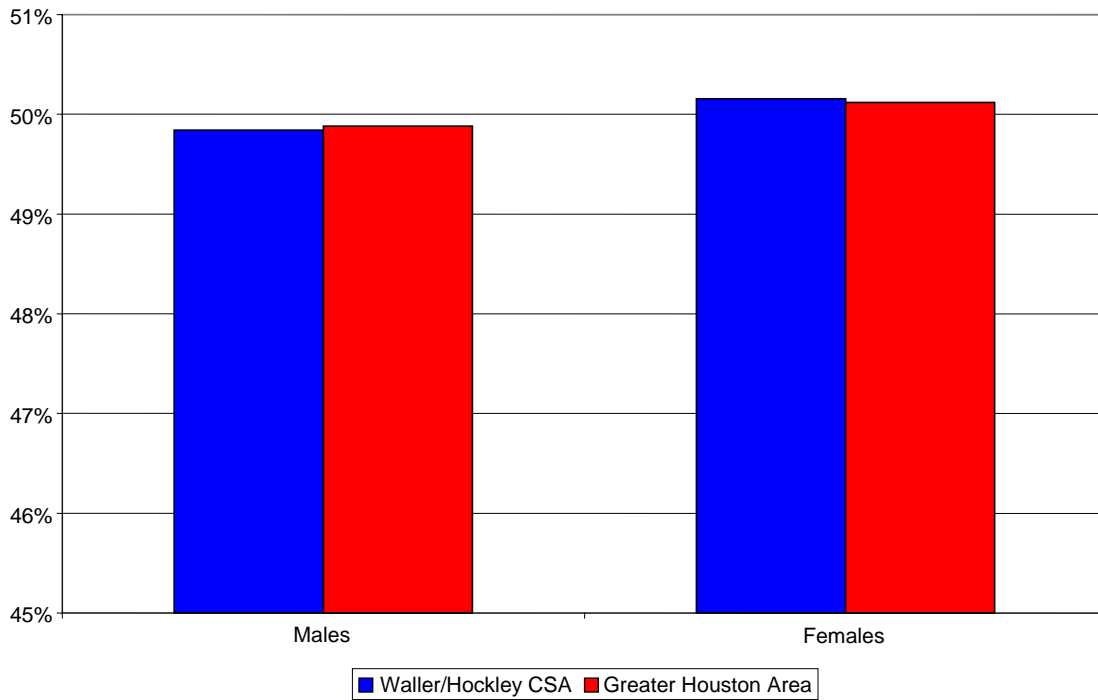

- There are a number of differences between the Greater Houston Area and the Waller/Hockley CSA in terms of age.
- A quarter of the people living in the Waller/Hockley CSA are under the age of 18 (25.5%).
- Most of the people living in the Waller/Hockley CSA, are in the 18 to 24 years of age bracket (19.5%).
- The percentage of people age 18 to 24 in the Waller/Hockley CSA, is almost twice the percentage in the Greater Houston Area (19.5% vs. 10.1%).
- There is the same percentage of people over the age of 65 in the Waller/Hockley CSA as there is in the Greater Houston Area (7.5%).

**Median Age by Gender  
Waller/Hockley CSA and Greater Houston Area**

**Population by Gender  
Waller/Hockley CSA and Greater Houston Area**

- There are several differences in age and gender composition between the Greater Houston Area and the Waller/Hockley CSA.
- Males comprise 49.8% in the Waller/Hockley CSA, compared to a similar 49.9% in the Greater Houston Area.
- In the Waller/Hockley CSA, females comprise 50.2% of the population, compared to 50.1% in the Greater Houston Area.
- The median age for males is 28.6 years in the Waller/Hockley CSA, compared to 31.8 years in the Greater Houston Area.
- Females in the Greater Houston Area have a median age of 33.2 years, compared to 28.7 years in the Waller/Hockley CSA.
- In the Waller/Hockley CSA, females have almost the same median age as males (28.7 years vs. 28.6 years).

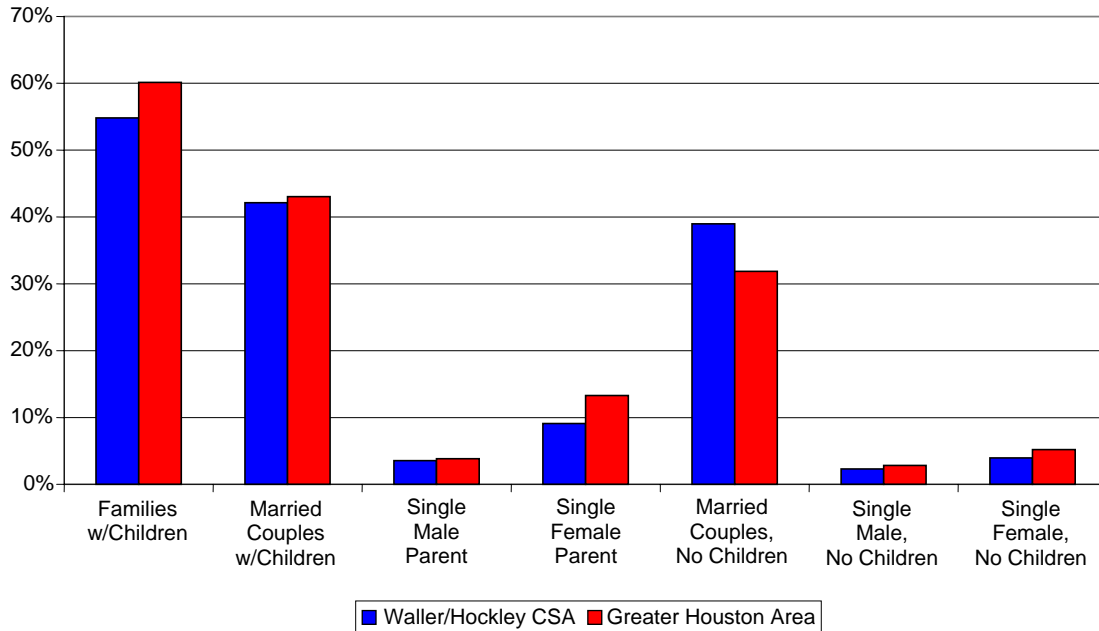

**Education Levels for Adults 25+  
Waller/Hockley CSA and Greater Houston**

- There are some differences in the educational attainment levels between the Waller/Hockley CSA and the Greater Houston Area.
- There is a lower percentage of adults over age 25, without a high school diploma in the Waller/Hockley CSA, than in the Greater Houston Area (19.3% vs. 22.8%).
- A much higher percentage of the over 25 population in the Waller/Hockley CSA have only a high school diploma, than in the Greater Houston Area (35.5% vs. 22.0%).
- A higher percentage of adults in the Waller/Hockley CSA have attended some college without receiving a degree, than in the Greater Houston Area (24.1% vs. 22.0%).
- There is a much higher percentage of adults in the Greater Houston Area with some form of college degree, than in the Waller/Hockley CSA (23.9% vs. 15.6%).
- 5.5% of the population of the Waller/Hockley CSA has graduate or professional degrees, compared to 9.3% in the Greater Houston Area.
- In the Waller/Hockley CSA, 54.8% of the population has only a high school education or less, compared to 44.8% in the Greater Houston Area.

**Family Households by Type  
Waller/Hockley CSA and Greater Houston Area**

- There are differences between the Waller/Hockley CSA and the Greater Houston Area in terms of types of households.
- There is a smaller percentage of families with children in the Waller/Hockley CSA than the Greater Houston (54.8% vs. 60.1%).
- In the Waller/Hockley CSA, there is a smaller percentage of households with single parents, both male and female, as the head of the household, than there are in the Greater Houston Area.
- There is a higher percentage of family households with no children in the Waller/Hockley CSA than in the Greater Houston Area (45.2% vs. 39.9%).

**Households by Income  
Waller/Hockley CSA and Greater Houston Area**

- 24.1% of the households in the Waller/Hockley CSA have incomes below \$25,000.
- A slightly higher percentage of households in the Waller/Hockley CSA have incomes less than \$25,000 than in the Greater Houston Area (24.1% vs. 23.4%).
- The Waller/Hockley CSA has almost the same percentage of households with an income of \$50,000 or higher as the Greater Houston Area (47.8% vs. 48.7%).
- There is a lower percentage of households with incomes higher than \$100,000 in the Waller/Hockley CSA than in the Greater Houston Area (15.1% vs. 18.0%).
- Most Waller/Hockley CSA households, have incomes between \$50,000 and \$74,999.

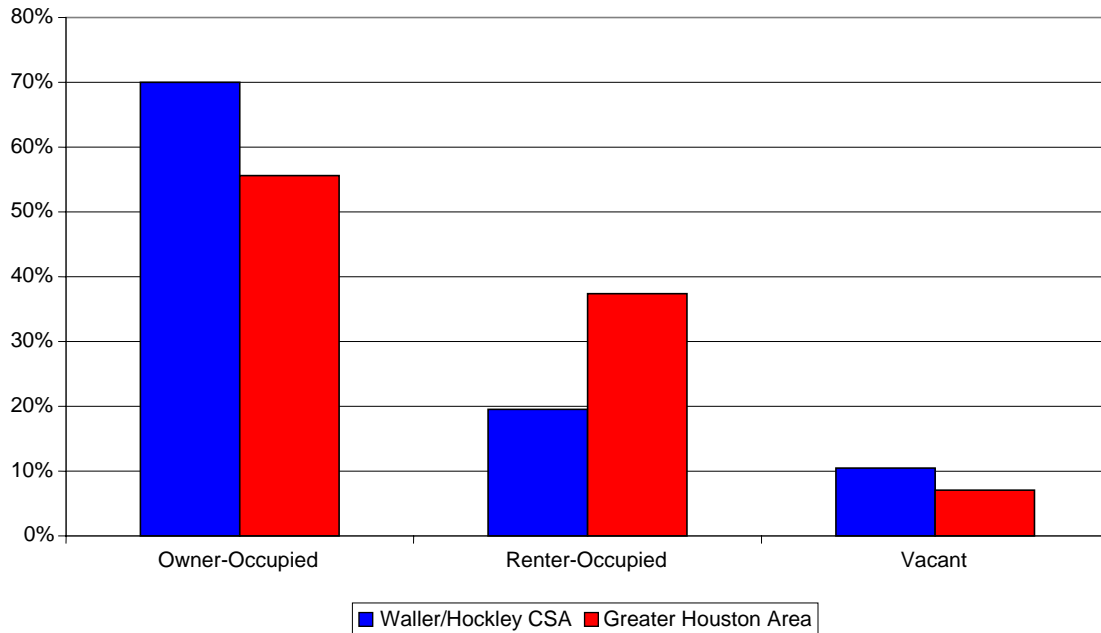

**Income Dynamics**  
**Waller/Hockley CSA and Greater Houston Area**

- In all categories, income levels in the Waller/Hockley CSA are lower than in the Greater Houston Area.
- The median household income of the Waller/Hockley CSA is lower than that of the Greater Houston Area (\$47,922 vs. \$52,462).
- The median family income of the Waller/Hockley CSA is lower than that of the Greater Houston Area (\$55,993 vs. \$61,391).
- The median non-family income of the Waller/Hockley CSA is also lower than that of the Greater Houston Area (\$25,880 vs. \$34,908).
- The total per capita income of the Waller/Hockley CSA is lower than that of the Greater Houston Area (\$18,562 vs. \$23,402).

**Total Housing Units  
Waller/Hockley CSA and Greater Houston Area**

- The percentage of housing units occupied by the owner is higher in the Waller/Hockley CSA than in the Greater Houston Area (70.0% vs. 55.6%).
- The percentage of housing units occupied by a renter is lower in the Waller/Hockley CSA than in the Greater Houston Area (19.6% vs. 37.4%).
- The percentage of housing units left vacant in the Waller/Hockley CSA is higher than in the Greater Houston Area (10.4% vs. 7.1%).

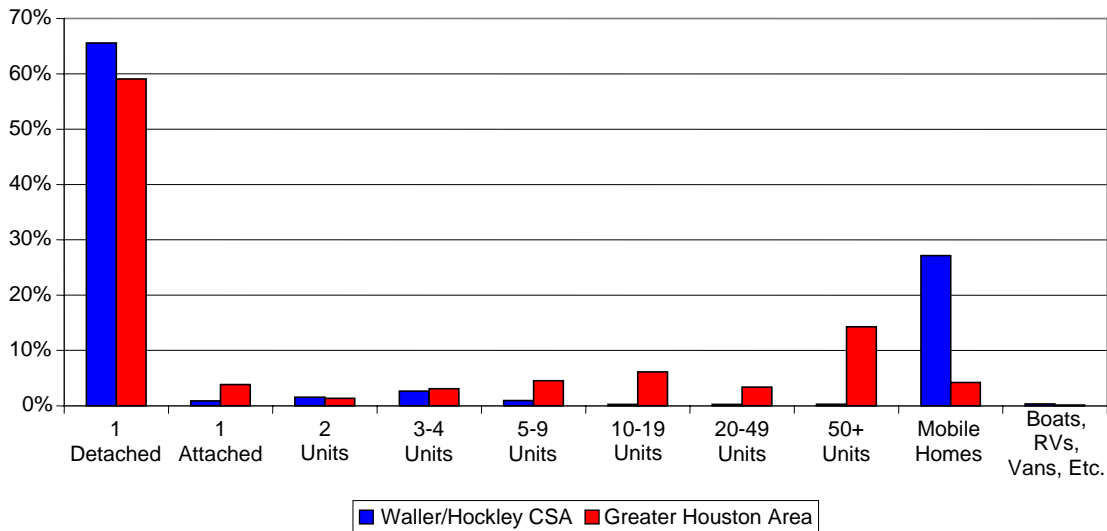

**Housing Units by Year Built**  
**Waller/Hockley CSA and Greater Houston Area**

- Overall, housing units in the Waller/Hockley CSA are newer than those in the Greater Houston Area.
- 5.4% of the housing units in the Waller/Hockley CSA have been built since 1999, compared to 3.7% in the Greater Houston Area.
- The Greater Houston Area gained only 19.8% of its housing units since 1990, compared to 36.2% in the Waller/Hockley CSA.
- About the same percentage of housing units were built in the 1980s in the Greater Houston Area and the Waller/Hockley CSA (23.1% vs. 23.4%).
- A lower percentage of housing units were built before 1970 in the Waller/Hockley CSA, than in the Greater Houston Area (22.8% vs. 30.6%).
- Most housing units in the Waller/Hockley CSA were built in the 1980s (23.4%).
- 59.6% of the housing units in the Waller/Hockley CSA were built after 1979.

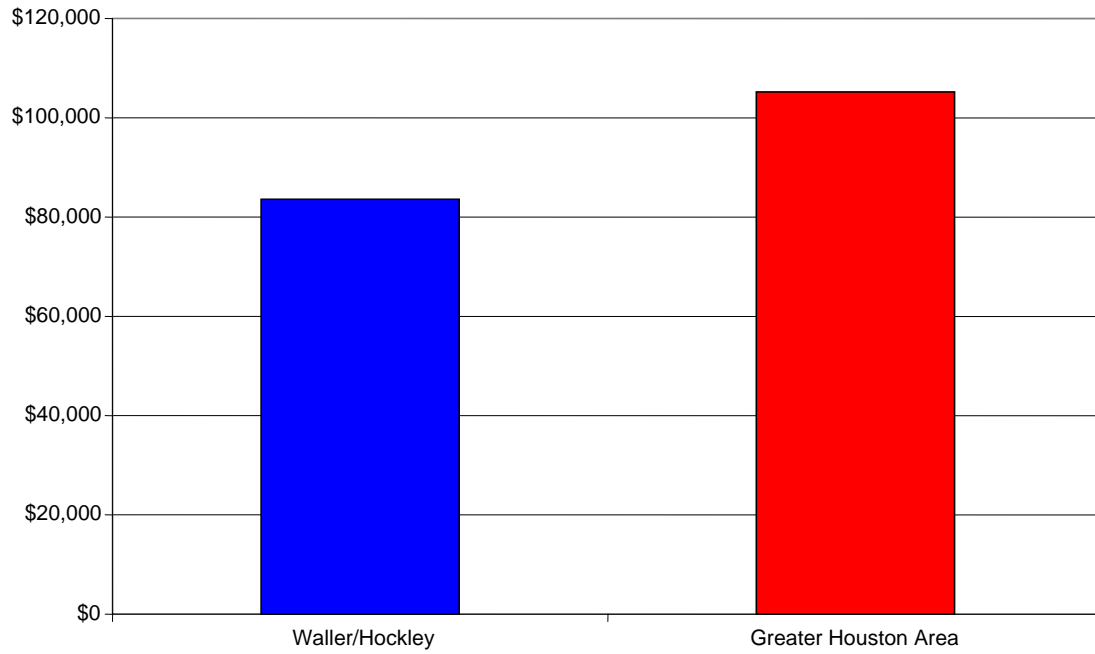

**Housing Units by Type  
Waller/Hockley CSA and Greater Houston Area**

- The percentage of detached single housing units in the Waller/Hockley CSA is higher than in the Greater Houston Area (65.6% vs. 59.1%).
- The percentage of dwellings with multiple units in the Greater Houston Area is more than 5 times that of the Waller/Hockley CSA (32.8% vs. 6.1%).
- The percentage of mobile home in the Waller/Hockley CSA is more than 6 times higher than in the Greater Houston Area (27.2% vs. 4.2%).

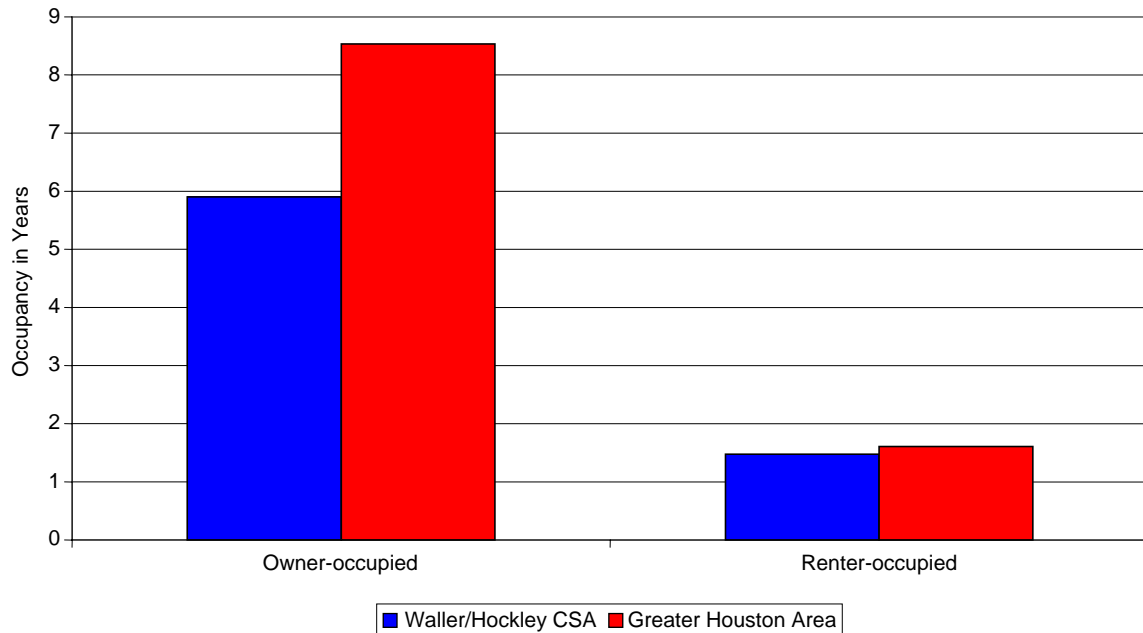

**Median Home Value  
Waller/Hockley CSA and Greater Houston Area**

- The median home value in the Waller/Hockley CSA is lower than in the Greater Houston Area (\$83,577 vs. \$105,209).

**Median Length of Occupancy  
Waller/Hockley CSA and Greater Houston Area**

- The median length of occupancy is generally longer for dwellings that are occupied by the owner, and shorter for those occupied by a renter.
- In owner-occupied housing units, the Waller/Hockley CSA has a shorter median length of occupancy than that of the Greater Houston Area (5.9 years vs. 8.5 years).
- In renter-occupied dwellings, the Waller/Hockley CSA has about the same median length of occupancy as that of the Greater Houston Area (1.5 years vs. 1.6 years).
- In the Waller/Hockley CSA, the median length of occupancy for owner-occupied dwellings is almost 4 times that of renter-occupied dwellings (5.9 years vs. 1.5 years).

**Households by Count of Vehicles Available  
Waller/Hockley CSA and Greater Houston Area**

- The percentage of households with no vehicles available, is lower in the Waller/Hockley CSA than in the Greater Houston Area (4.0% vs. 7.7%).
- The percentage of households with only one vehicle available, is lower in the Waller/Hockley CSA than in the Greater Houston Area (29.5% vs. 36.6%).
- The percentage of households with 2 or more vehicles available, is higher in the Waller/Hockley CSA than in the Greater Houston Area (66.5% vs. 55.8%).
- Most households in the Waller/Hockley CSA have two vehicles available (45.1%).

**Households by Count of Persons  
Waller/Hockley CSA and Greater Houston Area**

- There is a much lower percentage of households in the Waller/Hockley CSA with one person than there is in the Greater Houston Area (17.6% vs. 23.5%).
- In the Waller/Hockley CSA, most households consist of two people (33.9%).
- Over half of the households in the Waller/Hockley CSA consist of one or two people (51.5%).

# Houston Profile Project Waller/Hockley Area CSA #38

## CSA Rankings

By  
Key Lifestyle and Religion Questions

In this section we rank order the 45 CSAs by key religious and lifestyle questions. We use a form of hierarchical modeling in which individual responses to the lifestyle and religion questions in the HPP Poll are estimated with key socio-demographic measures from each CSA. These measures include age structure, race and ethnic composition, household structure, education, income, and housing values. The analysis produces an estimated average response to each question for each of the 45 CSAs. We subsequently rank the 45 CSAs based on these responses, and provide tables of these rankings in this section of the report. Please note that the measures reported here are those for which the hierarchal analysis proved useful. For some measures, the models did not perform well enough to allow us to report rankings with an acceptable level of confidence.

## **Percent Who Receive a Great Deal of Satisfaction from Their Neighborhood Waller/Hockley CSA**

- The Waller/Hockley CSA ranks just above the middle of all CSAs in the Greater Houston Area on neighborhood satisfaction.
- 47.95% of adults living in the Waller/Hockley CSA receive a great deal of satisfaction from their neighborhood.
- There is less neighborhood satisfaction in the Waller/Hockley CSA than in the Greater Houston Area.
- For the Greater Houston Area, 55% report receiving a great deal of satisfaction from their neighborhood.
- There are an estimated 18,720 adults living in the Waller/Hockley CSA.
- In the Waller/Hockley CSA, almost 9,000 adults receive a great deal of satisfaction from their neighborhood.

## **Percent Who Receive a Great Deal of Satisfaction from Their Family Waller/Hockley CSA**

- The Waller/Hockley CSA ranks seventh from the bottom of all CSAs in the Greater Houston Area on family satisfaction.
- Despite its low ranking, 72.61% of adults living in the Waller/Hockley CSA receive a great deal of satisfaction from their families.
- Family satisfaction in Waller/Hockley CSA is lower than the family satisfaction value for the Greater Houston Area.
- For the Greater Houston Area, 79% report receiving a great deal of satisfaction from their families.
- There are an estimated 18,720 adults living in the Waller/Hockley CSA.
- In the Waller/Hockley CSA, almost 13,600 adults receive a great deal of satisfaction from their families.
- However, that means that over 5,100 adults in the Waller/Hockley CSA do not receive a great deal of satisfaction from their families.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory family relationships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches may have an opportunity to make connections with those who do not receive a great deal of satisfaction with family life.

## **Percent Who Receive a Great Deal of Satisfaction from Their Friends Waller/Hockley CSA**

- The Waller/Hockley CSA ranks just below the middle of all CSAs in the Greater Houston Area on satisfaction from friends.
- 55.94% of adults living in the Waller/Hockley CSA receive a great deal of satisfaction from their friends.
- This number is much lower than that in the Greater Houston Area.
- For the Greater Houston Area, 69% report receiving a great deal of satisfaction from their friends.
- Fewer people in Waller/Hockley CSA report receiving a great deal of satisfaction from their friends than report receiving a great deal of satisfaction from their families (55.94% vs. 72.61%).
- Adults in the Waller/Hockley CSA are less satisfied with their neighborhood (47.95%) than with their friends (55.94%) and families (72.61%).
- There are an estimated 18,720 adults living in the Waller/Hockley CSA.
- In the Waller/Hockley CSA, almost 10,500 adults receive a great deal of satisfaction from their friends.
- This means however, that over 8,200 adults in the Waller/Hockley CSA are less satisfied with their friendships.
- This is important for church outreach missions because research by Stark (2000) shows that people who are not embedded in satisfactory friendships are more open to new relationships than those who have an established functional network of family and friends.
- Therefore, local churches have an opportunity to make connections with those who do not receive a great deal of satisfaction with friendships.

## **Percent Who Report Successfully Balancing Work and Family Waller/Hockley CSA**

- The Waller/Hockley CSA ranks fifth from the bottom of all CSAs in the Greater Houston Area on success at balancing work and family.
- Only 23.92% of adults living in the Waller/Hockley CSA report being successful at balancing the dual demands of work and family.
- Compared with the Greater Houston Area, the Waller/Hockley CSA's percentage is much lower.
- For the Greater Houston Area, 34% being successful at balancing the dual demands of work and family.
- There are an estimated 18,720 adults living in the Waller/Hockley CSA.
- In the Waller/Hockley CSA, almost 4,500 adults report being successful at balancing work and family lives.
- This means however, that over 14,200 adults, or the majority of adults in the Waller/Hockley CSA, are not as successful at balancing work and family lives.
- This is important for church missions because research shows that the strains of balancing work and family life are among the leading causes of family dissolution (Kendall 2004).
- Working in the Waller/Hockley CSA's neighborhoods to help families be more successful at managing the dual demands of family and work life is a potential community ministry program.

45	27.00	North Forest	36.58%

## **Percent Who Are Generally Happy with Their Lives Waller/Hockley CSA**

- The Waller/Hockley CSA ranks in the bottom third of all CSAs in the Greater Houston Area on overall happiness.
- 44.33% of adults living in Waller/Hockley CSA report being generally happy with their lives.
- This number is lower than the 48% average for the Greater Houston Area.
- There are an estimated 18,720 adults living in the Waller/Hockley CSA.
- In the Waller/Hockley CSA, almost 8,300 adults report being generally happy.
- This means however, that over 10,400 adults are not very happy.
- As with satisfaction with family and friends, those who are not happy may be more amenable to new relationships. This is important for church outreach missions because research by Stark (2000) shows that people who are not happy are open to ministry.

## Key Leader Interviews

In this section, the results from individual, face-to-face interviews with key leaders in the CSA community are presented. The interviews were conducted by HPP volunteers using a standardized questionnaire developed by CCRD. Various key positions within the community were identified and the individual leaders that filled that particular position were contacted. If the key leader agreed to an interview, the results are included, maintaining confidentiality. The various responses are listed by question and categorized by topic. The key leader positions included elected community leaders, managers of large employers in the area, principals of local schools, civic organization leaders, labor union leaders, local Chamber of Commerce representatives, editors of neighborhood newspapers, directors of minority interest group, law enforcement officers, and leaders of major places of worship.

Center for Community Research and Development  
Community Poll 98

**Key Leader Interviews**  
**CSA #38 – Waller/Hockley Area**

**What are the best things about the Waller/Hockley area?**

Community

- Small town atmosphere, but accessible to the city.
- Citizens of Waller will do anything to help. (Benefits for the needy, illnesses, and burned homes).
- Small and intimate.
- There is a sense of community...have each other's best interests at heart.
- Friendly people.
- Openness.

Education

- Strong school system.

Location

- Located in two counties, Waller and Harris.

Development

- Pro-development, looking for ways to foster projects.
- Aware of need to change.

**What are the major problems facing the area?**

Crime

- Drugs.
- Break-ins, thefts.

Poverty

- Poverty.
- Blighted areas.

Development

- Need for strong capital improvements if we plan to meet development needs; especially infrastructure—roads, streets, water, sewer.
- Fast growth, weekly contacts by varying developers...need to be careful to manage growth.

### Community

- A divided community.
- Controlling spirit, no diversity.

### Miscellaneous

- Confusion in the community in regard to churches.
- Racial issues.
- Taxes for elderly.

### **Do the local places of worship play any roles in the three best things?**

- The churches want to be helpful and are willing to aid people within the community.
- Churches lend aid to the school system.
- Alliance of churches to help needy.

### **Are there other contributions that places of worship are making to the area?**

- Would like to see churches ally more to help with simple household helps such as trips to doctors' offices.
- One church has a mission closet, which is a great aid to the community.
- Most of the people who are active in our community, attend church.
- Giving of scholarships

### **Can you think of any ways local places of worship help with addressing these problems?**

- Teaching young right from wrong; will have to answer to God at some point.
- Christians should have a duty to be, and should be more involved in politics.
- Some churches allow groups designed to aid the chemically dependent to use their facilities.
- The mission closet provided by one church.
- Clean up areas and assist elderly with things such as home repair.

### **Can you think of other organizations and programs that are helping address these problems?**

- Williams Resource—offer support groups for a number of issues.

**Can you think of any ways that local places of worship contribute, even unwittingly, to making these problems worse?**

- If we just pay a bill (i.e. electric bill) the problems remain.
- Churches don't work together—they need to communicate better.
- All churches are doing their own thing.
- Churches are being self-centered and talking too much about each other.
- Need to offer a variety of services.
- Stay in the area where they are familiar.
- They deny the problems and won't address the issues.
- Churches are not focused on a common goal of expanding the kingdom.

**Can you think of any suggestions or potential programs, not already in place, that would help to solve the problems within the Waller/Hockley area?**

- An Alliance of churches that could help with the blight or habitat type project.
- An Alliance of churches who not only help pay electric bill, but offer training to solve problem once and for all.
- A group united in prayer and outreach including all religions and walks of life.
- Instead of feeding the needy only around the holidays, provide for them all year round.
- Have a mixture of people work together, not just church members, but people within the community.

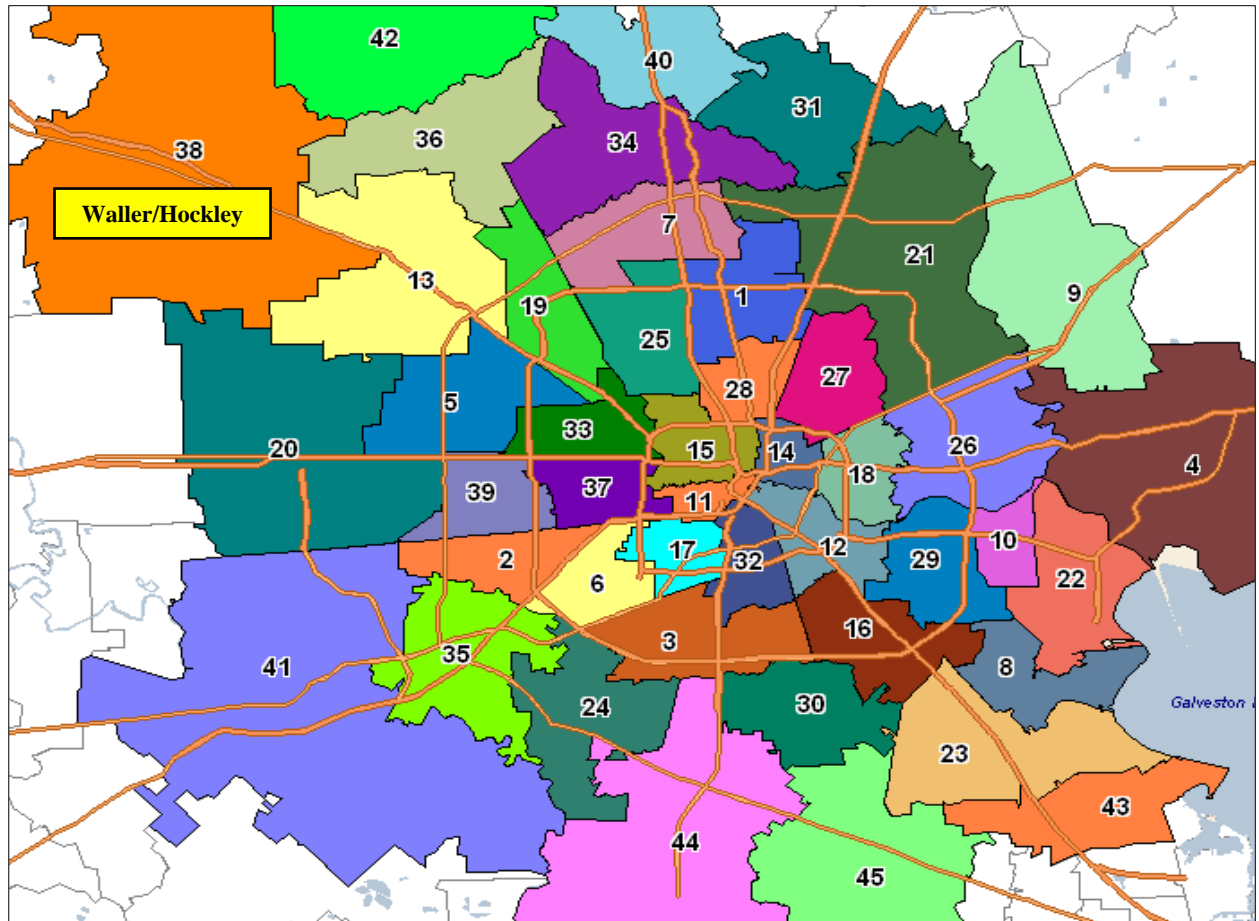

**Finally, is there anything else about the Waller/Hockley area, that you think is especially important, that we really need to know about, that we ought to work on, or that we should include in this report?**

- The churches are segregated, there must be diversity within the church.
- Waller is an area that is set for growth in a tremendous way and through prayer we can set the “gate” to our city and set the standard to grow on.
- Alliance of all groups: city, EDC, churches, Woman's Club, Lion's.
- Computer training.
