

“How are we going to raise \$10,000 for each school?”

EASILY!!!

There are 52 giving weeks a year for congregations, so that means:

- If **1** congregation were responsible for raising \$10,000 alone, that would amount to a **tithe of \$192 each week**
- If **3** congregations raised the \$10,000 together, the **tithe per congregation would amount to \$64 each week**
- If **5** congregations raised the \$10,000 together, the **tithe per congregation would amount to \$38.40 each week**
- If **10** congregations raised the \$10,000 together, the **tithe per congregation would amount to \$19.20 each week**
